CATALOG '87 - '88

Communicating with Lycoming College

Please address specific inquiries as follows:

Director of Admissions:

Admissions; requests for publications

Treasurer:

Payment of bills; expenses

Director of Financial Aid:

Scholarships and loan fund; financial assistance

Dean of College:

Academic programs; faculty; faculty activities

Dean of Student Services:

Some activities; residence halls; religious life; health services; academic support services

Registrar:

Student records; transcript requests; academic policies

Career Development Center:

Career counseling; employment opportunities

Executive Director for College Advancement:

Institutional relations; annual fund; gift programs

Director of Alumni and Parent Relations:

Alumni information; parent support

Director of Public Relations:

Public information; publications; sports information; media relations

All correspondence should be addressed to:

Lycoming College

Williamsport, Pennsylvania 17701

The College telephone number is (717) 321-4000

Visitors

Lycoming welcomes visitors to the campus. If you would like a guided tour, call the Office of Admissions (717) 321-4126 before your visit to arrange a mutually convenient time.

Toll Free Numbers

Pennsylvania Only 1-800-235-3920

Outside Pennsylvania 1-800-345-3920

Lycoming College welcomes applications from prospective students regardless of age, sex, race, religion, handicap, finances, national or ethnic origin, or color. Lycoming does not discriminate on the basis of age, sex, race, religion, handicap, finances, national or ethnic origin, or color in the administration of any of its policies and programs.

The general regulations and policies stated in this catalog are in effect for the 1987-88 academic year. Students beginning their first term at Lycoming College in the fall of 1987 or the spring of 1988 are thereafter governed by the policies stated in this catalog. Requirements governing a student's major are those in effect at the time a major is formally declared and officially accepted by the major department.

If changes are made in subsequent editions of the catalog to either general requirements or major requirements, students may be permitted the option of following their original program or a subsequent catalog version, but the College always reserves the right to determine which requirements apply.

If a student interrupts his or her education without a leave of absence, the catalog requirements in effect at the time of readmission will apply. Students on an approved leave of absence retain the same requirements they had when they entered, if their leaves do not extend beyond one year.

Lycoming College reserves the right to amend or change the policies and procedures stated in this catalog without prior notice to those who may be affected by them. The provisions of this publication are not to be regarded as an irrevocable contract between the applicant and/or the student and Lycoming College.

Welcome to Lycoming

Lycoming is an independent, coeducational college dedicated to providing the type of learning that can be used for a lifetime — the liberal arts and sciences.

Lycoming's academic relevance derives from its enduring commitment to the value of this type of education, as offered by a superior teaching faculty. The College's principal aim is to help students develop a central core of integrated values, skill, information, and strategies while they learn to communicate, reason, make decisions, understand, and use their imagination. This type of education can lead to productive and fulfilling lives in many fields while allowing lifelong growth and development.

Lycoming awards bachelor of arts degrees in 31 major fields, a bachelor of fine arts degree in sculpture, and a bachelor of science degree in nursing. The curriculum is challenging. Because it is built upon the two principles of the

liberal arts known as distribution and concentration, it allows students to study in breadth and depth.

Students who have special interests not met entirely by a major field can design their own majors. Or, if they are interested in teaching, medicine, law, dentistry, or the ministry, they can take courses needed to enter their advanced study.

Students also can study engineering, forestry or environmental studies, podiatric medicine, optometry, medical technology, and sculpture through cooperative programs operated by Lycoming with other colleges and universities. Or, they can study abroad or in Philadelphia, Pa., Washington, D.C., or New York City through other off-campus study programs.

Most students complete their program of study in four years, usually by taking four courses each fall and spring semester. But students also can take one course

during Lycoming's May term, or two courses during the summer term.

Recognizing students' concerns about careers, Lycoming offers extensive counseling through the Career Development Center and advisory committees for prelaw, prehealth professions, and pre-medical students. The College also operates a wide-ranging internship program that allows students to earn academic credit while working at area businesses, government offices, and nonprofit organizations.

Lycoming's ratio of students to faculty is 15 to one, which means that most classes are small and there is abundant opportunity for individual attention. All faculty members teach. More than 70 percent of Lycoming's faculty hold the highest degrees in their fields from the nation's outstanding colleges and universities. And, faculty members take their advising seriously. They care about students, and encourage and guide them so they receive the education they want.

Eighteen buildings sit on Lycoming's main campus. Most of them have been built since 1950. The modern buildings include the eight residence halls; the library; the Academic Center, which houses the Arena Theatre, planetarium, computer center, and art gallery; the student union; the physical education/recreation center, including a six-lane, 25-yard pool; a completely renovated fine arts center with excellent facilities to accommodate sculpture, painting, drawing, printmaking, ceramics and photography; and a music building, which houses individual music practice rooms and an electronic-music studio.

Lycoming houses approximately 900 of its 1,250 students in the residence halls, which include double and single rooms. Most students find the campus friendly and comfortable, with all of the buildings easy to reach from anywhere on campus. Students come from a variety of economic classes, religious beliefs, and geographic areas, although most students call Pennsylvania, New Jersey, or New York their home. They work and play together in an atmosphere of respect and tolerance.

The College offers a variety of extra-

curricular activities. The 1987-88 Artist Series includes the Broadway play CATS, The Royal Winnipeg Ballet, Horacio Guttierrez, pianist with The Northeastern Pennsylvania Philharmonic, and Late Great Ladies of Jazz and Blues. Rich in diversity, previous Artist Series have brought satirist Mark Russell, internationally acclaimed mime Marcel Marceau, and the successful Broadway musical *On Your Toes* to Williamsport. Admission to all Artist Series events is free for Lycoming students. Student government groups help to plan campus activities and social events. Numerous clubs, honor societies, social fraternities and sororities, the student newspaper, yearbook and literary magazine, and the band and widely acclaimed choir meet other student interests. Students who like to perform or compete can act on the Arena Theatre stage or play on intercollegiate or intramural sports teams. Intercollegiate teams for men include football, soccer, basketball, wrestling, tennis, golf, swimming, track and field, and cross country. Intercollegiate teams for women include basketball, tennis, field hockey, swim-

ming, track and field, and cross country.

In addition, students who like hiking, backpacking, skiing, camping, fishing, hunting, kayaking, spelunking, and other outdoor sports will find Lycoming's location ideal.

Lycoming is situated on a slight prominence near downtown Williamsport, a small city nestled along the West Branch of the Susquehanna River in northcentral Pennsylvania's rolling hills and valleys. Yet, the College is within a four-hour drive of metropolitan centers such as New York City, Philadelphia, Pittsburgh, Washington, D.C., Baltimore, Syracuse, Rochester, and the New Jersey shore points. The Williamsport-metro area is home to about 75,000 persons.

Lycoming enjoys a relationship with The United Methodist Church. It supports the Methodist tradition of providing an education for persons of all faiths.

Fully accredited, Lycoming is a member of the Middle States Association of Colleges and Schools, and the University Senate of The United Methodist Church. It is a member of the Association of American Colleges, the Pennsylvania

Association of Colleges and Universities, the Commission for Independent Colleges and Universities, the National Commission on Accrediting, and the National Association of Schools and Colleges of The United Methodist Church.

HISTORY

Lycoming College was founded in 1812 as the Williamsport Academy, an elementary and secondary school. Thirty-six years later, the academy became the Williamsport Dickinson Seminary under the patronage of The Methodist Episcopal Church. The seminary operated as a private boarding school until 1929, when a college curriculum was added and it became the Williamsport Dickinson Seminary and Junior College. In 1947, the junior college became a four-year degree-granting college of liberal arts and sciences. It adopted the name Lycoming, derived from the Indian word "Iacomic," meaning "Great Stream." The word Lycoming has been common to north-central Pennsylvania since colonial days.

Academic Program

THE BACHELOR OF ARTS DEGREE

Lycoming is committed to the principle that a liberal arts education is the best hope for an enlightened citizenry. Consequently, the bachelor of arts degree is conferred upon the student who has completed an educational program incorporating the two principles of the liberal arts known as distribution and concentration. The objective of the distribution principle is to insure that the student achieves breadth in learning through the study of the major dimensions of human inquiry: the humanities, the social sciences, and the natural sciences. The objective of the concentration principle is to provide depth of learning through completion of a program of study in a given discipline or subject area known as the major.

REQUIREMENTS FOR THE BACHELOR OF ARTS DEGREE

Every degree candidate is expected to complete the following requirements in order to qualify for graduation:

- complete the distribution program.
- complete a major consisting of at least eight courses while achieving a minimum grade point average of 2.0 in those courses.
- earn one year of credit in physical education. All students must demonstrate competence in swimming. (Medical exemptions may be granted by the College physician after an examination and review of the student's medical history and family physician's report.)
- pass a minimum of 128 semester hours (32 unit courses) with a minimum cumulative average of 2.0. Additional credits beyond 128 semester hours may be completed provided the minimum 2.0 cumulative average is maintained.
- complete *in residence* the final eight courses offered for the degree at Lycoming.
- satisfy all financial obligations incurred at the College.
- complete the above requirements

within seven years of continuous enrollment following the date of matriculation.

All exemptions or waivers of specific requirements are made by the Committee on Academic Standing.

THE BACHELOR OF FINE ARTS DEGREE

The bachelor of fine arts degree is specifically designed to train professional artists. The BFA in sculpture is a synthesis of three diverse forms of education: a studio art program that emphasizes the skills and concepts of the visual language; an apprenticeship that takes technical expertise as the departure point, and the scholastic method employed in both art history and the general-education component.

REQUIREMENTS FOR THE BACHELOR OF FINE ARTS DEGREE

Every BFA degree candidate is expected to complete the following requirements in order to qualify for graduation:

- complete the 12-course Art Department course of study.
- complete the distribution program.
- complete a total of 32 course units achieving a minimum grade point average of 2.0 in those courses taken within the College.
- complete one of the field specialization apprenticeships at the Johnson Atelier Technical Institute of Sculpture.
- earn one year of credit in physical education. All students must demonstrate competence in swimming. (Medical exemptions may be granted by the College physician after an examination and review of the student's medical history and family physician's report.)
- complete *in residence* the final eight courses offered for the degree at Lycoming.
- satisfy all financial obligations incurred at the College.

— have a public exhibition of original art work and make an oral defense.

THE BACHELOR OF SCIENCE IN NURSING DEGREE

The program of study leading to the bachelor of science in nursing degree is designed to prepare men and women as beginning practitioners of professional nursing, qualified for first-level positions in a variety of health settings and for graduate study in nursing. Upon satisfactory completion of the program, a graduate is eligible to write the State Board of Nursing examination for licensure as a registered nurse. The goal of the program is to develop a liberally educated and self-directed individual who is prepared to contribute to the welfare of the nation through the practice of professional nursing which supports the promotion and restoration of health of individuals and families in a variety of settings.

REQUIREMENTS FOR THE BACHELOR OF SCIENCE IN NURSING DEGREE

Every BSN degree candidate is expected to complete the following requirements in order to qualify for graduation:

- complete the 13-course major with a minimum cumulative average of 2.0, including the required May term following the junior year.
- complete the distribution requirements for the BSN degree.
- complete a minimum of 128 semester hours (32 units) with a minimum cumulative average of 2.0.
- earn one year of credit in physical education. All students must demonstrate competence in swimming. (Medical exemptions may be granted by the College physician after an examination and review of the student's medical history and family physician's report.)
- complete *in residence* the final eight courses offered for the degree at Lycoming.
- satisfy all financial obligations incurred at the College.

- complete the degree requirements within a five-year period after admission to the nursing major. Candidates who are unable to meet this requirement must petition for an extension.

WRITING ACROSS THE CURRICULUM PROGRAM

I. Purpose

The Lycoming College Writing Across the Curriculum Program has been developed in response to the conviction that writing skill promotes intellectual growth and is a hallmark of the educated person. The program has therefore been designed to achieve two major, interrelated objectives:

- (1) to enhance student learning in general and subject mastery in particular, and
- (2) to develop students' abilities to communicate clearly. In this program students are given opportunities to write in a variety of contexts and in a substantial number of courses, in which they receive faculty guidance and reinforcement.

II. Program Requirements

In order to graduate from Lycoming all students must complete the following writing requirements:

- A. English 005, Developmental English, or exemption from the course.
- B. English 106, Composition and one other English course.
- C. A writing component in all distribution courses completed at Lycoming.
- D. Two courses designated as writing-intensive, or "W" courses.
 - (1) Successful completion of English 106 is a prerequisite for enrollment in writing-intensive courses.
 - (2) All courses designated "W" are numbered 200 or above.
 - (3) Each student must complete one "W" course from among those offered by the major department, or, with departmental approval, from a

related department. The other "W" course completed must be from a department other than the major department. In the case of students with multiple majors, one "W" course must be completed from one of those majors. The second course may be taken in one of the student's other majors.

- (4) Students should take one "W" course during the sophomore year and one during the junior year — though other sequences are possible and may in certain circumstances be advisable.
- (5) A writing intensive course may not duplicate a course taken to satisfy II. B.

THE DISTRIBUTION PROGRAM

A course can be used to satisfy only one distribution requirement. Courses for which a grade of "S" is recorded may not be used toward the fulfillment of the distribution requirements. (Refer to page 10 for an explanation of the grading system.) A course in any of the following distribution requirements refers to a full-unit (four semester hours) course taken at Lycoming, any appropriate combination of fractional unit courses taken at Lycoming which accumulate to four semester hours, or any single course of three or more semester hours transferred from another institution. For the BSN degree, see special modified distribution requirements on page 7.

English — Students are required to demonstrate competence in basic writing skills and to pass English 106 and one other unit of English. Competence in basic writing skills may be demonstrated either by passing the Achievement Examination in English Composition or by earning a Satisfactory in English 005. A student must demonstrate this competence before being permitted to enroll in English 106. Unless impossible because of failure to complete English 005,

English 106 *must* be taken during the freshman year; English 106 or consent of instructor is required before enrolling in any other English course. Students may choose any course from the department's offerings to satisfy the requirement for another unit in English.

Foreign Language or Mathematics

— Students are required to meet a minimum basic requirement in either a foreign language or the mathematical sciences.

Foreign Language. Students may choose from among French, German, Greek, Hebrew, or Spanish and are required to pass two courses on the intermediate or higher course level. Placement at the appropriate course level will be determined by the faculty of the Department of Foreign Languages and Literatures. Students who have completed two or more years of a given language in high school are not admitted for credit to the elementary course in the same foreign language except by written permission of the chairman of the department. French 228 and Spanish 331 will meet part of this requirement only if the section taught in the language is completed.

Mathematics. Students are required to demonstrate competence in basic algebra and to pass three units of Mathematical science other than Mathematics 005. Competence in basic algebra may be demonstrated either by passing the basic algebra section of the Mathematics Placement Examination or by passing Mathematics 005. By demonstrating higher competence on the Mathematics Placement Examination, students may reduce the requirement to two units of mathematical science. *No more than one unit may be taken in computer science.*

Religion or Philosophy — Students are required to pass two courses in either religion or philosophy. Any two religion courses may be used to fulfill the philosophy/religion distribution requirement, with this exception: only one course from the combination Religion 120-121 may be selected for distribution.

Fine Arts — Students are required to pass two courses as indicated in art, literature, music, or theatre.

Art. Any two courses.

Literature. Any two literature courses selected from the offerings of the Departments of English and Foreign Languages and Literatures (French, German, or Spanish).

Music. Any combination of eight (8) credits, including applied music, ensemble, and music department courses.

Theatre. The fine arts distribution requirement may be satisfied by selecting any two of the following recommended courses: Theatre 100, 110, 140, 148, 332, 333, or other courses with the consent of the instructor.

Natural Science — Students are required to pass any two courses in one of the following disciplines: astronomy and physics, biology, or chemistry.

History and Social Science — Students are required to pass two courses as indicated in economics, history, political science, psychology, or sociology/anthropology.

Economics. Any two courses.

History. Any two courses, except History 222.

Political Science. Any two courses.

Psychology. Psychology 110 and one other course.

Sociology/Anthropology. Sociology/Anthropology 110 plus another course.

THE DISTRIBUTION PROGRAM FOR THE BSN DEGREE

English — standard requirement as shown above.

Mathematical Sciences — competence in basic algebra as demonstrated by completion of, or exemption from Math 005; Mathematics 103; and Computer Science 125

Religion and Philosophy — Religion 120 and Philosophy 219

Fine Arts/Foreign Language — two courses from one department as follows:

Art — any two (2) courses

Literature — any two literature courses selected from the departments of English and Foreign Languages and Literatures

Music — any combination of eight (8) credits, including applied music, ensemble, and music department courses

Theatre — any two (2) courses from among Theatre 100, 110, 140, 148, 332, 333, or other courses with the consent of the instructor

Language — any two (2) courses at the intermediate or higher level. No student who has had two or more years of a given foreign language in high school shall be admitted to the elementary courses in that same language for credit, except by written permission of the chairman of the department.

Natural Science — Chemistry 108, 115

Social Science — Psychology 110 and 117; Sociology and anthropology — one from among Soc 110, 114, 220, 228, and 229.

Physical Education — standard requirement as shown on page 5.

THE MAJOR

Students are required to complete a series of courses in one departmental or interdisciplinary (established or individual) major. Specific course requirements for each major offered by the College are listed in the curriculum section of this catalog. Students must earn a 2.0 or higher grade-point average in those courses stipulated as comprising the major. (This requirement is not met by averaging the grades for all courses completed in the major department.) Students must declare a major by the beginning of their junior year. Departmental and established interdisciplinary majors are declared in the Office of the Registrar, whereas individual interdisciplinary majors must be approved by the Committee on Curriculum Development. Students may complete more than one major, each of which will be recorded on

the transcript. Students may be removed from major status if they are not making satisfactory progress in the major. This action is taken by the Dean of the College upon the recommendation of the department, coordinating committee (for established interdisciplinary majors), or Curriculum Development Committee (for individual interdisciplinary majors). The decision of the Dean of the College may be appealed to the Academic Standing Committee by the student involved or the recommending department or committee.

Departmental Majors — Departmental majors are available in the following areas:

Accounting

Art History

Art Studio

Astronomy

Biology

Business Administration

Chemistry

Computer Science

Economics

English

Foreign Languages, and Literatures

French, German, Spanish

History

Mathematics

Music

Nursing

Philosophy

Physics

Political Science

Psychology

Religion

Sociology/Anthropology

Theatre

Established Interdisciplinary Majors

— The following established interdisciplinary majors include course work in two or more departments:

Accounting-Mathematical Sciences

American Studies

Criminal Justice

International Studies

Literature

Mass Communication

Near East Culture and Archaeology

Individual Interdisciplinary Majors
— Students may design a major that is unique to their needs and objectives and which combines course work in more than one department. This major is developed in consultation with the student's faculty advisor and with a panel of faculty members from each of the sponsoring departments. The application is acted upon by the Curriculum Development Committee. The major normally consists of 10 courses beyond those taken to satisfy the distribution requirements. Students are expected to complete at least six courses at the junior or senior level. Examples of individual interdisciplinary majors are Racial and Cultural Minorities, Illustration in the Print Medium, Environmental Law, Advertising, Art/History, Art/Business, Human Behavior, and Images of Man.

Major in Sculpture Leading to Bachelor of Fine Arts Degree — Through a cooperative program with the Johnson Atelier Technical Institute of Sculpture, Mercerville, New Jersey, students may earn a BFA degree in sculpture. The major consists of a core academic program, a course of study in art, elective courses, and an apprenticeship at the Johnson Atelier.

THE MINOR

The College awards two kinds of minors, departmental and interdisciplinary, in recognition of concentrated course work in an area other than the student's major. All minors are subject to the following limitations:

- a minor must include at least two courses which are not counted in the student's major.
- a student may receive at most two minors.
- students with two majors may receive only one minor; students with three majors may not receive a minor.
- students may not receive a minor in their major discipline unless their major discipline is Art and the minor is Art History. (A discipline

is any course of study in which a student can major. Tracks within majors are not separate disciplines.)

- a student may not receive a minor unless his average in the courses which count for his minor is a minimum of 2.00.
- courses taken S/U may not be counted toward a minor.

Students must declare their intention to minor by signing a form available in the Registrar's Office, getting required faculty signatures, and returning the completed form to the Records Room.

When students complete a minor, the title will be indicated on their official transcript. Students must meet the requirements for the minor which are in effect at the time they declare a minor or which are in effect subsequent to that time and before they graduate.

Departmental Minors — Requirements for a departmental minor vary from department to department. Students interested in pursuing a departmental minor should consult that department for its policy regarding minors.

Departmental minors are available in the following areas:

ACCOUNTING

- Financial Accounting
- Managerial Accounting
- Federal Income Tax

ART

- Art History
- Sculpture
- Painting

BIOLOGY

BUSINESS ADMINISTRATION

- Marketing
- Finance

CHEMISTRY

ECONOMICS

ENGLISH

- Literature
- Writing

FOREIGN LANGUAGES AND

- LITERATURES
- French
- German
- Spanish

HISTORY

- American History
- European History
- History

MASS COMMUNICATION

MATHEMATICAL SCIENCES

- Computer Science

Mathematics

PHILOSOPHY

- Philosophy
- Philosophy and Law

Philosophy and Science

The History of Philosophy

POLITICAL SCIENCE

- Political Science

Foreign Affairs

Legal Studies

PSYCHOLOGY

RELIGION

SOCIOLOGY/ANTHROPOLOGY

THEATRE

Theatre History & Literature

Performance

Technical Theatre

Interdisciplinary Minors — Interdisciplinary minors include coursework in two or more departments. Students interested in interdisciplinary minors should consult the faculty coordinator of that minor. Interdisciplinary minors are available in the following areas: BIBLICAL LANGUAGES, CRIMINAL JUSTICE, MASS COMMUNICATION, and WOMEN'S STUDIES.

ACADEMIC ADVISEMENT

One advantage of a small college is the rich experience gained by the close association of students and faculty. The advisement program at Lycoming enables students to discuss academic and other problems as well as opportunities with faculty advisors, instructors, and the staffs of the Dean of the College and the Dean of Student Services.

During the summer orientation, freshmen are assigned a faculty advisor who is prepared to assist new students with the challenges of an unfamiliar social and academic environment. All students are required to have a faculty advisor. When students have declared a major, they are then assigned an advisor from within the

major department or program.

Although the advisement program is an important part of the Lycoming academic experience, students are expected to accept full responsibility for their academic programs, including satisfactory completion of program and College-wide requirements.

Special advising for selected professions is provided by the health, legal, and theological professions advisory committees. Students interested in these professions should register with the appropriate committee during their first semester of enrollment at Lycoming or immediately after they decide to enter these professions.

Preparation for Educational Professions — Lycoming College believes that the liberal arts provide the best preparation for future teachers, thus all education students complete a liberal arts major in addition to the certification requirements. Students can be certified in elementary education or one or more of the following secondary areas: art (K-12), biology, chemistry, English, French, general science (with biology or astronomy/physics tracks), German, mathematics, music (K-12), physics, social studies, and Spanish. All teacher-education programs are approved by the Pennsylvania Department of Education. Pennsylvania certificates are recognized in most other states either through reciprocal agreements or by transcript evaluation.

Preparation for Health Professions

— The program of pre-professional education for the health professions (allopathic, dental, osteopathic, podiatric and veterinary medicine, optometry, and pharmacy) is organized around a sound foundation in biology, chemistry, mathematics, and physics and a wide range of subject matter from the humanities, social sciences, and fine arts. At least three years of undergraduate study is recommended before entry into a professional school; the normal procedure is to complete the bachelor of arts degree.

Students interested in one of the health professions or in an allied health career

should make their intentions known to the admissions office when applying and to the Health Professions Advisory Committee (HPAC) during their first semester. The committee advises students concerning preparation for and application to health-professions schools. All pre-health professions students are invited to join the student Pre-Health Professions Association. (See also descriptions of the nursing program and of the cooperative programs in podiatric medicine, optometry, and medical technology.)

Preparation for Legal Professions

— Lycoming offers a strong academic preparation for students interested in law as a profession. Admission to law school is not predicated upon a particular major or area of study; rather, a student is encouraged to design a course of study (traditional or interdisciplinary major) which is of personal interest and significance. While no specific major is recommended, there are certain skills of particular relevance to the pre-law student: clear writing, analytical thinking, and language comprehension. These skills should be developed during the undergraduate years.

Pre-law students should register with the Legal Professions Advisory Committee (LPAC) upon entering Lycoming and should join the Pre-Law Society on campus. LPAC assists the pre-law student through advisement, compilation of recommendations, and dissemination of information and materials about law and the legal profession. It sponsors Pre-LSAT workshops to help prepare students for the law boards. The Pre-Law Society has sponsored films, speakers, and field trips, including visits to law school campuses.

Preparation for Theological Professions

— The Theological Professions Advisory Committee (TPAC) acts as a "center" for students, faculty, and clergy to discuss the needs of students who want to prepare themselves for the ministry, religious education, advanced training in religion, or related vocations. Also, it may help coordinate internships for students who desire practical experi-

ence in the parish ministry or related areas. Upon entering Lycoming, students should register with TPAC if they plan to investigate the religious vocations.

In general, students preparing to attend a theological seminary should examine the suggestions set down by the Association of Theological Schools (available from TPAC). Recommended is a broad program in the liberal arts, a major in one of the humanities (English, history, languages, literature, philosophy, religion) or one of the social sciences (American studies, criminal justice, economics, international studies, political science, psychology, sociology-anthropology), and a variety of electives. Students preparing for a career in religious education should major in religion and elect five or six courses in psychology, education, and sociology. This program of study will qualify students to work as an educational assistant or a director of religious education after graduate study in a theological seminary.

REGISTRATION

During the registration period, students select their courses for the next semester and register their course selections in the Office of the Registrar. Course selection is made in consultation with the student's faculty advisor in order to insure that the course schedule is consistent with College requirements and student goals. After the registration period, any change in the student's course schedule must be approved by both the faculty advisor and Office of the Registrar. Students may not receive credit for courses in which they are not formally registered.

During the first five days of classes, students may drop any course without any record of such enrollment appearing on the permanent record, and they may add any course that is not closed. Students wishing to drop a course between the fifth day and the 12th week of classes must secure a withdrawal form from the Office of the Registrar, which is presented to the instructor of the course in question, who assigns a withdrawal

grade based on the level of the student's performance from the beginning of the course to the date of withdrawal. Withdrawal grades are not computed in the grade point average. Students may not withdraw from courses after the 12th week of a semester and the comparable period during the May and summer terms.

In two-credit (1/2 unit) courses meeting only during the last half of any semester, students may drop/add for a period of five days, effective with the mid-term date shown on the academic calendar. Withdrawal from half-semester courses with a withdrawal grade may occur within six weeks of the beginning of the course. It is understood that the period of time at the beginning of the semester and at the mid-point of the semester will be identical, for example, a period of five days as indicated above.

THE UNIT COURSE SYSTEM

Instruction at Lycoming College is organized, with few exceptions, on a departmental basis. Most courses are unit courses, meaning that each course taken is considered to be equivalent to four semester hours of credit. Exceptions occur in applied music and theatre practicum courses, which are offered for either one-half or one semester hour of credit, and in departments that have elected to offer certain courses for the equivalent of two semester hours of credit. Further, independent studies and internships carrying two semester hours of credit may be designed. The normal student course load is four courses during the fall and spring semesters. Students who elect to attend the special sessions may enroll in one course during the May term and one or two courses in the summer term. A student is considered full time when enrolled for a minimum of three courses during the fall or spring semesters, one course for the May term, and two courses for the summer term. Students may enroll in five courses during the fall and spring semesters if they are Lycoming Scholars or were admitted to the Dean's List at the end of the previous semester. Exceptions may be granted by the Dean

of the College. Overloads are not permitted during the May and summer terms.

THE SYSTEM OF GRADING AND REPORTING OF GRADES

The evaluation of student performance in credit courses is indicated by the use of traditional letter symbols. These symbols and their definitions are as follows: A *Excellent* — Signifies superior achievement through mastery of content or skills and demonstration of creative and independent thinking.

B *High Pass* — Signifies better-than-average achievement wherein the student reveals insight and understanding.

C *Pass* — Signifies satisfactory achievement wherein the student's work has been of average quality and quantity. The student has demonstrated basic competence in the subject area and may enroll in additional course work.

D *Low Pass* — Signifies unsatisfactory achievement wherein the student met only the minimum requirements for passing the course and should not continue in the subject area without departmental advice.

F *Failing* — Signifies that the student has not met the minimum requirements for passing the course.

I *Incomplete Work* — Assigned in accordance with the restrictions of established academic policy.

R *A Repeated Course* — Students shall have the option of repeating courses for which they already have received a passing grade in addition to those which they have failed. Credit is received only once for the course. Grades will be averaged.

S *Passing Work, no grade assigned* — Converted from traditional grade of A, B, C, or D.

U *Failing work, no grade assigned* — converted from traditional grade of F.

X *Audit* — Work as an auditor for which no credit is earned.

W *Withdrawal* — Signifies withdrawal from the course early in the term when it cannot be determined that the student is passing or failing.

WP *Withdrawal, passing* — The student was passing at the time of withdraw-

al; no credit is earned.

WF *Withdrawal, failing* — The student was failing at the time of withdrawal; no credit is earned.

The cumulative grade point average (GPA) is calculated by multiplying quality points by credits and dividing the total quality points by the total credits. A quality point is the unit of measurement of the quality of work done by the student.

Grade	Quality Points Earned for each semester hour
A	4.00
A-	3.67
B +	3.33
B	3.00
B-	2.67
C +	2.33
C	2.00
C-	1.67
D +	1.33
D	1.00
D-	0.67
F	0.00

The grade point average for the major is calculated in the same manner for the courses required for the major.

A minimum of 2.00 is required for the cumulative grade point average and for the grade point average in the major to meet the requirements for graduation. You cannot compute your cumulative GPA by averaging your semester GPA's.

Use of the satisfactory/unsatisfactory grading option is limited as follows (this does not apply to Education 005 and English 005):

- students may enroll on an S/U basis in no more than one course per semester and no more than four courses during the undergraduate career.
- S/U courses completed after declaration of the major may not be used to satisfy a requirement of that major, including courses required by the major department which are offered by other departments. (Instructor-designated courses are excepted from this limitation.)

- courses for which a grade of S is recorded may not be used toward fulfillment of any distribution requirement.
- students may not enroll in English 6 on an S/U basis.
- a course selected on an S/U basis which is subsequently withdrawn will not count toward the four-course limit.
- instructor-designated courses may be offered during the May term with the approval of the Dean of the College. Such courses are not counted toward the four-course limit.
- S/U grades are not computed in the grade point average.
- students electing the S/U option may designate a minimum acceptance letter grade of A or B. If the letter grade actually earned by the student equals or exceeds this minimum, that letter grade is entered on the student's permanent record and is computed in the grade point average. In such a case, the course does not count toward the four-course limit. If the student does not indicate a minimum acceptable letter grade or if the letter grade actually earned is lower than the minimum designated by the student, the Registrar substitutes an S for any passing grade (A, A-, B+, B-, C+, C-, D+, D, or D-) and a U for an F grade.
- students receiving either an S or U grade may not be eligible for the Dean's List for that semester.
- students must declare the S/U option before the end of the period during which courses may be added during any given semester, half-semester, or term.
- instructors are not notified which of their students are enrolled on an S/U basis.
- students electing the S/U option are expected to perform the same work as those enrolled on a regular basis.

Incomplete grades may be given if, for absolutely unavoidable reasons (usually medical in nature),

the student has not been able to complete the work requisite to the course. An incomplete grade must be removed within six weeks of the next regular semester.

Students shall have the option of repeating courses for which they already have received a passing grade in addition to those which they have failed. Recording of grades for all repeated courses shall be governed by the following conditions:

- a course may be repeated only one time.
- both attempts will be recorded on the student's transcript.
- credit for the course will be given only once.
- for the purpose of determining the student's GPA, the average grade received for the two attempts will be used as if it were the grade for a single course.
- a repeated course will be counted toward the total number of unsuccessful attempts.

ATTENDANCE

The academic program at Lycoming is based upon the assumption that there is value in class attendance for all students. Individual instructors have the prerogative of establishing reasonable absence regulations in any course. The student is responsible for learning and observing these regulations.

STUDENT RECORDS

The policy regarding student educational records is designed to protect the privacy of students against unwarranted intrusions and is consistent with Section 438 of the General Education Provision Act (commonly known as the Family Educational Rights and Privacy Act of 1974, as amended). The details of the College policy on student records and the procedures for gaining access to student records are contained in the current issue of *The Pathfinder*, which is available in the library and the Office of the Dean of the College.

ACADEMIC STANDING AND ACADEMIC HONESTY

Students will be placed on academic probation if either the number of hours completed or cumulative grade point average falls below the following standards:

Semester (Full-time)	Hours Completed	Cumulative GPA
1	12	1.66
2	24	1.85
3	40	1.90
4	56	2.00
5	72	2.00
6	88	2.00
7	104	2.00
8	120	2.00

In order to meet graduation requirements, students must complete 128 credit hours. Students who are enrolled part time or for fewer than the normal four courses per term will be expected to complete an equivalent proportion of their program each semester.

Students will be subject to suspension from the College if they:

- are on probation for two consecutive semesters;
- achieve a grade point average of 1.00 or below during any one semester.

Students will be subject to dismissal from the College if they:

- can not reasonably complete all requirements for a degree;
- exceed 24 semester hours of unsuccessful course attempts (grades of F, U, W, WP, WF, and R) except in the case of withdrawal for medical or psychological reasons.

The integrity of the academic process of the College requires honesty in all phases of the instructional program. The College assumes that students are committed to the principle of academic honesty. Students who fail to honor this commitment are subject to dismissal. Procedural guidelines and rules for the adjudication of cases of academic dishonesty are

printed in *The Faculty Handbook* and *The Pathfinder* (the student academic handbook), copies of which are available in the library.

TRANSFER CREDIT

A Lycoming College student who wishes to satisfy any degree, distribution, major or minor requirement with course work completed at another institution must secure permission to study off-campus from the department chairperson (of each department in which credit will be awarded) and approval from the Registrar. If a course is approved for transfer prior to the first meeting thereof, Lycoming College guarantees the transfer of that course and grade.

CREDIT BY EXAMINATION

Advanced Placement — Entering freshmen who have completed an advanced course while in secondary school and who have taken the appropriate advanced-placement examination of the College Entrance Examination Board (CEEB) are encouraged to apply for credit and advanced placement at the time of admission. A grade of three or above is considered satisfactory. Students should inform the Registrar's Office and their academic advisor immediately when advanced placement examinations have been taken.

College Level Examination Program (CLEP) — Students may earn college credit for superior achievement through CLEP. By achieving at the 75th percentile or above on the General Examinations and the 65th percentile or above on approved Subject Examinations, students may earn up to 50 percent of the course requirements for a bachelor of arts degree. Although these examinations may be taken after enrollment, new students who are competent in a given area are encouraged to take the examination of their choice during the second semester of their senior year so that Lycoming will have the test scores available for registration advisement for the first semester of enrollment. Further

information about CLEP may be obtained through the secondary-school guidance office or the Office of Admissions or the Registrar at Lycoming College. Students should inform the Registrar's Office and their academic advisor immediately when CLEP examinations have been taken.

ACADEMIC HONORS

Dean's List — Students are admitted to the Dean's List at the end of the fall and spring semesters if they have completed at least 15 credits with other than S/U or R grades, and have a minimum grade point average of 3.50 for the semester.

Graduation Honors — Students are awarded the bachelor of arts degree, the bachelor of fine arts degree, or the bachelor of science in nursing degree with honors when they have earned the following grade point averages based on all courses attempted at Lycoming, with a minimum of 64 credits (16 units) required for a student to be eligible for honors:

summa cum laude	3.90-4.00
magna cum laude	3.50-3.89
cum laude	3.25-3.49

Academic Honor Awards, Prizes, and Societies — Superior academic achievement is recognized through the conferring of awards and prizes at the annual Honors Day convocation, the Academic Awards banquet, and Commencement and through election to membership in honor societies.

Societies

Prizes and Awards

American Chemical Society Award — The award, sponsored by the Susquehanna Valley Chapter of the society, is given to the outstanding senior in chemistry who plans to enter the profession.

Accounting Society Service Award — The award is given for outstanding service to the Lycoming College Accounting Society.

American Institute of Chemists Prize — The prize, given by the Philadelphia section of the institute, goes to the senior major for excellence in chemistry.

Jack C. Buckle Award — The award is given annually to a junior male student with high moral qualities, who has made an unusual contribution to campus life through leadership in student activities.

Byron C. Brunstetter Science Award — The award is given for outstanding achievement in chemical and biological sciences.

CRC Press Chemistry Achievement Award — The award is given to the freshman who has exhibited outstanding academic achievement in chemistry.

Chieftain Award — The College's most prestigious award is given to the senior who has contributed most to Lycoming through support of school activities; who has exhibited outstanding leadership qualities; who has worked effectively with other members of the College community; who has evidenced a good moral code; and whose academic rank is above the median for the preceding senior class.

Civic Choir Award — The award is given to the College choir member who has outstanding musical ability and who has made significant leadership contributions to the choir.

Class of 1907 Prize — The prize is given to the senior who has been outstanding in

the promotion of College spirit through participation in athletics and other activities.

Benjamin C. Conner Prize — The prize is given to the graduating student who has done outstanding work in mathematics.

Durkheim Award — The award is given to the senior sociology/anthropology major who has done outstanding work in the field.

Bishop William Perry Eveland Prize — The prize is given to the senior who has shown progress in scholarship, loyalty, school spirit, and participation in school activities.

Excellence in Two-Dimensional Art Award — The award is given to the outstanding senior art major in this field.

Excellence in Three-Dimensional Art Award — The award is given to the outstanding senior art major in this field.

Excellence in Theatre Performance Award — The award is given to the student who has been outstanding as a performer in the Arena Theatre.

Excellence in Technical Theatre Award — The award is given to the student who has been outstanding as a technician for the Arena Theatre.

Excellence in Political Science Award — The award goes to the senior political science major who has performed with excellence.

W. Arthur Faus Memorial Prize — Prize given in memory of Dr. W. Arthur Faus, a former Professor of Philosophy at Lycoming College, to the graduating senior who has done outstanding work in philosophy.

J.W. Ferree Award — Given in memory of the first mathematics professor at Lycoming's forerunner, the Dickinson Seminary, the award goes to the student most active in mathematical sciences.

Faculty Prize — The prize is given to the commuting student with satisfactory scholarship and who has been outstanding in promotion of school spirit through participation in school activities.

Durant L. Furey III Memorial Prize — The prize is given to the senior accounting major who has shown outstanding achievement in accounting.

Gillette Foreign Language Prizes — The prizes are given to the French, German, and Spanish majors who have achieved excellence in foreign languages.

John P. Graham Award — Named in honor of a professor emeritus, the award is given to the senior English major who achieves the highest average in English.

Edward J. Gray Prizes — The prizes are given to the graduating students with the highest and second highest averages.

Dan Gustafson Award — In memory of a former member of the English Department, the award is given to the senior English major whose analytical writing demonstrates the highest standards of literary and critical excellence.

IRUSKA Awards — The awards denote membership in the society for juniors who are very active on campus.

Junior Book Award — The award is given to the outstanding junior political science major.

Elisha Benson Kline Prize — The prize is given to the senior mathematics major with outstanding achievement in the field.

Charles J. Kocian Awards — The awards are given to the accounting, business administration, and economics majors who show the greatest proficiency in statistics; the mathematics major who shows the greatest proficiency in applied mathematics; the graduating senior who shows the greatest proficiency in computer science and operations research; the graduating senior business

administration major with highest grade point average; the graduating senior with highest average in the class and the graduating nursing major with highest grade point average.

Don Lincoln Larrabee Law Prize — The prize is given to the graduating student who has shown outstanding scholarship in legal principles.

The John M. Lindemuth Endowed Prize Fund — The John M. Lindemuth Endowed Prize Fund, established in 1986 by Mr. and Mrs. John M. Lindemuth of Williamsport, Pennsylvania, provides annual cash awards for varsity football players who earn the highest cumulative grade point average in their chosen field of academic study at Lycoming College. This prize is managed in compliance with current NCAA regulations concerning scholastic awards for athletes.

C. Daniel and Jeanne Little Award — Presented in memory of two Lycoming alumni, the award is given to the outstanding student in public administration.

The Gertrude B. Madden Mass Communication Award — Established in 1985 by the students of the Mass Communication Society, the award is to be presented annually to the senior mass communication major who, in the judgment of his or her peers, has best integrated academic excellence, professional development in a mass media field and contribution to campus media.

The Makisu Award — The award is given for outstanding service to the college community, for dedication above and beyond the realm of one's obligations to the College.

John C. McCune Memorial Prizes — The prizes are given to the senior majors in mathematics, biology, chemistry, physics, philosophy, and psychology who have attained the highest averages.

Ethel McDonald Pax Christi Award —

The award is given for outstanding but quiet consistency in the life of faith and the practice of Christianity, noteworthy personal integrity and humble loving compassion expressed in daily life.

Walter G. McIver Award — Named after Lycoming's former choir director, the award is given to the choir member who has made outstanding campus contributions outside of choir.

Pennsylvania Institute of Certified Public Accountants Award — The award is given to the senior accounting major who has demonstrated high scholastic standing and qualities of leadership.

Pocahontas Award — The award is given to Lycoming's outstanding female athlete.

Psi Chi Service Award — The award is given for contributions to the Psychology Department.

Research and Writing Prize in History — The prize is given to the student who does the best work in History 45.

Mary L. Russell Award — Named in honor of a professor emeritus of music, the award is given for outstanding musical achievement.

Sadler Prize — The prize is given to the student with the highest achievement in calculus, foundations of mathematics, algebra, and analysis.

Nathan A. Scheib Memorial Music Fund — In memory of a friend of the College, the fund provides financial assistance to qualified deserving students for advanced training in music.

Senior Management Award — The award is given to the senior business major with the best senior project in Business Administration 41.

Senior Scholarship Prize in History — The prize is given to the senior major with the highest average.

Service to Lycoming Award — Sponsored by the Office of Student Services, the award is given to students who have made outstanding contributions to Lycoming.

Frances K. Skeath Award — The award is given to the senior with outstanding achievement in mathematics.

J. Milton Skeath Award — The award is given for superior undergraduate achievement and potential for further work in psychology.

John A. Streeter Memorial Award in Economics — The award is given to the graduating student with outstanding achievement in economics.

Tomahawk Award — The award is given to Lycoming's outstanding male athlete.

Trask Chemistry Prize — The prize is given to the senior chemistry major who has done outstanding work in the field.

Wall Street Journal Awards — Two awards are given. One is given to the senior business major for excellence in the field and service to the College community. A second award is given for excellence in economics.

Sol "Woody" Wolf Award — The award is given to the junior athlete who has shown the most improvement.

Women of Lycoming Scholarship — The scholarship is given to the junior woman student who has shown satisfactory scholarship, outstanding school spirit, and who is active in campus activities.

Departmental Honors — Honors projects are normally undertaken only in a student's major, and are available only to exceptionally well-qualified students who have a solid background in the area of the project and are capable of considerable self-direction. The prerequisites for registration in an honors program are as follows:

— a faculty member from the

department(s) in which the honors project is to be undertaken must agree to be the director and must secure departmental approval of the project.

- the director, in consultation with the student, must convene a committee consisting of two faculty members from the department in which the project is to be undertaken, one of whom is the director of the project, and one faculty member from each of two other departments related to the subject matter of the study.
- the honors committee must then certify by their signatures on the application that the project in question is academically legitimate and worthy of pursuit as an honors project, and that the student in question is qualified to pursue the project.
- the project must be approved by the Committee on Individual Studies.

Students successfully complete honors projects by satisfying the following conditions in accordance with guidelines established by the Committee on Individual Studies:

- the student must produce a substantial research paper, critical study, or creative project. If the end product is a creative project, a critical paper analyzing the techniques and principles employed and the nature of the achievement represented in the project shall be submitted.
- the student must successfully explain and defend the work in a final oral examination given by the honors committee.
- the honors committee must certify that the student has successfully defended the project, and that the student's achievement is clearly superior to that which would ordinarily be required to earn a grade of "A" in a regular independent-studies course.
- the Committee on Individual Studies must certify that the stu-

dent has satisfied all of the conditions mentioned above.

Except in unusual circumstances, honors projects are expected to involve independent study in two consecutive unit courses. Successful completion of the honors project will cause the designation of honors in that department to be placed upon the permanent record. Acceptable theses are deposited in the College library. In the event that the study is not completed successfully or is not deemed worthy of honors, the student shall be re-registered in independent studies and given a final grade for the course.

Auditors — Any person may audit courses at Lycoming at one-fourth tuition per course. Laboratory and other special fees must be paid in full. Examinations, papers, and other evaluation devices are not required of auditors, but individual arrangements may be made to complete such exercises with the consent of the instructor. The option to audit a course must be declared during the same period (currently five days) at the beginning of each semester, half-semester, or term as drop/add and pass/fail and must be completed in the Registrar's Office.

SPECIAL FEATURES

Developmental Program — The developmental program is provided for students who are identified as being able to benefit from specialized classroom instruction in college-level reading and writing skills. Students develop these basic skills in the context of the regular academic curriculum. Both reading and writing skills are taught as part of an integrated curriculum consisting of a one-half unit course in developmental writing (ENGLISH 005) and a one-half unit course in developmental reading and study skills (EDUCATION 005). These courses are coordinated with one of the following social science courses: history, political science, sociology, or psychology.

Independent Studies — Independent

studies are available to any qualified student who wishes to engage in and receive academic credit for any academically legitimate course of study for which he or she could not otherwise receive credit. It may be pursued at any level (introductory, intermediate, or advanced) and in any department, whether or not the student is a major in that department. Studies projects which duplicate catalog courses are sometimes possible, and are subject to the same provisions which apply to all studies projects. In order for a student to be registered in an independent-study course, the following conditions must be satisfied:

- faculty must agree to supervise the project and must certify by signing the application form that the project is academically legitimate and involves an amount of work appropriate for the amount of academic credit requested, and that the student in question is qualified to pursue the project.
- the studies project must be approved by the chairman of the department in which the studies project is to be undertaken.
- after the project is approved by the instructor and by the chairman of the appropriate department, the studies project must be approved by the Committee on Individual Studies.

In addition, participation in independent-studies projects, with the exception of those which duplicate catalog courses, is subject to the following:

- students may not engage in more than one independent-studies project during any given semester.
- students may not engage in more than two independent-studies projects during their academic careers at Lycoming College.

As with other academic policies, any exceptions to these two rules must be approved by the Academic Standing Committee.

Internship Program — An internship is a course jointly sponsored by the College and a public or private agency or subdivision of the College in which a student is enabled to earn college credit by participating in some active capacity as an assistant, aide, or apprentice. At least one-half of the effort expended by the intern should consist of academic work related to agency situations. The objectives of the internship program are (1) to further the development of a central core of values, awarenesses, strategies, skills, and information through experiences outside the classroom or other campus situations, and (2) to facilitate the integration of theory and practice by encouraging students to relate their on-campus academic experiences more directly to society in general and to possible career and other post-baccalaureate objectives in particular.

Any junior or senior student in good academic standing may petition the Committee on Individual Studies for approval to serve as an intern. A maximum of 16 credits can be earned through the internship program. Guidelines for program development, assignment of tasks and academic requirements, such as exams, papers, reports, grades, etc., are established in consultation with a faculty director at Lycoming and an agency supervisor at the place of internship.

Students with diverse majors have participated in a wide variety of internships, including those with the Allenwood Federal Prison Camp, Lycoming County Commissioners Office, Department of Environmental Resources, Head Start, Lycoming County Historical Society, business and accounting firms, law offices, hospitals, social service agencies, banks, and Congressional offices.

May Term — The May term is a four-week voluntary session designed to provide students with courses listed in the catalog and experimental and special courses that are not normally available during the fall and spring semesters and summer term. Some courses are offered on campus; others involve travel. A number offer interdisciplinary credit.

Illustrations of the types of courses offered during the May term are:

(a) Study-Travel: Cultural tours of Germany, Spain, and France; Archaeological expeditions to the Middle East; Anthropological expeditions to study tri-cultural communities in New Mexico; Utopian Communities; Revolutionary and Civil War Sites; Colonial America on Tour; Art on the East Coast; The New Kingdom in Ancient Egypt.

(b) On-Campus: Field Geology, Field Ornithology, Energy Economics, Writer's Seminar, Psychology of Group Processes, Collective Bargaining, Aquatic Biology, Medical Genetics, Energy Alternatives, White Collar Crime, Lasers and their Applications, Selected Short Story Writers and their Works, Popular Forms of Contemporary Fiction, Administrative and Organizational Behavior of Police, Plant and Greenhouse Management, and Street Law.

Although participation in the May term is voluntary, student response has been outstanding with approximately 20 percent of the student body enrolling. In addition to the courses themselves, attractions include small and informal classes and reduced tuition rates.

Part Time Students — Students who do not wish to pursue a degree at Lycoming College may, if space permits, register for credit or audit courses on either a part-time or full-time basis. Students who register for one or two courses are considered to be enrolled part time; students who register for three or four courses are considered to be enrolled full time.

Anyone wishing to register as a non-degree student must fill out an application form in the Admissions Office, pay a one-time application fee of \$20, and pay the tuition rate in effect at the time of each enrollment. After a non-degree student has attempted four courses, the Dean of the College reserves the right to grant or deny permission to continue to register in this category.

All non-degree students are subject to the general laws and regulations of the College as stated in the *College Catalog* and the *Student Handbook*. The College

reserves the right to deny permission to register to individuals who do not meet the standards of the College.

Students who wish to change from a non-degree to a degree status must re-apply (with no application fee) and satisfy all conditions for admission and registration in effect at the time of application for degree status.

Study Abroad — Students have the opportunity to study abroad under auspices of approved universities and agencies. While study abroad is particularly attractive to students majoring in foreign languages and literatures, this opportunity is open to all students in good academic standing. Mastery of a foreign language is desirable but not required in all programs. Dr. Richard Barker, assistant professor of foreign languages and literatures, serves as coordinator for the Study Abroad Program. Interested students may contact him about opportunities available and procedural questions.

Teacher Intern Program — The purpose of the teacher intern program is to provide individuals who have completed a baccalaureate degree with the opportunity to become certified teachers through on-the-job training. Interns can be certified in elementary education or one or more of the following secondary areas: art, biology, chemistry, English, French, general science (with biology or astronomy/physics tracks), German, mathematics, music, physics, social studies, and Spanish.

Interested individuals should file a formal application with the Education Department for admission to the Intern Program. Upon completion of the application process, interns receive a letter of Intern Candidacy from the Pennsylvania Department of Education which the candidate then uses to apply for a teaching position. Necessary professional coursework can be completed prior to the teaching experience or coordinated with the teaching experience when individuals obtain teaching positions.

NOTE: Lycoming College cannot assume responsibility for the health, safety, or welfare

of any student engaged in or en route to or from any off-campus study or activity not under the exclusive jurisdiction of this institution.

COOPERATIVE PROGRAMS

Lycoming has developed several cooperative programs to provide students with opportunities to extend their knowledge, abilities, and talents in selected areas through access to the specialized academic programs and facilities of other colleges, universities, academies, and hospitals. Although thorough advisement and curricular planning are provided for each of the cooperative programs, admission to Lycoming and registration in the program of choice do not guarantee admission to the cooperating institution. The prerogative of admitting students to the cooperative aspect of the program rests with the cooperating institution. Students who are interested in a cooperative program should contact the coordinator during the first week of the first semester of their enrollment at Lycoming. This is necessary to plan their course programs in a manner that will insure completion of required courses according to the schedule stipulated for the program. All cooperative programs require special coordination of course scheduling at Lycoming.

Engineering — Combining the advantages of a liberal-arts education and the technical training of an engineering curriculum, this program is offered in conjunction with The Pennsylvania State University. Students complete three years of study at Lycoming and two years at the cooperating university. Upon satisfactory completion of the first year of engineering studies, Lycoming awards the bachelor of arts degree. When students successfully complete the second year of engineering studies, the cooperating university awards the bachelor of science degree in engineering.

At Lycoming, students complete the distribution program and courses in physics, mathematics, and chemistry. The Pennsylvania State University offers

aerospace, agricultural, chemical, civil, electrical, engineering science, environmental, industrial, mechanical, and nuclear engineering.

Forestry or Environmental Studies

— Lycoming College offers a cooperative program with Duke University in environmental management and forestry. Qualified students can earn the bachelor's and master's degrees in five years, spending three years at Lycoming and two years at Duke. All Lycoming distribution and major requirements must be completed by the end of the junior year. At the end of the first year at Duke, the A.B. degree will be awarded by Lycoming. Duke will award the professional degree of Master of Forestry or Master of Environmental Management to qualified candidates at the end of the second year.

The major program emphases at Duke are Forest Resource Management, Resource Economics and Policy, and Resource Ecology. The program is flexible enough, however, to accommodate a variety of individual designs. An undergraduate major in one of the natural sciences, social sciences, or business may provide good preparation for the programs at Duke, but a student with any undergraduate concentration will be considered for admission. All students need at least two courses each in biology, mathematics, and economics.

Students begin the program at Duke in July after their junior year at Lycoming with a one-month session of field work in natural resource measurements. They must complete a total of 48 units which generally take four semesters.

Some students prefer to complete the bachelor's degree before undertaking graduate study at Duke. The master's degree requirements for these students are the same as for those students entering after the junior year, but the 48 unit requirement may be reduced for completed relevant undergraduate work of satisfactory quality. All credit reductions are determined individually and consider the student's educational background and objectives.

Medical Technology — Students desiring a career in medical technology may either complete a bachelor of arts program followed by a clinical internship at any American Medical Association-accredited hospital, or they may complete the cooperative program. Students electing the cooperative program normally study for three years at Lycoming, during which time they complete 24 unit courses, including the College distribution requirements, a major, and requirements of the National Accrediting Agency for Clinical Laboratory Sciences (NAACLS). The current requirements of the NAACLS are: four courses in chemistry (one of which must be either organic or bio-chemistry); four courses in biology (including courses in microbiology and immunology), and one course in mathematics.

Students in the cooperative program usually major in biology, following a modified major of six unit courses that exempts them from Ecology (Biology 224) and Plant Sciences (Biology 225). Students must take either Microbiology (Biology 221) or Microbiology for the Health Sciences (Biology 226), and either Animal Physiology (Biology 223) or Cell Physiology (Biology 335). The cooperative program requires successful completion of a one-year internship at an American Medical Association-accredited hospital. Lycoming is affiliated with the following accredited hospitals: Divine Providence, Robert Packer, Lancaster, and Abington. Students in the cooperative program receive credit at Lycoming for each of eight unit courses in biology and chemistry successfully completed during the clinical internship. Successful completion of the Registry Examination is not considered a graduation requirement at Lycoming College.

Students entering a clinical internship for one year after graduation from Lycoming must complete all of the requirements of the cooperative program, but are not eligible for the biology major exemptions indicated above. Upon graduation, such students may apply for admission to a clinical program at any hospital.

Optometry — Through the Accelerated Optometry Education Curriculum Program, students interested in a career in optometry may qualify for admission to the Pennsylvania College of Optometry after only three years at Lycoming College. After four years at the Pennsylvania College of Optometry a student will earn a Doctor of Optometry degree. Selection of candidates for the professional segment of the program is completed by the admissions committee of the Pennsylvania College of Optometry during the student's third year at Lycoming. (This is one of two routes that students may choose. Any student, of course, may follow the regular application procedures for admission to the Pennsylvania College of Optometry or another college of optometry to matriculate following completion of his or her baccalaureate program.) During the three years at Lycoming College, the student will complete 24 unit courses, including all distribution requirements, and will prepare for his or her professional training by obtaining a solid foundation in biology, chemistry, physics, and mathematics. During the first year of study at the Pennsylvania College of Optometry, the student will take 39 semester hours of basic science courses in addition to introductions to optometry and health care. Successful completion of the first year of professional training will complete the course requirements for the A.B. degree at Lycoming College.

Most students will find it convenient to major in biology in order to satisfy the requirements of Lycoming College and the Pennsylvania College of Optometry. Such students are allowed to complete a modified biology major which will exempt them from two biology courses: Ecology (Biology 224) and Plant Sciences (Biology 225). (This modified major requires the successful completion of the initial year at the Pennsylvania College of Optometry.) Students desiring other majors must coordinate their plans with the Health Professions Advisory Committee in order to insure that they have satisfied all requirements.

The Philadelphia Urban Semester — A full semester liberal arts program for professional development and field study is now available to Lycoming students. The program components are: field placement; City Seminar; evening seminars; and living and learning in the city. The program is open to students majoring in any discipline or program. The Philadelphia Urban Semester is sponsored and administered by the Great Lakes Colleges Association (Albion, Antioch, Denison, De Pauw, Earlham, Hope, Kalamazoo, Kenyon, Oberlin, Ohio Wesleyan, Wabash, Wooster).

Normally the above special-semester programs are open only to juniors.

NOTE: Lycoming College cannot assume responsibility for the health, safety, or welfare of students engaged in or en route to or from any off-campus studies or activities which are not under the exclusive jurisdiction of this institution.

Podiatry — Students interested in podiatry may either seek admission to a college of podiatric medicine upon completion of the bachelor of arts degree or through the Accelerated Podiatric Medical Education-Curriculum Program (APMEC). The latter program provides an opportunity for students to qualify for admission to the Pennsylvania College of Podiatric Medicine (PCPM) or the Ohio College of Podiatric Medicine (OCPM) after three years of study at Lycoming. At Lycoming, students in the APMEC program must successfully complete 24 unit courses, including the distribution program and a basic foundation in biology, chemistry, physics, and mathematics. During the first year of study at PCPM or OCPM, students must successfully complete a program of basic science courses and an introduction to podiatry. Successful completion of the first year of professional training will contribute toward the fulfillment of the course requirements for the bachelor of arts degree at Lycoming.

Most students in the cooperative program will major in biology; if so, they will be allowed to complete a modified major which will exempt them from two biology courses: Ecology (Biology 224) and

Plant Sciences (Biology 225). (This modified major requires the successful completion of the initial year at PCPM or OCPM).

Students interested in a career in podiatric medicine should indicate their intentions to the Health Professions Advisory Committee.

Reserve Officers Training Corps Program (R.O.T.C.) — The program provides an opportunity for Lycoming students to enroll in R.O.T.C. Lycoming notes enrollment in and successful completion of the program on student transcripts. Military Science is a four-year program divided into a basic course given during the freshman and sophomore years and an advanced course given during the junior and senior years. Students who have not completed the basic course may qualify for the advanced course by completing summer camp between the sophomore and junior years.

Students enrolled in the advanced course receive an annual stipend of \$1,000. Students successfully completing the advanced course and advanced summer camp between the junior and senior years will qualify for a commission as a Second Lieutenant in the United States Army upon graduation, and will incur a service obligation in the active Army or Army Reserves. The only expense to the student for this program is the \$60 advanced course uniform deposit.

Sculpture — The Art Department with the Johnson Atelier Technical Institute of Sculpture in Mercerville, New Jersey, offers a BFA degree in sculpture. It uses a classical apprenticeship approach as its teaching method. This ancient method of teaching is combined at Johnson with the most modern and technically advanced foundry and fabricating techniques.

The Art Department offers a synthesis program that interrelates the student experience at both institutions. This is achieved by having the student rotate between Lycoming and the atelier so that each form of education is preparation for the other. Lycoming offers a core academic program, a course of study in

the Art Department, and elective course opportunities. Lycoming gives eight course units of college credit to the student for having successfully completed one of the apprenticeship programs at the Johnson Atelier.

All work completed by the student at Lycoming by the end of the sophomore year will be applicable to a bachelor of arts degree with a major in art should the student decide to withdraw from the BFA program. If the student should withdraw from the cooperative program prior to completing the apprenticeship at the Johnson Atelier, Lycoming will give up to four units of credit or one semester's work for the internship. If, however, the student completes more work at the atelier than the four units, that extra work will not be credited to the bachelor of arts degree; it will only be used as part of the bachelor of fine arts degree, and then only if the course at the atelier is completed.

This course of study is very rigorous. It will require that the student be involved almost continuously, either at Lycoming or at the Johnson Atelier, during the four years it will take to complete the degree. (See Art Department listing for specific program.)

Student Enrichment Semester — This voluntary program is designed to expand academic and life opportunities for students and to provide for participation in specialized programs and courses not available at Lycoming. Other members of the program are Bucknell and Susquehanna Universities, the Williamsport Area Community College, and Bloomsburg, Lock Haven, and Mansfield Universities. Students other than freshmen enroll full or part time for credit, normally for one semester or term, at any participating institution in selected courses. Students in the program remain fully enrolled as degree candidates at their home institutions. A special opportunity within the program is the cross-registration arrangement with the Williamsport Area Community College, whereby students may enroll for less than a full-time course load while remaining enrolled in courses at Lycoming.

Student Teaching Abroad — Lycoming College has established a cooperation program with Moorhead State University whereby teacher education students may do all or part of their student teaching in a foreign country.

This program offers exceptional students the opportunity to student teach in nearly any country in the world. Students are placed in independent international schools where English is the instructional language. An effort is made to assign students in geographical areas that will enrich their backgrounds, serve their special interests and expand their cultural horizons.

Washington, United Nations and London Semester and Capitol Semester Internship Program — With the consent of the Department of Political Science, selected students are permitted to study in Washington, D.C., at The American University for one semester. They may choose from seven different programs: Washington Semester, Urban Semester, Foreign Policy Semester, International Development Semester, Economic Policy Semester, Science and Technology Semester, American Studies Semester.

With the consent of either the Department of History or Political Science, selected students may enroll at Drew University in Madison, New Jersey, in the United Nations Semester, which is designed to provide a first-hand acquaintance with the world organization. Students with special interests in world history, international relations, law, and politics are eligible to participate.

The London Semester programs of Drew and The American Universities emphasize European history, politics, and culture. Interested students participate with the consent of either the Departments of History or Political Science.

The Capitol Semester Internship Program is available to eligible students on a competitive basis. The program is co-sponsored by Pennsylvania's Office of Administration and Department of Education. Paid Internships are available to

students in most majors. Interested students should contact the Career Development Center for additional information.

THE SCHOLAR PROGRAM

The Lycoming College Scholar Program is a special program designed to meet the needs and aspirations of highly motivated students of superior intellectual ability. The Lycoming Scholar satisfies the general distribution requirements, but on a more exacting level and with more challenging courses than the average student. Lycoming Scholars also participate in special courses and seminars and in serious independent study culminating in a senior project supervised by their major department.

Students are admitted to the program by invitation of the Scholar Council, the group which oversees the program. The council consists of four students elected by current scholars and four faculty selected by the Dean of the College. The guidelines governing selection of new scholars are flexible: academic excellence, intellectual curiosity, and creativity are all taken into account. Students who desire to participate in the Scholar Program but are not invited may petition the Scholar Council for consideration.

To remain in the program, students must maintain a GPA of 3.0 or better. Students dropping below this average will be placed on Scholar probation until their average improves, or they are asked to leave the program. To graduate as a Scholar, a student must have at least a 3.0 cumulative average. Scholars must take the First Year Scholar Seminar during their first semester in the program. In addition, the following distribution requirements must be met. (Slightly modified requirements exist for students in the cooperative programs; a list of these requirements can be obtained from the Scholar Council.)

Scholar Distribution Requirements for Students in AB and BFA Programs.

A. English. Scholars must complete English 106 and one literature numbered 200 or higher. The Scholar

Council strongly recommends that scholars enroll in the honors section of English 106 if scheduling permits. English 106 must be taken during the freshman year.

B. Language/Mathematical Sciences. Scholars must satisfy the requirement in either language or mathematical sciences. *Language:* Scholars must complete two courses numbered 111 or higher (excluding courses taught in English). *Mathematical Sciences:* The mathematical placement test determines whether a Scholar must take two or three courses for distribution. At least one course must be selected from Mathematics 116, 128, 130, or 214. Only one computer science course may be used to fulfill the mathematical sciences requirement.

C. Philosophy/Religion. Scholars must satisfy this requirement in either of the two areas. *Philosophy:* Two courses numbered 200 or higher. *Religion:* Two courses numbered 222 or higher.

D. Fine Arts. Scholars must satisfy the requirement in one of four areas. *Art:* Two options are available in art. Either two courses from Art 222, 223, 331, 332, 333, 334, 336 (Art History), or two courses from Art 111, 115, 220, and 225 (Studio Art). *Music:* The equivalent of two units of credit from Music 117, 167, 168, 169, 330 or higher. *Theatre:* Two courses from Theatre 140 or higher, excluding Theatre 148. *Literature:* Two literature courses from English 200 or higher, Foreign Languages and Literatures 225, or other foreign languages and literatures courses taught in English.

E. Natural Sciences. Scholars must satisfy the requirements in one of three areas. *Astronomy/Physics:* Two courses numbered 111 or higher. *Biology:* Two courses numbered 110 or higher. *Chemistry:* Two courses numbered 110 or higher.

F. History/Social Sciences. Scholars must satisfy the requirements in one of five areas. *Economics:* Two courses numbered 110 or higher. *History:* Two courses, one of which must be numbered 200 or higher. *Political Science:* Two courses numbered 116 or higher. *Psychology:* Two courses including Psy-

chology 110 and one course numbered 224 or higher (excluding Psychology 338). *Sociology/Anthropology*: Two courses including Sociology 110 and one course numbered 300 or higher.

Scholar Distribution Requirements for students in BSN Program

A. English. Same as for AB and BFA degrees.

B. Mathematical Science. Same as for AB and BFA degrees. (Note that the Nursing major requires Mathematics 103 and Computer Science 125.)

C. Philosophy/Religion. Met by taking Philosophy 119 and Religion 120 provided that in each course the student write an additional paper which must receive a grade of B or better.

D. Fine Arts/Language. Same as for AB and BFA scholars.

E. Natural Sciences. Met by Biology 113, Biology 114, Biology 226 (required for the major).

F. History/Social Science. Met by Psychology 110, Psychology 117, (required for the major) and one course in Sociology 300 or higher. (This sociology course may be taken in lieu of the introductory guided elective in Sociology for the BSN.)

All Scholar Students must complete the following:

G. Physical Education. Scholars must satisfy the same physical education requirements stipulated by the College for all students.

H. Designated Courses. In addition to completing the distribution requirements, Scholars will be required to complete four upper-level courses (numbered 300 and above) chosen from a list of "designated" courses selected and maintained by the Scholar Council. Each full-time Lycoming instructor is invited to nominate one of his/her courses having special depth and merit for inclusion on this list. The Scholar Council may alter the list from time to time. A scholar may use no more than two such designated courses from any one department to satisfy this requirement. Normally, Scholars will not begin taking designated

courses until their sophomore year.

I. Senior Project. In the senior year, scholars must successfully complete an independent studies or departmental honors project which has been approved in advance by the Independent Studies Committee and the Scholar Council. This project must be presented orally and be accepted by the Scholar Council.

J. Scholars must complete a major and 32 units, exclusive of the First Year Scholar Seminar.

K. In the case of transfer students and those who seek to enter the program after their freshman year and in other cases deemed by the Scholar Council to involve special or extraordinary circumstances, the Council shall make adjustments to the Scholar distribution requirements provided that in all cases such exceptions and adjustments would still satisfy the regular College distribution requirements.

Curriculum

Numbers 001-049 Developmental courses

Numbers 100-149 Introductory courses and Freshman level courses

Numbers 200-249 Intermediate courses and Sophomore level courses

Numbers 300-349 Intermediate courses and Junior level courses

Numbers 400-449 Advanced courses and Senior level courses

Numbers N50-N59* Non-catalogue courses offered on a limited basis

Numbers 160-169 Applied Music, Theatre Practicums and other fractional credit courses

Numbers 470-479 Internships

Numbers N80-N89* Independent Study

Numbers 490-491 Independent Study for Departmental Honors

*N = course level 1, 2, 3, or 4 as determined by department

Courses not in sequence are listed separately, as:

Drawing Art 111
Color Theory Art 212

Courses which imply a sequence are indicated with a dash between, meaning that the first semester must be taken prior to the second, as:

Intermediate French
French 111-112

All students have the right of access to all courses.

ACCOUNTING

Professor: Richmond (Chairperson)

Associate Professor: Kuhns

Assistant Professor: Wienecke

The purpose of the accounting major is to help prepare the student for a career within the accounting profession. The major has two tracks. Track I is designed for students whose primary interests lie in the financial area or public accounting and provides preparation for the Certified Public Accountant Examination; Track II is designed for students with an interest in management accounting and provides preparation for the Certified Management Accountant Examination.

Track I — Financial Accounting

requires: Accounting 110, 220-221, 330, 440, 441, 443, 445, Mathematics 103, Computer Science 125, and one unit to be selected from Accounting 225, 226, 331, 442, 446, 447, and 448 or Internship. *Business 110 may be substituted for Accounting 110 if a student changes majors. Duplicate credit will not be granted.*

Students seeking entry into the public accounting field are advised to investigate the professional requirements for certification in the state in which they intend to practice so that they may meet all educational requirements prior to graduation. All Track I majors are advised to enroll in Economics 110 and 111, Business 335, 336, and 338, and one of the following: Business 340, Economics 220, or 337.

Track II — Management Accounting requires: Accounting 110, 220, 330-331, 444, and 470 or 480; Mathematics 103; Computer Science 125; and Business 338, 339, and 440. All Track II majors are advised to enroll in Economics 110 and 111 and Business 335 and 336. Students planning to sit for the Certified Management Accountant Examination are advised to enroll in Accounting 440, 441, 442, and 443. *Business 110 may be substituted for Accounting 110 if a student changes majors. Duplicate credit will not be granted.*

Three minors are offered by the Department of Accounting. The following courses are required to complete a minor in *Financial Accounting*: Accounting 110, 220, 221, 443, 447 and any other accounting course or independent study. A minor in *Managerial Accounting* requires the completion of Accounting 110, 220, 330-331 and 444. To obtain a minor in *Federal Income Tax*, a student must complete Accounting 110, 220-221, 441, and 442.

110 ELEMENTARY ACCOUNTING THEORY

An introductory course in recording, classifying, summarizing, and interpreting the basic business transaction. Problems of classification and interpretation of accounts and preparation of financial statements are studied. *Not open to students who have*

received credit for Business 110. *Prerequisite: Second-semester freshman or consent of instructor.*

220-221 INTERMEDIATE ACCOUNTING THEORY

An intensive study of accounting statements and analytical procedures with an emphasis upon corporate accounts, various decision models, price-level models, earnings per share, pension accounting, accounting for leases, and financial statement analysis. *Prerequisite: Accounting 110.*

225 FINANCIAL STATEMENT ANALYSIS

Deals with the analysis of financial statements as an aid to decision making. The theme of the course is understanding the financial data which are analyzed as well as the methods by which they are analyzed and interpreted. This course should prove of value to all who need a thorough understanding of the uses to which financial statements are put as well as to those who must know how to use them intelligently and effectively. This includes accountants, security analysts, lending officers, credit analysts, managers, and all others who make decisions on the basis of financial data. *Prerequisite: Accounting 110 or Business 110.*

226 GOVERNMENT AND FUND ACCOUNTING

This course is designed to introduce accounting for not-for-profit organizations. Municipal accounting and reporting are studied. *Prerequisite: Accounting 110 or Business 110. One-half unit of credit.*

330-331 COST AND BUDGETARY ACCOUNTING THEORY

Methods of accounting for material, labor, and factory overhead expenses consumed in manufacturing using job order, process, and standard costing. Application of cost accounting and budgetary theory to decision making in the area of make or buy, expansion of production and sales, and accounting for control are dealt with. *Prerequisites: Accounting 220 and Mathematics 103 or consent of instructor.*

440 AUDITING THEORY

A study of the science or art of verifying, analyzing, and interpreting accounts and reports. The goal of the course is to emphasize concepts which will enable students to understand the philosophy and environment of auditing. Special attention is given to the public accounting profession, studying auditing standards, professional ethics, the legal liability inherent in the attest function, the study and evaluation of internal control, the nature of evidence, the growing use of statistical sampling, the impact of electronic data processing, and the basic approach to

planning an audit. Finally, various audit reports expressing independent expert opinions on the fairness of financial statements are studied. *Prerequisites: Accounting 221, Mathematics 447, 103, and Computer Science 125.*

441 FEDERAL INCOME TAX
Analysis of the provisions of the Internal Revenue Code relating to income, deductions, inventories, and accounting methods. Practical problems involving determination of income and deductions, capital gains and losses, computation and payment of taxes through withholding at the source and through declaration are considered. Planning transactions so that a minimum amount of tax will result is emphasized. *Prerequisite: Accounting 110 or consent of instructor.*

442 FEDERAL INCOME TAX ADMINISTRATION AND PLANNING
An analysis of the provisions of the Internal Revenue Code relating to partnerships, estates, trusts, and corporations. An extensive series of problems is considered, and effective tax planning is emphasized. *Prerequisite: Accounting 441.*

443 ADVANCED ACCOUNTING I
Certain areas of advanced accounting theory, including business combinations and consolidated financial statements. *Prerequisite: Accounting 221. One-half unit of credit.*

444 CONTROLLERSHIP
Control process in the organization. General systems theory, financial control systems, centralization-decentralization, performance measurement and evaluation, forecasts and budgets, and marketing, production and finance models for control purposes. *Prerequisite: Accounting 331 or consent of instructor.*

445 AUDITING PRACTICE
An audit project is presented, solved and the auditor's report written. THIS COURSE IS LIMITED TO STUDENTS WHO HAVE EITHER COMPLETED OR ARE ENROLLED IN ACCOUNTING 440. *One-half unit of credit. Grade will be recorded as "S" or "U".*

446 SEMINARS ON APB OPINIONS AND FASB STANDARDS
A seminar course for accounting majors with library assignments to gain a workable understanding of the highly technical opinions of the Accounting Principles Board and standards of the Financial Accounting Standards Board. One term paper. Possible trip to New York City to attend a public hearing of the Financial Accounting Standards Board. *Prerequisite: Accounting 110. May term.*

447 ADVANCED ACCOUNTING II
An intensive study of partnerships, installment and consignment sales, branch accounting, bankruptcy and reorganization, estates and trusts, government entities, and non-profit organizations. *Prerequisite: Accounting 221. One-half unit of credit.*

448 CONTEMPORARY PROBLEMS FOR CPA CANDIDATES
Problems from the Accounting Practice sections of Past C.P.A. examinations, which require a thorough knowledge of the core courses in their solution, are assigned. The course is intended to meet the needs of those interested in public accounting and preparation for the Certified Public Accountant's examination. *Prerequisite: Accounting 330 or consent of instructor. One-half unit of credit. Grade will be recorded as "S" or "U".*

470-479 INTERNSHIP (See index)
Interns in accounting typically work off campus under the supervision of a public or private accountant.

N80-N89 INDEPENDENT STUDY (See index)
Typical examples of recent studies in accounting are: computer program to generate financial statements, educational core for public accountants, inventory control, and church taxation.

490-491 INDEPENDENT STUDY FOR DEPARTMENTAL HONORS (See index)

ACCOUNTING — MATHEMATICAL SCIENCES

Associate Professor: Kuhns
(Coordinator)

The accounting-mathematical sciences interdisciplinary major is designed to offer, within a liberal-arts framework, courses which will aid in constructing mathematical models for business decision making. Students obtain the necessary substantial background in both mathematical sciences and accounting. Required accounting courses are: Accounting 110, 220-221, 330-331, 441, 442. In mathematical sciences required courses are: Computer Science 125 and 321 and Mathematics 112, 128, 129, 338 and either 103 or 332. Recommended courses include: Mathematics 130, 238, 333; Business 223, 335, 336, 338, 339; Computer Science 246; Economics 110, 111; Psychology 224, 225; and Sociology-Anthropology 110.

AMERICAN STUDIES

Professor: Piper
(Coordinator)

The American Studies major offers a comprehensive program in American civilization which introduces students to the complexities underlying the development of America and its contemporary life. The 13 major courses include:

FOUR CORE COURSES — The primary integrating units of the major, these courses, some team-taught, will encourage students to consider ideas from different points of view and help them to correlate information and methods from various disciplines:

America As a Civilization
(First semester of major study)

American Tradition in the Arts and Literature

American Studies — Research and Methodology
(Junior or senior year)

American Studies — Internship or Independent Study
(Junior or senior year)

CONCENTRATION AREAS — Six courses in one option and three in the other are needed. Six primary concentration-option courses in American Arts or American Society build around the insights gained in the core courses. They focus particular attention on areas most germane to academic and vocational interests. The three additional courses from the other option give further breadth to an understanding of America. Students also will be encouraged to take elective courses relating to other cultures.

Students should design their American Studies major in consultation with the program coordinator or an American Studies Committee.

American Arts Concentration Option

American Art of the 20th Century — Art 332
American Literature I — English 222
American Literature II — English 223
American Music I — Music 118 or
American Music II — Music 119
American Theatre — Theatre Studies

American Society Concentration Option

U.S. Social and Intellectual History to 1877 — History 442
U.S. Social and Intellectual History since 1877 — History 443
American Economic Development
Racial and Cultural Minorities — Sociology 334
American Political Tradition

200 AMERICA AS A CIVILIZATION

An analysis of the historical, sociocultural, economic, and political perspectives of American civilization with special attention to the interrelationships between these various orientations. May be taken for either one-half unit (section 200A) or full unit (section 200B); declared majors and prospective majors should take the full-unit course, 200B.

210 AMERICAN STUDIES — RESEARCH AND METHODOLOGY

The study and application of various research methods, including new trends in historical study, quantitative analysis, cross-cultural studies, and on-site inspection.

220 AMERICAN TRADITION IN THE ARTS AND LITERATURE

The relationship of the arts and literature to the various historical periods of American life.

470-479 INTERNSHIP OR INDEPENDENT STUDY

N80-N89 (See index)

An opportunity to relate the learning in the core courses and the concentration areas to an actual supervised off-campus learning situation or independent study project.

490-491 INDEPENDENT STUDY FOR DEPARTMENTAL HONORS

(See index)

ART

Professor: Shipley
Associate Professor: Bogle
(Chairperson)
Assistant Professor: Golahny
Part-time Instructor: Hanks
Adjunct Faculty at Johnson Atelier:
Van Tongeren, Barrie, Lash, Pitynski

The Art Department offers two majors in the B.A. Degree (Studio Art and Art History) and a second degree program, a B.F.A. Degree in Sculpture.

The B.A. Degree — Studio Art

To complete a Bachelor of Arts degree with a major in studio art, the student must complete the seven-course foundation program, the requirements for an area of specialization and participate in senior exhibition.

Foundation Program

Art 111	Drawing I
Art 115	Two-Dimensional Design
Art 116	Figure Modeling
Art 212	Color Theory
Art 222	Survey of Art: Pre-history Through the Middle Ages
Art 223	Survey of Art: From the Renaissance Through the Modern Age
Art 227	Introduction to Photography

Areas of Specialization

I. Painting

Art 220	Painting I
Art 221	Drawing II
Art 330	Painting II
Art 446	Studio Research
and two art history courses numbered 300 or above.	

II. Printmaking

Art 221	Drawing II
Art 228	Printmaking I
Art 338	Printmaking II
Art 446	Studio Research
and two art history courses numbered 300 or above.	

III. Sculpture

Art 225	Sculpture I
Art 226	Figure Modeling II
Art 335	Sculpture II
Art 446	Studio Research
and two art history courses numbered 300 and above.	

IV. Commercial Design

Art 221	Drawing II
Art 237	Photography II
Art 442	Special Projects with Commercial Design
GCO 511	Layout and Design
GCO 512	Typographic Composition
GCO 521	Process Camera

A student is encouraged to take the following courses: Internship (Art 470-479), Advertising (Business 332), Writing for Special Audiences (English 216), Introduction to Mass Communication (Mass Comm 110), Social Psychology (Psy 224).

V. Generalist Art Major

to be taken by those students who are seeking teaching certification in Art:

Art 119	Ceramics I
Art 220	Painting I
Art 225	Sculpture I
Art 228	Printmaking I

and two art history courses numbered 300 or above. In addition to Art Department courses, under the generalist major, the student must complete the art certification program in the Education Department.

The B.A. Degree: Art History

To complete a bachelor of arts degree with a major in art history, a student must take courses in art history, studio art, and history and/or religion. A student majoring in art history is advised to take a foreign language.

Required of all students:

Art 222	Survey of Art: Pre-history Through the Middle Ages
Art 223	Survey of Art: From Renaissance Through the Modern Age
Art 447	Art History Research

Choose four of the following:

Art 331	20th Century European Art
Art 332	American Art of the 20th Century
Art 333	19th Century European and American Art
Art 334	Art of the Renaissance
Art 336	Art of the Baroque
Art 339	Women in Art

Choose two of the following:

Art 111	Drawing I
Art 115	Two-dimensional Design
Art 116	Figure Modeling I
Art 227	Introduction to Photography

Choose two of the following:

History 210	Ancient History
History 212	Medieval Europe and Its Neighbors
History 418	History of Renaissance Thought
Religion 113	Old Testament Faith and History

Religion 114 New Testament Faith and History
Religion 226 Biblical Archaeology

It is furthermore suggested that the student choose electives in other departments that may complement the studies of art history. Among these recommended electives are:

French 412	French Literature of the 19th Century
English 336	Survey of Western Music
Music 117	Music 335
Music 336	History of Western Music I
Theatre 332	History of Western Music II
Theatre 333	History of Theatre I
	History of Theatre II

The BFA degree in sculpture:

The student completes a specified course of study in the Art Department, the Lycoming College distribution requirements, and one of the field specialization apprenticeship programs at the Johnson Atelier in Mercerville, New Jersey.

The Art Department course of study consists of 12 courses in studio and art history: Figure Modeling I and II (Art 116 and 226), Sculpture I and II (Art 225 and 335), Drawing I and II (Art 111 and 221), Introduction to Photography (Art 227), 2-D Design (Art 115), Survey of Art (Art 222 and 223), and two additional courses in Art History (Art 331, 332, 333, 334, 336, 339).

Twelve additional course units are required of the student. The student must meet the requirements of the distribution program within these courses.

The student must also complete one of the field specialization apprenticeships at the Johnson Atelier Technical Institute of Sculpture in Mercerville, New Jersey. This requires the student to be at the Johnson Atelier for a period of between 16 and 23½ months. The student receives eight course units of credit at Lycoming College for successfully completing the field specialization apprenticeship at Johnson Atelier. It is expected that the work for the apprenticeship component will be completed during the summers and the junior year.

Admission to the BFA degree program is on the basis of meeting the admission standards of Lycoming College, and passing a portfolio review and interview by members of the Lycoming College

Art Department.

Three minors are being offered by the Art Department. Requirements for each follow: *Art History*: Art 222, 223, and two advanced history courses; *Sculpture*: Art 116, 226, 225, and 335 plus one of the following: 111, 119, 445; *Painting*: Art 111, 115, 220, 330, and either 221 or 223.

111 DRAWING I

Study of the human figure with gesture and proportion stressed. Student is made familiar with different drawing techniques and media. Some drawings from nature. Offered in alternate semesters with Drawing II and III.

115 TWO-DIMENSIONAL DESIGN

The basic fundamentals found in the two-dimensional arts: line, shape, form, space, color, and composition are taught in relationship to the other two-dimensional arts. Perceptual theories and their relationships to what and why we see what we see in art are discussed with each problem.

116 FIGURE MODELING I

Understanding the figure will be approached through learning the basic structures and proportions of the figure. The course is conceived as a three-dimensional drawing class. At least one figure per student will be cast.

119 CERAMICS I

Emphasis placed on pottery design as it relates to function of vessels and the design parameters imposed by the characteristics of clay. The techniques of ceramics are taught to encourage expression rather than to dispense merely a technical body of information.

212 COLOR THEORY

A study of the physical and emotional aspects of color. Emphasis will be placed on the study of color as an aesthetic agent for the artist. The color theories of Johannes Itten will form the base for this course with some study of the theories of Albert Munsell, Faber Berren, and Wilhelm Ostwald.

220 PAINTING I

An introduction of painting techniques and materials. Coordination of color, value, and design within the painting is taught. Some painting from the figure. No limitations as to painting media, subject matter, or style. *Prerequisite*: Art 115 or consent of instructor.

221 DRAWING II

Continued study of the human figure. Emphasis is placed on realism and figure-

ground coordination with the use of value and design. *Prerequisite*: Art 111.

222 SURVEY OF ART: PRE-HISTORY THROUGH THE MIDDLE AGES

A survey of Western architecture, sculpture, and painting. Emphasis is on the interrelation of form and content and on the relatedness of the visual arts to their cultural environment: Paleolithic Art, Near East, Egypt, Greece, Rome, and Medieval Europe.

223 SURVEY OF ART: FROM THE RENAISSANCE THROUGH THE MODERN AGE

A survey of Western architecture, sculpture, and painting. Emphasis is on the interrelation of form and content and on the relatedness of the visual arts to their cultural environment: 14th-20th centuries.

225 SCULPTURE I

An introduction to the techniques, materials, and ideas of sculpture. Clay, plaster, wax, wood, and other materials will be used. The course will be concerned with ideas about sculpture as expression, and with giving material form to ideas.

226 FIGURE MODELING II

Will exploit the structures and understandings learned in Figure Modeling I to produce larger, more complex figurative works. There will be a requirement to cast one of the works in plaster. *Prerequisites*: Art 116 and consent of instructor.

227 INTRODUCTION TO PHOTOGRAPHY

Objectives of the course are to develop technical skills in the use of photographic equipment (cameras, films, darkroom, printmaker) and to develop sensitivity in the areas of composition, form, light, picture quality, etc. Each student must own or have access to a 35mm camera.

228 PRINTMAKING I

Introduction to the techniques of silkscreen, intaglio, monotype, and lithography printing. One edition of at least six prints must be completed in each area. *Prerequisite*: Art 111 or 115 or consent of instructor.

229 CERAMICS II

Continuation of Ceramics I. Emphasis on use of the wheel and technical aspects such as glaze making and kiln firing. *Prerequisite*: Art 119.

330 PAINTING II

Emphasis is placed on individual style and technique. Artists and movements in art are studied. No limitations as to painting media, subject matter, or style. *Prerequisite*: Art 220.

331 20TH CENTURY EUROPEAN ART
Stylistic developments in Europe from 1880 to the present, including Cubism, Fauvism, Expressionism, Dada, and Surrealism. Picasso, Matisse, Kandinsky, and Mondrian are among the major artists studied.

332 AMERICAN ART OF THE 20TH CENTURY
The art of the United States from about 1880 to the present, with emphasis on the innovations of Americans in painting, sculpture and architecture, and on the meaning and historical roots of contemporary art.

333 19TH CENTURY EUROPEAN AND AMERICAN ART
The art of Western Europe and the United States from 1780-1900, with emphasis on painting in France. Those artists to be studied include David and Goya, Delacroix, Courbet, The Impressionists, Turner, Homer, Cole and Eakins.

334 ART OF THE RENAISSANCE
The art of Italy and Northern Europe from 1330-1530, with emphasis on the painters Giotto, Masaccio, Leonardo da Vinci, Raphael, Titan, Van Eyck, and Dürer, the sculptors Ghiberti, Donatello and Michelangelo, and the architects Brunelleschi and Alberti.

335 SCULPTURE II
A continuation of Sculpture I (Art 225). Emphasis is on advanced technical process. Casting of bronze and aluminum sculpture will be done in the school foundry. *Prerequisite: Art 225.*

336 ART OF THE BAROQUE
Seventeenth-century painting and sculpture in Italy and the Netherlands with emphasis on Bernini, Poussin, Rubens, and Rembrandt, and with special attention given to the expressive, narrative, painterly, and tactile styles present in their art.

337 PHOTOGRAPHY II
To extend the skills developed in Photography I by continued growth in technical expertise including instruction in the use and capabilities of large format view cameras. Emphasis is placed on conceptual and aesthetic aspects of photography. *Prerequisite: Art 227.*

338 PRINTMAKING II
Further study of the techniques of silkscreen, intaglio, monotype, and lithography printing with emphasis on multi plate and viscosity printing. Two editions of at least six prints must be completed in each of two areas. *Prerequisite: Art 228.*

339 WOMEN IN ART
A survey of women artists from a variety of viewpoints — aesthetic, historical, social, political and economic — which seeks to understand and integrate the contributions of women artists into the mainstream of the history of art. *No prerequisite.*

440 PAINTING III
Professional quality is stressed. There is some experimentation with new painting techniques and styles.

441 DRAWING III
Continued study of human figure, individual style, and professional control of drawing techniques and media are now emphasized.

442 SPECIAL PROJECT IN COMMERCIAL DESIGN
Concentrated research, preparation, and execution of one major project in commercial design chosen by the student in consultation with the instructor. Preliminary concepts, preparatory layout and design and finished work will culminate in a portfolio and presentation. *Prerequisite: permission of the Art Department.*

445 SCULPTURE III
In Sculpture III the student is expected to produce a series of sculptures that follow a conceptual and technical line of development. *Prerequisites: Art 116, 225, and 335.*

446 STUDIO RESEARCH
Independent research in an elective studio area, conducted under the supervision of the appropriate faculty member, includes creation of work which may be incorporated in the senior group exhibition. Student works in private studio assigned by the department.

447 ART HISTORY RESEARCH
Independent research, conducted under the supervision of the appropriate faculty member, includes the research and writing of a thesis, to be presented to a committee of Art Department faculty.

470-479 INTERNSHIP (See index)
Commercial design, interior design, and photography programs in local businesses, and museum work at the Lycoming County Historical Museum.

N80-N89 INDEPENDENT STUDY (See index)
Recent studies in anatomy. Aspects of the art nouveau, lithography, photography, pottery, problems in illustration, and watercolor.

490-491 INDEPENDENT STUDY FOR DEPARTMENTAL HONORS (See index)

Graphic Arts

Through special arrangements, the following courses offered at Williamsport Area Community College are available *only* to Art majors in Commercial Design and Mass Communication majors (GCO511 only). The WACC courses are taken as part of the student's schedule and are listed with Lycoming's offerings during registration periods.

511 LAYOUT AND DESIGN

Analysis of materials, tools, and techniques used in preparation of copy for reproduction; paste-up and color separation overlays. 4 cr.

512 TYPOGRAPHIC COMPOSITION

Fundamentals of typesetting. Theory and practice in the care and use of composing machines, both hot (mechanical) and cold (photo). 4 cr.

521 PROCESS CAMERA

Concepts and techniques of darkroom procedures for reproduction of line and halftone copy on process camera. 4 cr.

ASTRONOMY AND PHYSICS

Professor: Fineman (on leave)

Associate Professor: Erickson
(Chairperson)

Assistant Professors: Fisher, Keig

The department offers two majors. The major in astronomy is specifically designed to train students in the field of planetarium education; it also may serve as a basis for earning state certification as a secondary school teacher of general science. The major in physics can prepare students for graduate work in physics, astronomy, and related physical sciences, for the cooperative program in engineering, for state certification as secondary school teachers of physics, or for technical positions in industry.

Astronomy

The major in astronomy requires Astronomy 111, either 112 or 113, 230, 344, 445 and 446; Physics 225-226; Mathematics 128 and 129; and Chemistry 110 and 111 or 330-331. Juniors and seniors majoring in astronomy are also

required to register for four semesters of Astronomy 349 & 449 (non-credit colloquia). In addition, the following cognate courses are recommended: Physics 229 and 333; Philosophy 221-222, and 333; and Art 227.

104 FIELD GEOLOGY

A methods course introducing the field techniques needed to study the geology of an area. *May or summer term only.*

105 HISTORY OF ASTRONOMY

A comprehensive view of the evolution of astronomical thought from ancient Greece to the present, emphasizing the impact that astronomical discoveries and the conquest of space have had on Western culture. *May or summer term only.*

107 OBSERVATIONAL ASTRONOMY

A methods course providing the opportunity to make a variety of astronomical observations, both visually and photographically, with and without telescopes. The planetarium is used to familiarize the student with the sky at various times during the year and from different locations on earth. *May or summer term only.*

101 PRINCIPLES OF ASTRONOMY (B) 111 PRINCIPLES OF ASTRONOMY (A)

A summary of current concepts of the universe from the solar system to distant galaxies. Describes the techniques and instruments used in astronomical research. Presents not only what is reasonably well known about the universe, but also considers some of the major unsolved problems. *Astronomy 101 and 111 share the same three hours of lecture and two hours of laboratory each week. 111 has one additional hour each week for more advanced mathematical treatment of the material. Credit may not be earned for both 101 and 111. Corequisite for 111: Mathematics 107 or consent of instructor.*

102 EARTH SCIENCE (B) 112 EARTH SCIENCE (A)

A study of the physical processes that continually affect the planet Earth, shaping our environment. Describes how past events and lifeforms can be reconstructed from preserved evidence to reveal the history of our planet from its origin to the present. Emphasizes the ways in which geology, meteorology, and oceanography interrelate with man and the environment. *Astronomy 102 and 112 share the same three hours of lecture and two hours of laboratory each week. 112 has one additional hour each week for more advanced mathematical treatment of the material. Credit may not be earned for*

both 102 and 112. Corequisite for 112: Mathematics 107 or consent of instructor. Alternate years.

103 METEOROLOGY (B) 113 METEOROLOGY (A)

The general properties of the atmosphere and their measurements will be discussed in terms of basic physical laws. The large scale processes that create a suitable climate for life on Earth are discussed as well as the smaller scale processes that must be taken into account in scientific weather prediction. *Astronomy 103 and 113 share the same three hours of lecture and two hours of laboratory each week. 113 has one additional hour each week for more advanced mathematical treatment of the material. Credit may not be earned for both 103 and 113. Corequisite for 113: Mathematics 107. Alternate years.*

230 PLANETARIUM TECHNIQUES

A methods course covering major aspects of planetarium programming, operation and maintenance. Students are required to prepare and present a planetarium show. Upon successfully completing the course, students are eligible to become planetarium assistants. *Three hours of lecture and demonstration and three hours of practical training per week. Prerequisites: Astronomy 101 or 111 (Principles of Astronomy) or consent of instructor. Alternate years.*

344 RELATIVITY AND COSMOLOGY

A detailed presentation of the special theory of relativity, and a short view of the general theory and its classical proofs. Man's concepts of the universe, with particular attention to alternative modern cosmological models. Discussion of the Cosmological Principle, its rationale, and its implications. *Four hours of lecture per week. Prerequisites: Astronomy 111 (Principles of Astronomy A) and Physics 225 (Introductory Physics with Calculus I). Alternate years. Cross-listed as Physics 344.*

445 STELLAR EVOLUTION

The physical principles governing the internal structure and external appearance of stars. Mechanisms of energy generation and transport within stars. The evolution of stars from initial formation to final stages. The creation of chemical elements by nucleosynthesis. *Four hours of lecture per week. Prerequisites: Astronomy 111 (Principles of Astronomy A) and Physics 226 (Introductory Physics with Calculus II). Alternate years.*

446 STELLAR DYNAMICS AND GALACTIC STRUCTURE

The motion of objects in gravitational fields. Introduction to the n-body problem. The relation between stellar motions and the

galactic potential. The large scale structure of galaxies in general and of the Milky Way Galaxy in particular. *Four hours of lecture per week. Prerequisites: Astronomy 111 (Principles of Astronomy A) and Physics 225 (Introductory Physics with Calculus I). Alternate years.*

349 & 449 ASTRONOMY AND PHYSICS COLLOQUIA

This non-credit but required course for juniors and seniors majoring in astronomy and physics offers students a chance to meet and hear active scientists in astronomy, physics, and related scientific areas talk about their own research or professional activities. In addition, majors in astronomy and physics must present two lectures, one given during the junior year and one given during the senior year, on the results of a literature survey or on individual research. Students majoring in this department are required to attend four semesters during the junior and senior years. A letter grade will be given when the student gives a lecture. Otherwise the grade will be S/U. Students in the Cooperative Program in Liberal Arts and Engineering are required to attend two semesters and present one lecture during their junior year. *One hour per week. Cross-listed as Physics 349 & 449.*

470-479 INTERNSHIP (See index)

N80-N89 INDEPENDENT STUDY (See index)

Independent studies may be undertaken in most areas of astronomy.

490-491 INDEPENDENT STUDY FOR DEPARTMENTAL HONORS (See index)

Physics

The major in physics requires Physics 225-226, 331, 332, and four additional physics courses numbered 229 and above. Up to two courses chosen from Astronomy 111, 112, 113, 445, and 446 may substitute for two of the four physics electives. Also required are Mathematics 128 and 129, and Chemistry 110 and 111 or 330-331. Juniors and seniors majoring in physics are required to register for four semesters of Physics 349 & 449 (non-credit colloquia). In addition, the following cognate courses are recommended: Mathematics 231 and 238 (these are required for the cooperative engineering program and by most graduate schools); Computer Science 125

(required for the cooperative engineering program); and Philosophy 221-222 and 333. A foreign language is recommended for students planning on graduate study.

106 ENERGY ALTERNATIVES

A physicist's definition of work, energy, and power. The various energy sources available for use, such as fossil fuels, nuclear fission and fusion, hydro, solar, wind, and geothermal. The advantages and disadvantages of each energy conversion method, including availability, efficiency, and environmental effects. Present areas of energy research and possible future developments. Projections of possible future energy demands. Exercises and experiments in energy collection, conversion, and utilization. *May or summer term only.*

125-126 PHYSICS WITH LIFE SCIENCE APPLICATIONS

The basic concepts, principles, and laws of physics are presented in this noncalculus introductory physics course. Topics include mechanics, elastic properties of matter, fluids, thermodynamics, electricity and magnetism, waves, optics, and radioactivity. Many of the examples and problems used to illustrate the physics are selected from the life sciences. *Three hours of lecture, one hour of recitation, and one three-hour laboratory per week. Prerequisite: Mathematics 107 or consent of instructor. (Credit may not be earned for both 125 and 225 or for both 126 and 226.)*

225-226 INTRODUCTORY PHYSICS WITH CALCULUS

A mathematically rigorous introduction to physics designed for majors in physics, astronomy, chemistry, and mathematics. Topics include mechanics, thermodynamics, electricity and magnetism, waves, optics, and modern physics. *Five hours of lecture and recitation and one three-hour laboratory per week. Corequisite: Mathematics 128-129 (Calculus I and II). (Credit may not be earned for both 125 and 225 or for both 126 and 226.)*

229 ELECTRONICS

D.C. and A.C. circuit and network theory, active devices such as transistors, operational amplifiers, integrated circuits, and introduction to digital electronics will be covered. *Three lectures and two two-hour laboratory sessions per week. Prerequisites: Physics 126 or 226, and Mathematics 109 or 128 or consent of instructor. Alternate years.*

331 MECHANICS

Kinematics and dynamics of single particles

and systems of particles. Rigid bodies. Introduction to the mechanics of continuous media. Moving reference frames. Lagrangian mechanics. *Four hours of lecture and three hours of laboratory per week. Prerequisites: Physics 225 (Introductory Physics with Calculus I) and Mathematics 129 (Calculus II).*

332 ELECTRICITY AND MAGNETISM

The electromagnetic field, electrical potential, magnetic field, and electric and magnetic properties of matter. Electric circuits. Maxwell's equations. Laboratory includes electronics as well as classical electricity and magnetism. *Four hours of lecture and three hours of laboratory per week. Prerequisite: Physics 226 (Introductory Physics with Calculus II).*

333 OPTICS

Geometrical optics, optical systems, physical optics, interference, Fraunhofer and Fresnel diffraction, and coherence and lasers will be covered. *Three hours of lecture and three hours of laboratory per week. Prerequisites: Physics 126 or 226, and Mathematics 109 or 128 or consent of instructor. Alternate years.*

337 THERMODYNAMICS AND STATISTICAL MECHANICS

Classical thermodynamics will be presented, showing that the macroscopic properties of a system can be specified without a knowledge of the microscopic properties of the constituents of the system. Then statistical mechanics will be developed, showing that these same macroscopic properties are determined by the microscopic properties. *Four hours of lecture and recitation per week. Prerequisites: Physics 226 (Introductory Physics with Calculus II) and Mathematics 129 (Calculus II). Alternate years.*

338 ATOMIC AND MOLECULAR PHYSICS

The development of the principles and methods of quantum mechanics from the earliest evidence of quantization. Structure and spectra of atoms and molecules. Extension of quantum theory to the solid state. *Four hours of lecture and recitation and one three-hour laboratory per week. Prerequisite: Physics 226 (Introductory Physics with Calculus II) and Mathematics 129 (Calculus II). Alternate years.*

344 RELATIVITY AND COSMOLOGY

A detailed presentation of the special theory of relativity, and a short view of the general theory and its classical proofs. Man's concepts of the universe, with particular attention to alternative modern cosmological models. Discussion of the Cosmological Principle, its rationale, and its implications.

Four hours of lecture per week. Prerequisites: Astronomy 111 (Principles of Astronomy A) and Physics 225 (Introductory Physics with Calculus I). Alternate years. Cross-listed as Astronomy 344.

439 INTRODUCTION TO QUANTUM MECHANICS

Basic concepts and formulation of quantum theory. The free particle, the simple harmonic oscillator, the hydrogen atom, and central force problems will be discussed. Both time-independent and time-dependent perturbation theory will be covered. *Four hours of lecture and recitation. Prerequisite: either Physics 226 (Introductory Physics with Calculus II) or Chemistry 331 (Physical Chemistry II), and Mathematics 231 (Differential Equations). Cross-listed as Chemistry 439.*

447 NUCLEAR AND PARTICLE PHYSICS

The course will consider properties of nuclei, nuclear models, radioactivity, nuclear reactions (including fission and fusion), and properties of elementary particles. The interactions of nuclear particles with matter and the detection of nuclear particles will be covered. It will be shown how observed phenomena lead to theories on the nature of fundamental interactions, how these forces act at the smallest measurable distances, and what is expected to occur at even smaller distances. *Four hours of lecture and recitation and two hours of laboratory per week. Prerequisites: either Physics 226 (Introductory Physics with Calculus II) or Physics 126 (Physics with Life Science Applications II), Mathematics 129, and either Physics 338 (Atomic and Molecular Physics) or Chemistry 110. Alternate years.*

349 & 449 ASTRONOMY AND PHYSICS COLLOQUIA

This non-credit but required course for juniors and seniors majoring in astronomy and physics offers students a chance to meet and hear active scientists in astronomy, physics, and related scientific areas talk about their own research or professional activities. In addition, majors in astronomy and physics must present two lectures, one given during the junior year and one given during the senior year, on the results of a literature survey or on individual research. Students majoring in this department are required to attend four semesters during the junior and senior years. A letter grade will be given when the student gives a lecture. Otherwise the grade will be S/U. Students in the Cooperative Program in Liberal Arts and Engineering are required to attend two semesters and present one lecture during their junior year. *One hour per week. Cross-listed as Astronomy 349 & 449.*

470-479 INTERNSHIP (See index)

Interns in physics work off campus under the supervision of professional physicists employed by local industries or hospitals.

N80-N89 INDEPENDENT STUDY
(See index)

Independent studies may be undertaken in most areas of physics.

490-491 INDEPENDENT STUDY FOR
DEPARTMENTAL HONORS
(See index)

BIOLOGY

Associate Professors: Angstadt
(Chairperson), Diehl, Gabriel,
Zaccaria, Zimmerman

Assistant Professor: Pottmeyer

A major consists of eight biology courses, including 110-111, 221, 222, 223, 224, and 225. With departmental consent, Biology 226 may be substituted for Biology 221. Only two courses numbered below 200 may count toward the major. Departmental internships cannot be used to fulfill the eighth required course. In addition, three units of chemistry and two units of mathematical science are required. The chemistry requirement must include at least one unit of organic chemistry chosen from Chemistry 115, 220, or 221. The mathematical science courses must be chosen from Computer Science 125 and Mathematics 103, 107, 109, 128 or above. Certain specific exceptions to the core program will be made for three-year students enrolled in cooperative programs. Such exceptions are noted under the particular cooperative program described in the Academic Program chapter of the catalog. Students interested in these programs should contact the program director before finalizing their individual programs. Credit may not be earned for both Biology 101 and 110 or for both Biology 102 and 111. Consent of instructor may replace Biology 110-111 as a prerequisite for all biology courses.

A minor in Biology requires the completion of four upper-level (200's or higher) courses, with their appropriate

prerequisites. At least two of these must be from the 200's series of courses. A minor with a special name (e.g., Environmental Science) may be designed by an individual.

101-102 PRINCIPLES OF BIOLOGY

An investigation of biological principles, including ecological systems, form and function in selected representative organisms (especially man), cell theory, molecular biology, reproduction, inheritance, adaptation, and evolution. The course is designed primarily for students not planning to major in the biological sciences. *Three hours of lecture and one two-hour laboratory per week.*

110-111 INTRODUCTION TO BIOLOGY

An introduction to the study of biology designed for students planning to major in the biological sciences. Major topics considered include the origin of life, cellular respiration and photosynthesis, genetics, development, anatomy and physiology, ecology, behavior, and evolution. *Three hours of lecture and one three-hour laboratory per week.*

113-114 HUMAN ANATOMY
AND PHYSIOLOGY

Using the organ-systems approach, the course is an introduction to the human body — its anatomy, physiology, and normal development — with particular attention to structure and function at all levels of its biological organization (molecular through organismal). *Three hours of lecture, one hour of discussion, and one three-hour laboratory per week.* Prerequisite: Chemistry 115 or Chemistry 220 or consent of instructor.

221 MICROBIOLOGY

A study of microorganisms. Emphasis is given to the identification and physiology of microorganisms as well as to their role in disease, their economic importance, and industrial applications. *Three hours of lecture and two two-hour laboratory periods per week.* Prerequisite: Biology 110-111. Not open to students who have received credit for Biology 226.

222 GENETICS

A general consideration of the principles governing inheritance, including treatment of classical, molecular, cytological, physiological, microbial, human, and population genetics. *Three hours of lecture and two two-hour laboratory periods per week.* Prerequisite: Biology 110-111.

223 ANIMAL PHYSIOLOGY

The mechanisms and functions of animal systems, including the autonomic, endocrine, digestive, cardio-vascular, respiratory, renal, nervous, and reproductive systems. Mammalian physiology is stressed. *Three hours of lecture and one three-hour laboratory per week.* Prerequisite: Biology 110-111.

224 ECOLOGY

The study of the principles of ecology with emphasis on the role of chemical, physical, and biological factors affecting the distribution and succession of plant and animal populations and communities. Included will be field studies of local habitats as well as laboratory experimentation. *Two hours of lecture and one four-hour laboratory per week.* Prerequisite: Biology 110-111.

225 PLANT SCIENCES

A survey of the structure, development, function, classification, and use of plants and related organisms. The study will comprise four general topic areas: form, including morphology and anatomy of plants in growth and reproduction; function, concentrating on nutrition and metabolism peculiar to photosynthetic organisms; classification systems and plant identification, and human uses of plants. *Three hours of lecture and one three-hour laboratory per week.* Prerequisite: Biology 110-111.

226 MICROBIOLOGY FOR THE
HEALTH SCIENCES

A study of microorganisms with emphasis given to their taxonomy and their role in various aspects of human infectious disease. Mechanisms for treating and preventing infectious diseases will be presented. Laboratory to include diagnostic culture procedures, antibiotic sensitivity testing, serology, anaerobic techniques and a study of hemolytic reactions. *Three hours of lecture and four hours of laboratory per week.* Prerequisites: one year of introductory level biology, one year of chemistry or consent of instructor. Not open to students who have received credit for Biology 221.

328 AQUATIC BIOLOGY

A field-oriented course dealing with fresh-water ecosystems. Studies will include a survey of the plankton, benthos, and fish — as well as the physical and chemical characteristics of water that influence their distribution. Several local field trips and a one-week trip to a field station will familiarize students with the diversity of habitats and the techniques of limnologists. Alternative May terms. Prerequisites: Biology 110-111.

329 TROPICAL MARINE BIOLOGY

A field oriented course where students

study the creatures of the fringing reefs, barrier reefs, lagoons, turtlegrass beds and mangrove swamps at a tropical marine laboratory. Studies will include survey of plankton, invertebrates, and fish as well as the physical and chemical characteristics that influence their distribution. *Prerequisite: Biology 110-111. Alternate May terms.*

330 COMPARATIVE ANATOMY OF VERTEBRATES
 Detailed examination of the origins, structure, and functions of the principal organs of the vertebrates. Special attention is given to the progressive modification of organs from lower to higher vertebrates. *Three hours of lecture and one four-hour laboratory per week. Prerequisite: Biology 110-111. Alternate years.*

332 PLANT AND GREENHOUSE MANAGEMENT
 A course concerned with the care of houseplants and the management of small greenhouses. Class time will include lectures, discussions, demonstrations, greenhouse exercises, and field trips to local greenhouses. Topics will include the theoretical and practical aspects of the care and feeding, propagation, light and water requirements, and disease control for many of the common house and greenhouse plants. *Prerequisite: Biology 101-102 or 110-111. May term only.*

334 INVERTEBRATE ZOOLOGY
 Comparative study of the invertebrate phyla with emphasis on phylogeny, physiology, morphology, and ecology. *Two three-hour lecture/laboratory periods per week. Prerequisite: Biology 110-111. Alternate years.*

335 CELLULAR PHYSIOLOGY
 Physicochemical background of cellular function: functions of membrane systems and organelles; metabolic pathways; biochemical and cellular bases of growth, development and responses of organisms. *Three hours of lecture and one three-hour laboratory per week. Prerequisites: Biology 110-111 and a year of chemistry. Alternate years.*

339 MEDICAL GENETICS
 This course is concerned with the relationships of heredity to disease. Discussions will focus on topics such as chromosomal abnormalities, metabolic variation and disease, somatic cell genetics, genetic screening, and immunogenetics. Laboratory exercises will offer practical experiences in genetic diagnostic techniques. *Prerequisite: Biology 101-102 or 110-111. May term only.*

342 ANIMAL BEHAVIOR
 A study of the causation, function, evolution, and biological significance of animal behaviors in their normal environment and social contexts. *Three hours of lecture and one four-hour laboratory each week. Prerequisite: Biology 110-111. Alternate years.*

347 IMMUNOLOGY
 The course introduces concepts concerning how pathogens cause disease and host defense mechanisms against infectious diseases. Characterization of and relationships between antigens, haptens, and antibodies are presented. Serological assays will include: agglutination precipitations, immunofluorescence, immunoelectrophoresis, and complement fixation. Other topics are: immediate and delayed hypersensitivities (i.e. allergies such as hay fever and poison ivy), immunological renal diseases, immunohematology (blood groups, etc.), the chemistry and function of complement autoimmunity, and organ graft rejection phenomena. *Three hours of lecture, one three-hour laboratory, and one hour of arranged work per week. Prerequisite: Biology 110-111. Alternate years.*

403 FIELD BIOLOGY FOR TEACHERS
 A methods course for students preparing to teach biology. Sources and methods of collecting and preserving various plant and animal materials. *Summer term only.*

431 HISTOLOGY
 A study of the basic body tissues and the microscopic anatomy of the organs and structures of the body which are formed from them. Focus is on normal human histology. *Three hours of lecture and one four-hour laboratory per week. Prerequisite: Biology 110-111. Alternate years.*

433 ECONOMIC AND SYSTEMATIC BOTANY
 Structure and classification of plants with emphasis on those species, particularly food and drug plants, having significance for human affairs. *Three hours of lecture and one three-hour laboratory per week. Prerequisites: Biology 110-111, Biology 225. Alternate years.*

440 PARASITOLOGY AND MEDICAL ENTOMOLOGY
 The biology of parasites and parasitism. Studies on the major groups of animal parasites and arthropod vectors of disease will involve taxonomy and life cycles. Emphasis will be made on parasites of medical and veterinary importance. *Three hours of lecture and one three-hour laboratory per week. Prerequisite: Biology 110-111. Alternate years.*

441 VERTEBRATE EMBRYOLOGY
 A study of the development of vertebrates from fertilization to the fully formed fetus. Particular attention is given to the chick and human as representative organisms. *Two three-hour lecture/laboratory periods per week. Prerequisite: Biology 110-111. Alternate years.*

444 BIOCHEMISTRY
 Emphasis is given to the metabolism of carbohydrates, lipids, amino acids, proteins, and nucleic acids; integration of metabolism; and biochemical control mechanisms, including allosteric control, induction, repression, as well as the various types of inhibitive control mechanisms. *Three hours of lecture, one three-hour laboratory and one hour of arranged work per week. Prerequisite: Chemistry 220-221 or Chemistry 115, or consent of instructor. Cross-listed as Chemistry 444. Alternate years.*

445 RADIATION BIOLOGY
 A study of the effects of ionizing and non-ionizing irradiations on cells, tissues and organisms. Consideration will be given to repair mechanisms and how repair deficiencies elucidate the nature of irradiation damage. *Three hours of lecture and one three-hour laboratory per week. Prerequisites: Biology 110-111, one year of chemistry. Alternate years.*

446 PLANT ANATOMY AND PHYSIOLOGY
 A study of plant physiology as a function of plant anatomy. Metabolic relationships and environmental factors will be examined from a background of the structure and development of cells, tissues, organs, and whole plants. *Three hours of lecture and one three-hour laboratory per week. Prerequisites: Biology 110-111, Biology 225. Alternate years.*

448 ENDOCRINOLOGY
 This course begins with a survey of the role of the endocrine hormones in the integration of body functions. This is followed by a study of the control of hormone synthesis and release, and a consideration of the mechanisms by which hormones accomplish their effects on target organs. *Two three-hour lecture/laboratory periods per week. Prerequisite: Biology 110-111. Alternate years.*

349 & 449 BIOLOGY COLLOQUIUM
 This course offers the student a chance to become familiar with research in the Biological Sciences using techniques such as meeting and talking with active researchers, reading and critically analyzing the current literature, and discussing the ideas and methods shaping Biology. Students will be

required to read and analyze scientific papers, actively participate in discussions, and, in the senior year, present the results of a literature survey or of individual research. Students majoring in this department are required to *enroll during all semesters spent on campus in the junior and senior years*. A letter grade will be given in a semester when the student gives a lecture; in other semesters the grade will be S/U. *Non-credit course. One hour per week. Prerequisites: Biology majors with junior or senior class standing.*

470-479 INTERNSHIP (See index)

Recent samples of internships in the department include ones with the Department of Environmental Resources, nuclear medicine or rehabilitative therapies at a local hospital.

N80-N89 INDEPENDENT STUDY

(See index)

Departmental studies are experimentally oriented and may entail either lab or field work.

490-491 INDEPENDENT STUDY FOR DEPARTMENTAL HONORS

(See index)

Examples of recent honors projects have involved stream analysis, gypsy moth research, drug synthesis and testing.

BUSINESS ADMINISTRATION

Professor: Hollenback

Associate Professor: Weaver

Assistant Professors: Altenburger,

Gordon (Chairperson)

Lecturer: Larrabee, Wagner

To graduate with a major in business administration, a student must complete one of two tracks:

Track I — Business Management

This track is designed to train students in the functions of today's profit and nonprofit organizations. The program provides a well-balanced preparation for a wide variety of careers, including general administration, personnel administration, commercial banking, investments and portfolio management, security analysis, corporate financial management, general marketing, sales, product management, advertising, retail merchandising, and production and manufacturing management.

Required courses are Business 110, 111, 223, 228-229, 338, 339, 440, and 441, and Mathematics 103. Business 332 or 443 may be substituted for Business 229, and Business 340 may be substituted for Business 339. *Accounting 110 may be substituted for Business 110 if the student is transferring into the business administration major, but duplicate credit will not be granted.*

Majors are also urged to enroll in Economics 110 and 111, Business 335 and 336, Mathematics 112, and Computer Science 125. Majors also are encouraged to take a foreign language. The additional elective offerings are intended to add depth in the areas of finance, marketing, and management.

Track II — Management Science

This track is designed to train students in the quantitative aspects of business administration. It provides excellent undergraduate preparation for graduate study in management science, operations research, and quantitative business administration. The program also provides a solid preparation for careers in production control, systems analysis, research, forecasting, industrial and technical sales and any of the functional areas of business where quantitative training would be an added qualification.

Required courses are Business 110, 111, 223, 338, 339, 446; Economics 110, 111, 441; Mathematics 128, 129, 112, 103, 338, and Computer Science 125. *Accounting 110 may be substituted for Business 110 if the student is transferring into the business administration major.*

Minors

The Business Administration Department offers two minors. The following courses are required to complete a minor in *Marketing*: Business 228, 229, 332, 445, and 443 or 448. A minor in *Finance* requires the completion of Business 338, 339, 340, and Economics 220, 441, or Accounting 225.

110 FINANCIAL ACCOUNTING

An introduction to the art of measuring, communicating, and interpreting financial activity. Recording, classifying and sum-

marizing business transactions, the interpretation of accounts, and the preparation of financial statements are studied. *Not open to students who have received credit for Accounting 110.*

111 MANAGERIAL ACCOUNTING

An introduction to the various components of managerial accounting. Emphasis is placed on managerial problem solving techniques and the analysis of the results. Accounting systems, costing procedures, cost-volume profit relationships, managerial control processes and the use of computers as aids to decision making are studied. Students will gain hands-on experience with various computer applications of managerial accounting. *Prerequisite: Business 110 or Accounting 110.*

223 QUANTITATIVE BUSINESS ANALYSIS

Techniques of quantitative analysis useful in making business decisions. Topics include: decision theory, inventory models, network models, forecasting, and other selected applications. Students will be introduced to computer applications of the quantitative models. *Prerequisite: Mathematics 103 or consent of instructor.*

228-229 MARKETING MANAGEMENT

Planning, organization, and control of the distribution activities of the firm, and an analysis and evaluation of the marketing system, its institutions, and processes. Application of marketing principles and the development of strategies for specific marketing problems. Product, channel flow, promotion, and pricing strategies explored. Readings, cases, and games.

332 ADVERTISING

Nature, scope, methods, and effects of promotion. Techniques of analysis and control in the use of advertising and publicity as tools in developing business strategy. *Prerequisite: Business 228 or consent of instructor.*

335 LEGAL PRINCIPLES I

Lectures and analysis of cases on the nature, sources, and fundamentals of the law in general, and particularly as relating to contracts, agency, and negotiable instruments. *Open only to juniors and seniors.*

336 LEGAL PRINCIPLES II

Lectures on the fundamentals and history of the law relating to legal association, real property, wills, and estates. *Open only to juniors and seniors.*

338 FINANCIAL MANAGEMENT I

An introduction to working capital management and financial analysis and planning.

<p>Topics are covered through readings, cases and problem solving in the areas of decisions on current asset and liability structures, cash and marketable securities, accounts receivables, inventory management and control, spontaneous financing, short-term borrowing, ratio and financial statement analysis, source and use statements, cash flow forecasting, and financial statements forecasting. <i>Prerequisites: Mathematics 103; Business 110, 111, and 223; or consent of instructor.</i></p>	<p>of personnel policies with management objectives and philosophies in such areas as fringe benefits, wage and salary policies, union activities, and health and safety.</p>	<p>small business operation. Considered and analyzed are such aspects as marketing, managing, financing, promoting, insuring, establishing, developing, and staffing the small retail, wholesale service, and manufacturing firm. <i>Prerequisite: Business 111, 228, and 338 or consent of instructor. May term.</i></p>
<p>339 FINANCIAL MANAGEMENT II A study of capital asset structure and long-term financial decisions. Topics are covered through readings, cases, and problem solving in the areas of capital budgeting, including risk and required rates of return, leveraging the firm, concepts of capital structures, dividend policy, external financing, term and lease financing, long-term debt, equity securities, convertible securities and warrants. <i>Prerequisite: Business 338 or consent of instructor.</i></p>	<p>443 RETAIL MANAGEMENT I Planning, organization, and control of the retailing firm. Competitive strategy development through store location, layout, administration organization, buying, and pricing. Cases, readings, and papers. <i>Prerequisite: Business 228 or consent of instructor.</i></p>	<p>470-479 INTERNSHIP (See index) Typical examples are marketing analysis for a paper products firm, planning a branch store, hotel and real estate management, banking and insurance.</p>
<p>340 INVESTMENTS An introduction to the financial sector of the economy and the structure and functions of financial markets and the agencies involved; brokerage houses and stock exchanges; the various types of investments available. Techniques used to evaluate financial securities. Also covered are recent developments in investment theory. <i>Prerequisite: Business 338 or consent of instructor.</i></p>	<p>445 MARKETING RESEARCH This is a study of the principles and practices of Marketing Research. The focus is on the development and application of Marketing Research Studies. Topics covered include selection of a research design, project planning and scheduling, data specification and gathering, quantitative methods to analyze data, interpretation of data, and research report writing. Readings, cases, and research project. <i>Mathematics 103 and Business 228 or consent of instructor.</i></p>	<p>N80-N89 INDEPENDENT STUDY (See index) Examples of recent studies are: the economic impact of a college on a community; a marketing strategy for a local firm entering the consumer market.</p>
<p>440 MANAGEMENT CONCEPTS Structural characteristics and functional relationships of a business organization as well as the problems encountered in coordinating the internal resources of a firm. Emphasis on administrative efficiency and procedures.</p>	<p>446 PRODUCTION MANAGEMENT An introduction to the planning, organization, and controlling of operations in a production facility. The course also incorporates quantitative techniques and computer applications used in the production and operations management environment. Topics include capacity and layout planning, facility location analysis, job design and work measurement, production scheduling, materials requirement planning models, and quality controls. Students will engage in the actual design of an inventory status file and MRP system. <i>Prerequisite: Business 223 or consent of instructor.</i></p>	<p>490-491 INDEPENDENT STUDY FOR DEPARTMENTAL HONORS (See index) A recent project was a study of the evolution of anti-trust legislation in the United States.</p>
<p>441 BUSINESS POLICIES Planning, organization, and control of business operations; setting of goals; coordination of resources, development of policies. Analysis of strategic decisions encompassing all areas of a business, and the use and analysis of control measures. Emphasis on both the internal relationship of various elements of production, finance, marketing, and personnel, and the relationship of the business entity to external stimuli. Readings, cases, and games. <i>Prerequisites: Business 223, 228-229, 338, 339, and 440, or consent of instructor. Seniors only.</i></p>	<p>447 CREATIVE ADVERTISING A workshop concerned with theme, copy, and effective presentation of advertisements for print media, radio, and direct mail. Primarily an exploration of creativity through analysis of works of artists and writers with application to practical advertising, and tailored to the interests of individual students. <i>May term. Prerequisite: Business 332 or consent of instructor.</i></p>	<p>CHEMISTRY</p>
<p>442 PERSONNEL MANAGEMENT An introduction to the managerial problems of recruiting, selecting, training, and retraining the human resources of the firm. Emphasis is placed on the interrelationship</p>	<p>448 SALES SEMINAR The role of selling in the economy. The art of creative selling; application of theories from the behavioral sciences to selling through the analysis of sales situations and techniques. <i>Prerequisite: Business 228 or consent of instructor.</i></p>	<p>Professors: Hummer Associate Professor: Franz (Chairperson) Assistant Professor: Bularzik, McDonald</p> <p>A major in chemistry consists of Chemistry 110-111, 220-221, 330-331, 332 and 333; Physics 225-226; Mathematics 128, 129 and one of the following courses: Mathematics 103, 231, 238, 332, or Computer Science 125. Mathematics 231 and 238 and French or German are strongly recommended for students planning on graduate study in chemistry. To be certified in secondary education, chemistry majors must also pass two biology courses numbered 110 or higher.</p> <p>A minor in Chemistry requires completion of four courses numbered 220 or higher; at least one must be taken from each of the following groups: Group A (220-221, 440, 441, 444, 445) and Group B (226 or 332, 330-331, 333, 439, 443). Named minors in specialized</p>

areas may be designed by students with departmental approval.

108 CHEMICAL PRINCIPLES

An introduction to the principles of inorganic chemistry. Topics include atomic and molecular structure, nomenclature, gases, solutions, acids and bases, kinetics, equilibrium, oxidation-reduction, and stoichiometry. The approach is primarily descriptive, with illustrations drawn mostly from the health sciences. Along with Chemistry 115, this course is designed for those students who require only two semesters of chemistry, and is not intended for students planning to enroll in chemistry courses numbered 200 or above. *Three hours lecture, one hour discussion, and one three-hour laboratory period each week. Prerequisite: high school algebra or Math 005. Not open for credit to students who have received credit for Chemistry 110.*

110 GENERAL CHEMISTRY I

A quantitative introduction to the concepts and models of chemistry. Topics include stoichiometry, atomic and molecular structure, nomenclature, bonding, thermochemistry, gases, solutions, and chemical reactions. The laboratory introduces the student to methods of separation, purification, and identification of compounds according to their physical properties. This course is designed for students who plan to major in one of the sciences. *Three hours lecture, one hour discussion and one three-hour laboratory period each week. Prerequisite: placement in Chemistry 110 is determined in part by a student's score on the mathematics placement examination. Not open for credit to students who have received credit for Chemistry 108, except by permission of the Chemistry Department.*

111 GENERAL CHEMISTRY II

A continuation of Chemistry 110, with emphasis placed on the foundations of analytical, inorganic, and physical chemistry. Topics include kinetics, general and ionic equilibria, acid-base theory, electrochemistry, thermodynamics, nuclear chemistry, coordination chemistry, and descriptive inorganic chemistry of selected elements. The laboratory treats aspects of quantitative and qualitative inorganic analysis. *Three hours lecture, one hour discussion, and one three-hour laboratory period each week. Prerequisite: Chemistry 110 or consent of the Chemistry Department.*

115 BRIEF ORGANIC CHEMISTRY

A descriptive study of the compounds of carbon. This course will illustrate the principles of organic chemistry with material relevant to students in medical technology,

biology, nursing, forestry, education and the humanities. Topics include nomenclature, alkanes, arenes, functional derivatives, amino acids and proteins, carbohydrates and other naturally occurring compounds. This course is designed for students who require only one semester of organic chemistry. *Three hours lecture, one hour discussion, and one four-hour laboratory period each week. Prerequisite: Chemistry 108 or 110. Not open for credit to students who have received credit for Chemistry 220.*

220-221 ORGANIC CHEMISTRY

A systematic study of the compounds of carbon, including both aliphatic and aromatic series. The laboratory work introduces the student to simple fundamental methods of organic synthesis, isolation, and analysis. *Three hours lecture and one four-hour laboratory period each week. Prerequisite: Chemistry 111.*

226 CLINICAL ANALYSIS

A presentation of selected wet-chemical and instrumental methods of quantitative analysis with an orientation toward clinical applications in medical technology. Topics include: general methods and calculations; solutions; titrations; photometric analyses (colorimetric, atomic absorption, flame emission); electrochemical methods (ion-selective electrodes, coulometry), automation. *Lecture, recitation, and laboratory daily. Prerequisite: Chemistry 110-111 or consent of instructor. May not be taken for credit following Chemistry 332. May term only.*

330-331 PHYSICAL CHEMISTRY

A study of the fundamental principles of theoretical chemistry and their applications. The laboratory work includes techniques in physicochemical measurements. *Three hours lecture and one four-hour laboratory period each week. Prerequisite: Chemistry 111, Mathematics 129, and one year of physics or consent of instructor.*

332 ANALYTICAL CHEMISTRY

A study of the fundamental methods of gravimetric, volumetric, and elementary instrumental analysis together with practice in laboratory techniques and calculations of these methods. *Two hours lecture and two three-hour laboratory periods each week. Prerequisite: Chemistry 111 or consent of instructor.*

333 ADVANCED INORGANIC CHEMISTRY

A study of modern theories of atomic and molecular structure and their relationship to the chemistry of selected elements and their compounds. *Three hours lecture and one four-hour laboratory period each week. Prerequisite: Chemistry 330, Mathematics 129, and one year of physics or consent of instructor.*

requisite: Chemistry 330, Mathematics 129, and one year of physics or consent of instructor.

439 INTRODUCTION TO QUANTUM MECHANICS

After presenting the origin, basic concepts, and formulation of quantum mechanics with emphasis on its physical meaning, the free particle, simple harmonic oscillator, and central-force problems will be investigated. Both time-independent and time-dependent perturbation theory will be covered. The elegant operator formalism of quantum mechanics will conclude the course. *Four hours of lecture and recitation. Prerequisites: Mathematics 231, either Chemistry 331 or Physics 226, and consent of instructor. Cross-listed as Physics 439.*

440 ADVANCED ORGANIC CHEMISTRY

Selected topics, which may include mechanisms of organic reactions, synthesis, detailed structure and chemistry of natural products, polynuclear hydrocarbons, and aromatic heterocyclics. *Three hours lecture. Prerequisite: Chemistry 221.*

441 QUALITATIVE ORGANIC ANALYSIS

Theory and application of the systematic identification of pure organic compounds and mixtures. *Two hours lecture and two three-hour laboratory periods each week. Prerequisite: Chemistry 221.*

443 ADVANCED ANALYTICAL CHEMISTRY

A study of advanced analytical methods with emphasis on chromatographic, electrochemical, and spectroscopic methods of instrumental analysis. *Three hours lecture and one four-hour laboratory period each week. Prerequisite: Chemistry 331 and 332 or consent of instructor.*

444 BIOCHEMISTRY

Emphasis is given to the metabolism of carbohydrates, lipids, amino acids, proteins, and nucleic acids; integration of metabolism; and biochemical control mechanisms, including allosteric control, induction, repression as well as the various types of inhibitory control mechanisms. *Prerequisite: Chemistry 221 or 115 or consent of instructor. Cross-listed as Biology 444.*

445 SPECTROSCOPY AND MOLECULAR STRUCTURE

Theory and practice of molecular structure determination by spectroscopic methods. *Three hours lecture. Pre- or co-requisites: Chemistry 331, 333, or consent of instructor.*

348 & 448 CHEMISTRY COLLOQUIUM

A seminar in which faculty, students, and invited professional chemists discuss their own research activities or those of others which have appeared in recent chemical literature. *Prerequisite: Three semesters of non-credit Chemistry Colloquium taken during the junior and senior years.*

470-479 INTERNSHIP (See index)

The student will ordinarily work under supervision in an industrial laboratory and submit a written report on his project.

N80-N89 INDEPENDENT STUDY

(See index)

The student will ordinarily work on a laboratory research project and will write a thesis on his work.

490-491 INDEPENDENT STUDY FOR DEPARTMENTAL HONORS

(See index)

The student will ordinarily work on a laboratory research project with emphasis being on the student's showing initiative and making a scholarly contribution. A thesis will be written.

CRIMINAL JUSTICE

Assistant Professor: Strauser
(Coordinator)

This major is designed to acquaint students with the American criminal justice system and to provide an understanding of the social, psychological, philosophical, and political contexts within which the system of criminal justice functions. Its aim is to develop students' intellectual and scientific skills in raising and attempting to answer important questions about the system of justice and its place in society. The program offers opportunity for intern experience in the field, and prepares for careers in the areas of law enforcement, probation and parole, prisons, and treatment services.

The major has two tracks. Track I prepares for careers in law enforcement. Track II prepares for careers in corrections.

Track I — Law Enforcement.

The major consists of 10 courses, dis-

tributed as follows:

A. Professional courses in criminal justice (three courses):

Introduction to the Criminal Justice System (Sociology and Anthropology 115)

Introduction to Law Enforcement (Sociology and Anthropology 223)

The American Prison System (Sociology and Anthropology 339)

B. Courses in the social, psychological, philosophical, and political context of the justice system (seven courses): Criminology (Sociology and Anthropology 300) and either Juvenile Delinquency (Sociology and Anthropology 221) or Racial and Cultural Minorities (Sociology and Anthropology 334) (two courses)

Abnormal Psychology (Psychology 116) (one course)

America as a Civilization (American Studies 200), Afro-American History (History 230) or United States Social and Intellectual History Since 1877 (History 443) (one course)

Law and Society (Political Science 335) and Civil Rights and Liberties (Political Science 331) (two courses)

Philosophical Issues in Criminal Justice (Philosophy 218) (one course)

C. Internship or practicum in law enforcement. (Recommended but not required for the major). *Prerequisites: Mathematics 103, Psychology 431, and Psychology 239.* These prerequisites may be waived in certain cases by the coordinating committee.

pology 334) (two courses)

Abnormal Psychology (Psychology 116) (one course)

America as a Civilization (American Studies 200), Afro-American History (History 230) or United States Social and Intellectual History Since 1877 (History 443) (one course)

Law and Society (Political Science 335) and Civil Rights and Liberties (Political Science 331) (two courses)

Philosophical Issues in Criminal Justice (Philosophy 218) (one course)

C. Internship or practicum in corrections. (Recommended but not required for the major). *Prerequisites: Mathematics 103, Psychology 431, and Psychology 239.* These prerequisites may be waived in certain cases by the coordinating committee.

Majors should seek advice concerning course selection from members of the coordinating committee and should note course prerequisites in planning their programs.

A minor in *Criminal Justice* consists of five courses. Required courses include: Soc 115, Introduction to Criminal Justice; and any four other courses in the Criminal Justice major listed above, at least three of which must be numbered 200 or above. To receive credit for a minor in Criminal Justice, a student must maintain a minimum 2.0 cum in courses completed for the minor.

ECONOMICS

Professor: Opdahl (Chairperson)
Assistant Professor: Madreseehee

The major has two tracks. Track I is designed for the student whose primary interest lies in business management; Track II is designed to provide a broad understanding of economic theory and its application to economic, social, and business problems. In addition to preparing students for a career in business or government, this track provides an excellent background for graduate or professional studies.

Track I — Managerial Economics requires Economics 110, 111, 332, and either 330 or 441; Business 110 and 111 or Accounting 110 and 220; Business 338 and 339, plus two electives from Economics 220, 229, 331, 335, 337, 443, and Business 440. Business 340 (Investments) may be substituted for Business 339 (Financial Management II).

Track II — Political Economy requires Economics 110 and 111, 331, 440, 330 or 441, and three other courses in economics. Depending on their academic and career interests, students are encouraged to select a minor in another department such as political science, philosophy, or history.

In addition, the following courses are recommended: all majors — Math 103 and Business 223; majors planning graduate work — Math 112 and 128; Track II majors — Business 110 and 111 or Accounting 110 and 220.

A minor in *Economics* requires the completion of Economics 110 and 111 and three other economics courses numbered 200 or above, or any four economics courses numbered 200 or above.

102 CONSUMER ECONOMICS

A course in "family" or "practical" economics, designed to teach students how they and their families can be intelligent consumers: that is, how they can spend, save, and borrow so as to maximize the value they receive for the income they have. Treats subjects such as intelligent shopping; the uses and abuses of credit; investing savings; buying insurance, automobiles, and houses; medical care costs; estates and wills, etc. *Alternate years.*

110 PRINCIPLES OF POLITICAL ECONOMY I

Macroeconomics. Deals with problems of the economic system as a whole. What influences the level of national income and employment? What is inflation and why do we have it? What is the role of government in a modern capitalistic system? How does business organize to produce the goods and services we demand? How are the American financial and banking systems organized? What is the nature of American unionism? What are the elements of government finance and fiscal policy?

111 PRINCIPLES OF POLITICAL ECONOMY II

This course focuses upon microeconomics and selected current economic problems. It deals with the relatively small units of the economy such as the firm and the family. Analyzes demand and supply. Discusses how business firms decide what and how much to produce and how goods and services are priced in different types of markets. Also considers such problems as economic growth, international trade, poverty, discrimination, ecology, and alternative economic systems.

220 MONEY AND BANKING

Covers business fluctuations and monetary and fiscal policy; the financial organization of society; the banking system; credit institutions; capital markets, and international financial relations. *Prerequisite: Economics 110.*

221 COMPARATIVE ECONOMIC SYSTEMS

A comparative analysis of the underlying ideologies, the basic institutions, and the performance of selected economic systems. *Alternate years.*

224 URBAN PROBLEMS

The application of economic theory to the study of significant social, political, and economic problems associated with urbanization, including poverty, employment, education, crime, health, housing, land use and the environment, transportation, and public finance. Analysis of solutions offered. *Alternate years.*

225 ENVIRONMENTAL ECONOMICS

A study of the relationship between environmental decay and economic growth, with particular reference to failures of the price and property-rights systems; application of cost/benefit analysis, measures aimed at the creation of an ecologically viable economy.

226 DEVELOPMENT OF LESS DEVELOPED COUNTRIES

A study of the theories and problems of capital accumulation, allocation of resources, technological development, growth, planning techniques, and institutions and international relations encountered by the developing nations. *Alternate years.*

229 BUSINESS CYCLES AND FORECASTING

An introduction to the nature and history of business fluctuations, the tools used in aggregate analysis, theories that seek to explain the cycle, and techniques used in forecasting economic activity. *Prerequisite: Economics 110 or permission of the instructor. Alternate years.*

330 INTERMEDIATE MICROECONOMICS

An advanced analysis of contemporary theory regarding consumer demand, production costs and theory, profit maximization, market structures, and the determinants of returns to the factors of production. *Prerequisites: Economics 110 and 111. Alternate years. Not open to students who have received credit for Economics 441.*

331 INTERMEDIATE MACROECONOMICS

An advanced analysis of contemporary theory and practice with regard to business fluctuations, national income accounting, the determination of income and employment levels, and the use of monetary and fiscal policy. *Prerequisites: Economics 110 and 111.*

332 GOVERNMENT AND THE ECONOMY

An analytical survey of government's efforts to maintain competition through antitrust legislation; to supervise acceptable cases of private monopoly through public utility regulation and via means of regulatory commissions, and to encourage or restrain various types of private economic activities. *Prerequisites: Economics 110 and 111 or consent of instructor.*

335 LABOR PROBLEMS

The history of organized labor in the United States, including the structure of unions, employers' opposition to unions, the role of government in labor-management relations, the economic impact of unions. *Alternate years.*

337 PUBLIC FINANCE

An analysis of the fiscal economics of the public sector, including the development, concepts, and theories of public expenditures, taxation, and debt at all levels of American government. Includes also the use of fiscal policy as an economic control device. *Prerequisites: Economics 110 and 111 or consent of instructor. Alternate years.*

440 HISTORY OF ECONOMIC THOUGHT

A discussion of the origins, development, and significance of the economic ideas embodied in the works of Smith, Marx, Schumpeter, Keynes, and others. *Prerequisites: Economics 110 and 111 or consent of instructor. Alternate years.*

441 MANAGERIAL ECONOMICS

The application of economic theory and methodology to the solution of business problems. Subjects include: optimizing techniques, risk analysis, demand theory, production theory, cost theory, linear programming, capital budgeting, market structures, and the theory of pricing. *Prerequisites: Economics 110 and 111. Some understand-*

ing of differential calculus is recommended. Not open to students who have received credit for Economics 330.

443 INTERNATIONAL TRADE

A study of the principles, theories, development, and policies concerning international economic relations, with particular reference to the United States. Subjects covered include: U.S. commercial policy and its development, international trade theory, tariffs and other protectionist devices, international monetary system and its problems, balance of payments issues. *Alternate years.* Prerequisites: Economics 110 and 111.

470-479 INTERNSHIP (See index)

Typically off campus in business, banking, or government, supervised by assigned employee of sponsoring organization.

N80-N89 INDEPENDENT STUDY

(See index)

Superior students may select independent study in various courses, particularly in preparation for graduate school.

490-491 INDEPENDENT STUDY FOR DEPARTMENTAL HONORS

(See index)

EDUCATION

Assistant Professors: Conrad, (Chairperson), Cherrington, McEvoy, Part-time Instructors: Dice, Marks, Shivetts

The Department of Education offers teacher certification programs in elementary and secondary education which are approved by the Commonwealth of Pennsylvania. Students may earn secondary certification in one or more of the following areas: Art (K-12), biology, chemistry, English, French, general science, German, mathematics, music (K-12), physics, social studies, and Spanish.

Education 200 and Psychology 338 are prerequisites to all other offerings in the Department of Education. Education 200 should be taken at least two semesters before the professional semester.

Students seeking elementary certification must complete Mathematics 105, Education 341, 342, 343 and 344 as prerequisites to the professional semester

(Education 445, 447, and 448).

Students interested in the teacher-education program should refer to the *Teacher Education Handbook* and consult with a member of the Education department no later than the first semester of the sophomore year. Application for the professional semester must be made during the Fall Semester of the junior year. The Department of Education will admit to the professional semester those applicants who are in good academic standing, have satisfactorily completed the participation requirements, have paid the student teaching fee, and have received a positive recommendation based upon: (a) letters from each student's major department, (b) two additional faculty outside the Department of Education; (c) a screening interview conducted by the Education Department; and (d) a writing sample from each student applicant. Major departments have different criteria for their recommendations. Therefore, students should consult with the chairperson of their major department about those requirements as soon as they begin to study for certification.

005 DEVELOPMENTAL SEMINAR

The course focuses on developing reading and study skills which are useful in college. Reading comprehension, vocabulary building, and critical reading are especially emphasized. Study skills, including time management, textbook reading, reading-study systems, notetaking, test-taking skills, and library reference skills are also stressed. *Open only to freshmen who are enrolled in English 005 or with consent of instructor. One-half unit of credit.*

200 INTRODUCTION TO THE STUDY OF EDUCATION

A study of teaching as a profession with emphasis on the economic, social, political, and religious conditions which influence American schools and teachers. Consideration is given to the school environment, the curriculum, and the children with the intention that students will examine more rationally their own motives for entering the profession.

232 INSTRUCTIONAL MEDIA AND COMMUNICATIONS

A study of the value, design, construction, and application of the visual and auditory

aids to learning. Practical experience in the handling of audio-visual equipment and materials is provided. Application of audio-visual techniques. Application of the visual and auditory aids to learning. Students will plan and carry out actual teaching assignments utilizing various A-V devices.

239 PUBLIC SCHOOL CURRICULUM

An examination of the various curricula of the public schools and their relationships to current practices. Special attention will be given to the meaning and nature of the curriculum, the desirable outcomes of the curriculum, conflicting and variant conceptions of curricular content, modern techniques of curricular construction, criteria for the evaluation of curricula, the curriculum as a teaching instrument. Emphasis will be placed upon the curriculum work within the teaching field of each individual.

341 TEACHING THE SOCIAL STUDIES IN THE ELEMENTARY SCHOOL

Studies and experiences to develop a basic understanding of the structure, concepts, and processes of anthropology, economics, geography, history, political science, and sociology as they relate to the elementary school social-science curriculum. Practical applications, demonstrations of methods, and the development of integrated teaching units using tests, reference books, films, and other teaching materials. Observation and participation in Greater Williamsport elementary schools. Prerequisites: Education 200 and Psychology 338 or consent of instructor.

342 TEACHING SCIENCE IN THE ELEMENTARY SCHOOL

Science methods and materials interpreting children's science experiences and guiding the development of their scientific concepts. A study of the science content of the curriculum, its material, and use. Observation and participation in Greater Williamsport elementary schools. Prerequisites: Education 200 and Psychology 338 or consent of instructor.

343 TEACHING LANGUAGE ARTS AND CHILDREN'S LITERATURE IN THE ELEMENTARY SCHOOL

A course designed to consider the principal means of communication, oral and written, including both practical and creative uses. Attention will be given to listening, speaking, written expression, linguistics and grammar, spelling, and handwriting. Stress will be placed upon the interrelatedness of the language arts. Children's literature will be explored as a vehicle for developing creative characteristics in children and for ensuring an appreciation of the creative

writing of others. Observation and participation in Greater Williamsport elementary schools. *Prerequisites: Education 200 and Psychology 338 or consent of instructor.*

344 TEACHING READING IN THE ELEMENTARY SCHOOL
 A basic course in the philosophy and rationale for the implementation of an elementary developmental-reading program from kindergarten through sixth grade. Emphasis is upon designing a reading instructional program which reflects the nature of the learning process and recognizes principles of child development through examination of the principles, problems, methods, and materials used in elementary reading programs. Observation and participation in Greater Williamsport elementary schools. *Prerequisites: Psychology 338, Education 200, or consent of instructor.*

445 METHODS OF TEACHING IN THE ELEMENTARY SCHOOL (PART OF THE PROFESSIONAL SEMESTER)
 The course emphasizes the relationship between the theoretical studies of physical, social, and cognitive development and the elementary classroom environment. Particular consideration will be given to the appropriate age and developmental level of the students with an emphasis upon selection and utilization of methods in all the elementary subject areas, including art and music. Specific attention will be given to the development of strategies for structuring lesson plans, for maintaining classroom control, and for overall classroom management. Direct application will be made to the individual student-teaching experience. *Prerequisites: Math 105, Education 341, 342, 343 and 344, or consent of instructor.*

446 METHODS OF TEACHING IN THE SECONDARY SCHOOL (PART OF THE PROFESSIONAL SEMESTER)
 A study of materials, methods, and techniques with emphasis on the student's major. Stress is placed on the selection and utilization of visual and auditory aids to learning. Students will teach demonstration lessons in the presence of the instructor and the members of the class and will observe superior teachers in Greater Williamsport secondary schools. *Prerequisites: Education 200, Psychology 338, and pre-student teaching participation.*

447 PROBLEMS IN CONTEMPORARY AMERICAN EDUCATION (PART OF THE PROFESSIONAL SEMESTER)
 Seminar in the issues, problems, and challenges encountered by teachers in the American public schools, especially those related to the student-teaching experience.

448 STUDENT TEACHING IN THE ELEMENTARY SCHOOL (PART OF THE PROFESSIONAL SEMESTER)
 Two units. Professional experience under the supervision of a selected cooperating teacher in a public elementary school in Greater Williamsport.*

449 STUDENT TEACHING IN THE SECONDARY SCHOOL (PART OF THE PROFESSIONAL SEMESTER)
 Two units. Professional laboratory experience under the supervision of a selected cooperating teacher in a public secondary school in Greater Williamsport.*

*Student teachers are required to follow the calendar of the school district to which they are assigned.

ENGLISH

Professors: Jensen (Chairperson),
 Van Marter
 Associate Professor: Rife
 Assistant Professors: Gold,
 Moses, Wild
 Part-time Instructors: Hartsock, Lakey,
 Logue, Stone, Sweeney

A major consists of nine courses not including English 005 or 106. These nine courses must include English 217, 220, 221, 222, 223, and one from English 335 and 336.

The remaining electives may include any course from English 112 and above not already taken to satisfy the preceding requirements. With the consent of the Department of English, an appropriate course from the offerings of other departments may be substituted for an English elective.

Majors seeking secondary certification in English are required to take English 335, English 338, and Theatre 100.

The Department of English participates with seven others in the American Studies interdisciplinary major, in which American literature courses constitute an important part of the American-arts concentration area.

Because of its emphasis on communication skills, a major or a minor in English is excellent preparation for a wide range of professions. In addition to preparing students for graduate work or for teaching, a major or a minor in English can be valuable for those interested in a career in law, ministry, publishing, editing or writing, and business, to name a few.

Two minors are available in the Department of English. A minor in *Literature* consists of five literature courses numbered 112 and above, three of which must be numbered 200 or above, and at least one of which must be numbered 300 or above. With the written consent of the department, one writing course may be substituted for a literature course. A minor in *Writing* consists of five courses: English 216 and 217 (both required); and advanced course in literature at the 300 level or above; two other courses selected from English 228, 327, 329, and 338. With the written consent of the department, an independent studies project in writing may be substituted for any required course in the writing minor except for English 216 and 217.

005 WORKSHOP IN DEVELOPMENTAL WRITING
 Classroom and laboratory instruction in organizing and writing the detailed paragraph and illustrative expository theme, with major emphasis on spelling, grammar, and sentence structure. Writing assignments and classroom exercises designed to ensure mastery of the student's special problems in basic writing.

One-half unit grade of "S" will be assigned when the student has successfully completed all of the work in the course. Required of, and limited to, those who have not been exempted from English 005.

106 COMPOSITION
 Extensive practice in analytical writing. Special emphasis on developing the composing skills needed to articulate and defend a position in various situations requiring the use of written English.

112 INTRODUCTION TO LITERATURE
 An introduction to the study of literature designed for the general student and utilizing one of the following approaches: major literary genres, selected literary masterpieces, or traditional themes in literature. *Prerequisite: English 106 or consent of instructor.*

215 INTRODUCTION TO MEDIA WRITING
 Analysis of and practice in the basic forms of media writing: the elements of lead, style and structure. Frequent workshop sessions for detailed critiques and discussion of student writing. *Prerequisites: Mass Communication 110 or consent of instructor, and a grade of C or better in English 106.*

216 WRITING FOR SPECIAL AUDIENCES
 Intensive practice in writing and presenting information to various audiences within the student's own discipline. Includes training in the use of graphics and in basic library research methods. *Prerequisites: a grade of C or better in English 106 or consent of instructor. Alternate years.*

217 CRITICAL WRITING
 Designed to provide intermediate students of literature with the critical skills necessary for an understanding of poetry, fiction, drama, and film. Intensive reading and extensive practice in writing the critical essay. *Required of English majors. Prerequisite: English 106 or consent of instructor.*

220 BRITISH LITERATURE I
 Literary forms, themes, and authors from the Anglo-Saxon through the Neo-Classical periods. Such writers as Chaucer, Spenser, Shakespeare, Milton, Swift, Pope, and Johnson; representative works from *Beowulf* to Sterne's *Sentimental Journey*. *Prerequisite: English 106 or consent of instructor.*

221 BRITISH LITERATURE II
 Literary movements and authors from the Romantic Period to the present. Particular emphasis on such writers as Blake, Wordsworth, Shelley, Keats, Tennyson, Browning, Arnold, Hardy, Yeats, Eliot. *Prerequisite: English 106 or consent of instructor.*

222 AMERICAN LITERATURE I
 Brief survey of American literature and thought before 1800, followed by more intensive study of the literature and thought of the period 1800-1900. Major focus on the works of Emerson, Thoreau, Poe, Hawthorne, Melville, Whitman and Dickinson. *Prerequisite: English 106 or consent of instructor.*

223 AMERICAN LITERATURE II
 Major writers, movements, and tendencies in American literature during the present century. Such forces as naturalism, realism, and modernism; such writers as Twain, James, Hemingway, Faulkner, Frost, Eliot, and Stevens. *Prerequisite: English 106 or consent of instructor.*

224 THE SHORT STORY
 Historical and critical study of the short

story. Consideration of representative examples of the form with emphasis on American and European writers of the 19th and 20th centuries. *Prerequisite: English 106 or consent of instructor.*

225 THE NOVEL
 Historical study of the development of the novel from the 18th through the 20th centuries. Novels analyzed both as works of prose art and as turning points in the development of the novel. *Alternate years. Prerequisite: English 106 or consent of instructor.*

226 LITERATURE AND FILM
 The relationship between the conventions of literature and film with emphasis on examination of representative literary and film works. Media comparison to reveal the problems of adaptation. *Prerequisite: English 106 or consent of instructor.*

228 CREATIVE WRITING WORKSHOP: FICTION AND POETRY
 A beginning course in the theory and practice of writing fiction and poetry. Students may concentrate in either genre or both. *Alternate years. Prerequisite: English 106 or consent of instructor.*

327 PRINT JOURNALISM
 Techniques in reporting news and trends at the local, regional, and county levels; emphasis on writing the longer news and feature article, the editorial, and the investigative news story. *Prerequisite: a grade of C or better in English 215. Alternate years.*

329 BUSINESS AND PUBLICITY WRITING
 Analyzing media and audiences for public relations and business purposes; planning, designing, and writing business reports and procedures; press relations and publicity methods; the news and feature publicity release. *Prerequisites: a grade of C or better in English 215 or completion of at least one Business Administration or Accounting course. Alternate years.*

330 ROMANTIC LITERATURE
 A study of the major poetry and fiction, plus some non-fiction prose, written during the years, 1789-1832. Emphasis on the work of at least three poets, two novelists, and assorted prose writers. *Prerequisite: English 106 or consent of instructor. Alternate years.*

331 MODERN FICTION
 Study of the novels and short fiction of such major British and American figures as Conrad, Forster, Woolf, Lawrence, Joyce, Hemingway, Faulkner, Nabokov, and Bellows. *Prerequisite: English 106 or consent of instructor.*

332 MODERN POETRY
 A study of the poetry written in this century, beginning with Yeats and Eliot and continuing through such writers as Frost, Williams, Moore, Stevens, Auden, Lowell, Roethke, Thomas, Ginsberg, and Rich. *Prerequisite: English 106 or consent of instructor. Alternate years.*

333 COMEDY, TRAGEDY, AND THE MODERN THEATRE
 Introduction to the theories of comedy and tragedy as those theories help us to deepen our response to the theatre. Major focus on plays, including musicals, from Ibsen and Shaw to the present. *Prerequisite: English 106 or consent of instructor. Alternate years.*

334 WOMEN AND LITERATURE
 Through an examination — literary, social, and historical — of selected British and American literature by women, this course will seek to identify those elements which distinguish women's particular contribution to the literary canon. *Prerequisite: English 106 or consent of instructor. Alternate years.*

335 CHAUCER
 A study of the major works with emphasis on *The Canterbury Tales* and *Troilus and Criseyde*. Some attention to the traditions out of which these works arose. *Required of majors seeking secondary certification in English. Prerequisite: English 106 or consent of instructor. Alternate years.*

336 SHAKESPEARE
 A study of representative plays: comedies, tragedies, histories, romances. Attention given to Shakespeare's life and times. *Prerequisite: English 106 or consent of instructor. Alternate years.*

338 LINGUISTICS AND THE ANALYSIS OF THE ENGLISH LANGUAGE
 Introduction to methods of analyzing spoken and written English. Classroom work supported by weekly tutorials, in which the student gains practical experience in identifying, diagnosing, and correcting basic communications problems. *Required of majors seeking secondary certification in English. Prerequisite: English 106 or consent of instructor. Alternate years.*

440 SELECTED WRITERS
 An intensive study of no more than three writers, selected on the basis of student and faculty interest. Possible combinations include: Frost, Hemingway, and Faulkner; O'Connor, Welty, and Porter; Spenser and Milton; Hawthorne, Melville, and Dickens; Woolf, Forster, and Lawrence; Joyce and Yeats. *May be repeated for credit if the writers are different. Prerequisite: English 106 or consent of instructor. Alternate years.*

441 TOPICS IN LITERATURE

Examination of a literary theme, idea, or movement as it appears in one or more types of literature and as it cuts across various epochs. Possible topics include: American Novelists and Poets of the Jazz Age and Depression; Religion and Literature; Gothic Tradition in American Literature; Realism in the Novel; Literary Modernism; Literature and Mythology; The Hero in Literature. *May be repeated for credit if the topic is different.* Prerequisite: English 106 or consent of instructor. Alternate years.

470-479 INTERNSHIP (See index)

Interns typically work off campus in a profession related to their career interest such as law, public relations, journalism, and others.

N80-N89 INDEPENDENT STUDY

(See index)

Recent studies include The Arthurian Legend, Shakespeare's Women, D.H. Lawrence, and T.S. Eliot: The Social Vision.

490-491 INDEPENDENT STUDY FOR DEPARTMENTAL HONORS

(See index)

Recent projects include The Creative Process in Literature and Art and Images of Women in the 1890's.

FOREIGN LANGUAGES AND LITERATURES

Associate Professors: Flam, Maples, MacKenzie (Chairperson)

Assistant Professor: Barker

Part-time Instructor: Yeager

Study of foreign languages and literatures offers opportunity to explore broadly the varieties of human experience and thought. It contributes both to personal and to international understanding by providing competence in a foreign language and a critical acquaintance with the literature and culture of foreign peoples. A major can serve as entree to careers in business, industry, government, publishing, education, journalism, social agencies, translating, and writing. It prepares for graduate work in literature or linguistics and the international fields of politics, commerce, law, health, and area studies.

French, German, and Spanish are offered as major fields of study. The major consists of at least eight courses numbered 111 or above. Majors seeking

teacher certification and students planning to enter graduate school are advised to begin study of a second foreign language. The department encourages the development in breadth of programs, including allied courses from related fields or a second ajar, and also individual or established interdisciplinary majors combining interest in several literatures or area or cross-cultural studies; for example, International Studies, 20th Century Studies, the Major in Literature. Majors, teacher certification candidates, and all students are encouraged to spend at least a semester of study abroad by applying to one of the many programs available. The department maintains a file of such programs.

Courses taught in English: Foreign Languages and Literatures 225, French 228 (Section A) and Spanish 331 (Section A).

Foreign Languages and Literatures

225 CONTINENTAL LITERATURE

A study of such major continental authors as Cervantes, Dostoevsky, Chekhov, Dante, Ibsen, Proust, Gide, Kafka, Hesse, Goethe, Sartre, Camus, Brecht, and Ionesco. Works read in English translation will vary and be organized around a different theme or topic; recent topics have been existentialism, modernism, drama, the Weimar era, and 20th century Scandinavian and German prose writers. *Prerequisite: None. May be repeated for credit with consent of instructor. May be accepted toward the English major with consent of the Department of English.*

338 FOREIGN LANGUAGE: SYSTEMS AND PROCESS

Study of basic linguistic concepts as a tool for language learning and teaching. Discussion and application of language teaching techniques, including work in the language laboratory. Designed for future teachers of one or more languages and normally taken in the junior year. Students should arrange through the Department of Education to fulfill in the same semester the requirements of a participation experience in area schools. *Prerequisite: consent of instructor.*

French

A major consists of a minimum of eight courses numbered 111 or above, including at least two from 402, 412, 423, and 427. In addition, all majors who wish to be certified for teaching must

pass courses 221-222, and Foreign Languages and Literatures 338 (the latter course with a C or better).

A minor in French consists of at least four courses numbered 221 and above. Courses 111 and 112 may be counted toward the minor, but then the minor must consist of at least five courses, three of which must be numbered 200 and above.

101-102 ELEMENTARY FRENCH

The aim of the course is to acquire the fundamentals of the language with a view to using them. Regular practice in speaking, understanding, and reading.

111-112 INTERMEDIATE FRENCH

Review and development of the fundamentals of the language for immediate use in speaking, understanding, and reading with a view to building confidence in self-expression. *Prerequisite: French 102 or equivalent.*

221-222 FRENCH LANGUAGE PRACTICE

Further training in speaking, listening comprehension, reading, and writing. Includes extensive work in grammar. *Prerequisite: French 112 or equivalent.*

228 MODERN FRANCE

A course designed to familiarize students with political and social structures and cultural attitudes in contemporary French society. Materials studied may include such documents as newspaper articles, interviews and sociological surveys, and readings in history, religion, anthropology, and the arts. Some attention to the changing education system and the family and to events and ideas which have shaped French society. May include some comparative study of France and the United States.

English Section: Not applicable toward satisfying the foreign language distribution requirement. *Prerequisite: none.*

French Section: Offers readings, papers, and interviews in French for students with sufficient language skill. Can be applied toward the foreign language distribution requirement. *Prerequisite: French 221 or consent of instructor.*

402 FRENCH LITERATURE TO 1800

Major authors and movements from the Medieval, Renaissance, Classical and Enlightenment periods. Includes the *chanson de geste*, Villon, Montaigne, Corneille, Racine, Molière, Voltaire and Rousseau. *Prerequisite: French 222 or 228 or consent of instructor. Alternate years.*

412 FRENCH LITERATURE OF THE 19TH CENTURY

The dimensions of the Romantic sensibility: Musset, Hugo, Vigny, Balzac, Stendhal. Realism and Naturalism in the novels of Flaubert and Zola. Reaction in the poetry of Baudelaire, Rimbaud, Verlaine, and Mallarmé. *Prerequisite: French 222 or 228 or consent of instructor. Alternate years.*

423 MODERN FRENCH THEATRE

Major trends in French drama from the turn of the century to Existentialism and the Theatre of the Absurd, Giraudoux, Anouilh, Sartre, Camus, Beckett, Ionesco, Genet, Adamov, and others. *Prerequisite: French 222 or 228 or consent of instructor.*

427 FRENCH LITERATURE OF THE 20TH CENTURY

Representative poets and novelists of modern France. Readings selected from the works of authors such as Proust, Gide, Aragon, Giono, Mauriac, Céline, Malraux, Saint-Exupéry, Camus, the "new novelists" (Robbe-Grillet, Butor, Sarrault, Le Clézio), and the poetry of Apollinaire, Valéry, the Surrealists (Breton, Reverdy, Eluard, Char), Saint-John Perse, Supervielle, Prévert, and others. Some attention to works of French-speaking African writers. *Prerequisite: French 222 or 228 or consent of instructor. Alternate years.*

441 ADVANCED LANGUAGE PRACTICE

Intensive practice for advanced students who wish to improve further their spoken and written French. Includes work in oral comprehension, phonetics, pronunciation, oral and written composition, and translation. *Prerequisite: one course from French 402, 412, 423, 427 or consent of instructor.*

470-479 INTERNSHIP (See index)

**N80-N89 INDEPENDENT STUDY
(See index)**

Examples of recent studies in French include translation, existentialism, the classical period, enlightenment literature, and Saint-Exupéry.

**490-491 INDEPENDENT STUDY FOR DEPARTMENTAL HONORS
(See index)**

German

A major consists of a minimum of eight courses numbered 111 or above. One unit of Foreign Languages and Literatures 225 may be included in the major with permission. German 431 or German 441 is required of all majors. All majors who wish to be certified for

teaching must pass German 323 and 325. In addition to the eight courses for the major they must also pass Foreign Languages and Literatures 338 with a grade of C or better. All majors are urged to enroll in History 416, Music 336, Political Science 220 and Theatre 335.

A minor in German consists of at least four courses numbered 200 and above. Courses 111 and 112 may be counted toward the minor, but then the minor must consist of at least five courses, three of which must be numbered 200 and above.

101-102 ELEMENTARY GERMAN

Aim of course is to acquire the fundamentals of the language with a view to using them. Regular practice in speaking, understanding, and reading.

111-112 INTERMEDIATE GERMAN

Review and development of fundamentals of the language for immediate use in speaking, understanding, and reading with a view to building confidence in self-expression. *Prerequisite: German 102 or equivalent.*

221-222 COMPREHENSIVE REVIEW AND LANGUAGE PRACTICE

A two-semester course designed to review and develop skills in speaking, listening, writing and reading. Grammar and vocabulary building are stressed with intensive review, writing practice and some reading on contemporary issues in German-speaking countries. As the course progresses, greater emphasis is placed on speaking, listening comprehension, and translation. Some attention is given to the development of the language and its relationship to English. *Prerequisite: German 112 or equivalent.*

323 SURVEY OF GERMAN LITERATURE AND CIVILIZATION I

Designed to acquaint the student with important periods of German literature, representative authors, and major cultural developments in Germany, Austria, and Switzerland. The course deals with literature and culture from the Early Middle Ages through the 18th century. *Prerequisite: German 222 or consent of instructor.*

325 SURVEY OF GERMAN LITERATURE AND CIVILIZATION II

Designed to acquaint the student with important periods of German literature, representative authors, and major cultural developments in Germany, Austria, and Switzerland. The course deals with literature and culture from the 19th century to the

present. *Prerequisite: German 222 or consent of instructor.*

411 THE NOVELLE

The German Novelle as a genre relating to various literary periods. *Prerequisite: German 323 or 325 or consent of instructor.*

421 GERMAN POETRY

A study of selected poets or the poetry of various literary periods. Possible topics include: Romantic poetry, Heine, Rilke, and Benn. *Prerequisite: German 323 or 325 or consent of instructor.*

431 GOETHE

A study of the life and works of Goethe. Goethe's significance in the Classical period and later. Readings in the major works. *Prerequisite: German 323 or 325 or consent of instructor.*

433 CLASSICAL GERMAN DRAMA

The development of *das klassische Drama* with emphasis on works of Lessing, Goethe, Kleist, and Schiller. *Prerequisite: German 323 or 325 or consent of instructor.*

441 CONTEMPORARY GERMAN LITERATURE

Representative poets, novelists and dramatists of contemporary Germany, Switzerland and Austria covering the period from 1945 to the present. Readings selected from writers such as: Borchert, Böll, Brecht, Benn, Frisch, Dürrenmatt, Bichsel, Handke, Walser, Grass and others. *Prerequisite: German 323 or 325 or consent of instructor.*

470-479 INTERNSHIP (See index)

**N80-N89 INDEPENDENT STUDY
(See index)**

Examples of recent studies in German include Classicism, Germanic Mythology, Hermann Hesse, the dramas of Frisch, and Dürrenmatt.

**490-491 INDEPENDENT STUDY FOR DEPARTMENTAL HONORS
(See index)**

Greek

Greek is not offered as a major. An interdisciplinary minor in *Biblical Languages* requires the completion of Greek 221, 222 and Hebrew 221 and 222.

101-102 NEW TESTAMENT GRAMMAR AND READINGS

Fundamentals of New Testament Greek grammar and readings of selected passages of the Greek text. *Alternate years.*

221 READINGS IN THE SYNOPTIC GOSPELS
A comparative study of the synoptic tradition in Greek. *Prerequisite: Greek 102 or equivalent. Alternate years.*

222 READINGS IN THE PAULINE EPISTLES
Selected readings from the letters of Paul in Greek. *Prerequisite: Greek 221 or equivalent. Alternate years.*

Hebrew
Hebrew is not offered as a major. An interdisciplinary minor in *Biblical Languages* requires the completion of Greek 221, 222 and Hebrew 221 and 222.

101-102 OLD TESTAMENT GRAMMAR AND READINGS
Fundamentals of Old Testament Hebrew grammar and readings of selected passages of the Hebrew text. *Alternate years.*

221 READINGS IN OLD TESTAMENT NARRATIVE
A critical reading of the Hebrew text of selected narrative portions of the Old Testament with special attention being given to exegetical questions. The text read varies from year to year. *Prerequisite: Hebrew 102 or equivalent. Alternate years.*

222 READINGS IN THE PROPHETIC BOOKS AND WISDOM LITERATURE
A critical reading of the Hebrew text of selected portions of Old Testament prophecy and wisdom literature with special attention being given to exegetical questions. The text read varies from year to year. *Prerequisite: Hebrew 221 or equivalent. Alternate years.*

Spanish
A major consists of eight courses numbered 111 or above. Foreign Languages and Literatures 338 does not count toward the major.
All majors who wish to be certified for teaching in secondary school must pass Foreign Languages and Literatures 338 (grade of C or better) and Spanish 448.
A minor in Spanish consists of at least four courses numbered 200 and above. Courses 111 and 112 may be counted toward the minor, but then the minor must consist of at least five courses, three of which must be numbered 200 and above.

101-102 ELEMENTARY SPANISH
Aim of course is to acquire the fundamentals of the language with a view to using them. Regular practice in speaking, understanding, and reading.

111-112 INTERMEDIATE SPANISH
Review and development of fundamentals of the language for immediate use in speaking, understanding, reading and writing with a view to building confidence in self-expression. Usually the student chooses from among the following areas for their work in building vocabulary and fluency: Spanish for Business and Economics, Spanish for Social Services, Spanish for Law Enforcement, Spanish for Health Care Professionals, or, for the student who does not plan to use the language for one of these specific career goals, Spanish for Communication. *Prerequisite: Spanish 102 or equivalent.*

221-222 COMPREHENSIVE REVIEW AND LANGUAGE PRACTICE
This course consists of a thorough review of grammar, drills for oral comprehension and expression, discussion of readings and the writing of compositions. It is designed to develop the student's ability to read, write and converse in Spanish with confidence. *Prerequisite: Spanish 112 or equivalent.*

311 HISPANIC CULTURE
To introduce students to the Spanish-speaking people — their values, customs and institutions, with reference to the geographic and historical forces governing present-day Spain and Spanish America. *Prerequisite: Spanish 222 or consent of instructor. Alternate years.*

323 SURVEY OF SPANISH LITERATURE AND CIVILIZATION
Designed to acquaint the student with important periods of Spanish literature, representative authors, and major socio-economic developments. The course deals with the literature from the beginning to the present. *Prerequisite: Spanish 222 or consent of instructor. Alternate years.*

325 SURVEY OF SPANISH-AMERICAN LITERATURE AND CIVILIZATION
Designed to acquaint the student with important periods of Spanish-American literature, representative authors, and major socio-economic developments. The course deals with the literature, especially the essay and poetry, from the 16th century to the present. *Prerequisite: Spanish 222 or consent of instructor. Alternate years.*

418 ADVANCED LANGUAGE PRACTICE
Intensive practice for advanced students who wish to improve further their spoken and written Spanish. Includes work in oral comprehension, pronunciation, oral and written composition, and translation. *Prerequisite: One Spanish course at the 300's level or consent of instructor. Alternate years.*

424 SPANISH LITERATURE OF THE GOLDEN AGE
A study of representative works and principal literary figures in the poetry, prose, and drama of the 16th and 17th centuries. *Prerequisite: Spanish 323, 325, or consent of instructor.*

426 MODERN HISPANIC LITERATURE
Readings of important works of drama, poetry, and prose from the major periods of 19th and 20th century Spanish and Latin-American literature. *Prerequisite: Spanish 323, 325, or consent of instructor.*

470-479 INTERNSHIP (See index)

N80-N89 INDEPENDENT STUDY (See index)
Recent studies include literary, linguistic, and cultural topics and themes such as urban problems as reflected in the modern novel.

490-491 INDEPENDENT STUDY FOR DEPARTMENTAL HONORS (See index)

HISTORY

Professor: Piper
Associate Professor: Larson, Morris (Chairperson)
A major consists of 10 courses, including 110, 111, and 449. At least seven courses must be taken in the department. The following courses may be counted toward fulfilling the major requirements: American Studies 200, Political Science 439, Religion 226 and 228. Other appropriate courses outside the department may be counted upon departmental approval. For history majors who student teach in history, the major consists of nine courses. In addition to the courses listed below, special courses, independent study, and honors are available. Special courses recently taught and anticipated include a biographical study of European Monarchs, the European Left, the Industrialization and Urbanization of Modern Europe, Utopian Movements in America, the Peace Movement in America, The Vietnam

War, and American Legal History. History majors are encouraged to participate in the internship program.

Three minors are offered by the Department of History. The following courses are required to complete a minor in *American History*: History 125, 126, and three courses in American history numbered 200 and above. A minor in *European History* requires the completion of History 110, 111, and three courses in European history numbered 200 and above. To obtain a minor in *History* (without national or geographic designation), a student must complete six courses in history, of which three must be chosen from History 110, 111, 125 and 126 and three must be history courses numbered 200 and above.

105 SELECTED THEMES IN WESTERN CIVILIZATION

A survey of the political, economic, social, and cultural values and institutions in Western Civilization from the time of classical Greece to the present. *One-half unit of credit. (Not open to students who have had History 110 and 111).*

110 EUROPE 1500-1815

An examination of the political, social, cultural, and intellectual history of Europe and its relations with other areas of the world from 1500 to 1815.

111 EUROPE 1815-Present

An examination of the political, social, cultural, and intellectual history of Europe and its relations with other areas of the world from 1815 to the present.

120 LATIN AMERICAN HISTORY

An examination of the native civilization, the age of discovery and conquest, Spanish colonial policy, the independence movements, and the development of modern institutions and governments in Latin America. *Alternate years.*

125 UNITED STATES HISTORY 1607-1877

A study of the men, measures, and movements which have been significant in the development of the United States between 1607 and 1877. Attention is paid to the problems of minority groups as well as to majority and national influences.

126 UNITED STATES HISTORY 1877-Present

A study of men, measures, and movements which have been significant in the develop-

ment of the United States since 1877. Attention is paid to the problems of minority groups as well as to majority and national influences.

210 ANCIENT HISTORY

A study of the ancient western world, including the foundations of the western tradition in Greece, the emergence and expansion of the Roman state, its experience as a republic, and its transformation into the Empire. The course will focus on the social and intellectual life of Greece and Rome as well as political and economic changes. *Alternate years.*

212 MEDIEVAL EUROPE AND ITS NEIGHBORS

The history of Europe from the dissolution of the Roman Empire to the mid-15th century. The course will deal with the growing estrangement of western Catholic Europe from the Byzantium and Islam, culminating in the Crusades; the rise of the Islamic Empire and its later fragmentation; the development and growth of feudalism; the conflict of empire and papacy, and the rise of the towns. *Alternate years.*

216 FRENCH REVOLUTION AND NAPOLEON

An analysis of the political, social, and intellectual background of the French Revolution, a survey of the course of revolutionary development, and an estimate of the results of the Napoleonic conquests and administration. *Prerequisite: History 110 or consent of instructor. Alternate years.*

218 EUROPE IN THE ERA OF THE WORLD WARS

An intensive study of the political, economic, social, and cultural history of Europe from 1900-1945. Topics include the rise of irrationalism, the origins of the First World War, the Communist and Fascist Revolutions, and the attempts to preserve peace before 1939. *Prerequisite: History 111 or consent of instructor.*

219 CONTEMPORARY EUROPE

An intensive study of the political, economic, social, and cultural history of Europe since 1945. Topics include the post-war economic recovery of Europe, the Sovietization of Eastern Europe, the origins of the Cold War, decolonization, and the flowering of the welfare state. *Prerequisite: History 111 or consent of instructor.*

222 HISTORY OF WORLD WAR II

A comprehensive examination of World War II emphasizing the effect of ideological, economic, and political forces on the formulation of military strategy and the conduct of

operation; the nature and extent of the expansion of government powers; and the experience of war from the perspective of ordinary civilians and military alike. *Does not count toward distribution.*

226 COLONIAL AMERICA AND THE REVOLUTIONARY ERA

The establishment of British settlements on the American continent, their history as colonies, the causes and events of the American Revolution, the critical period following independence, and proposal and adoption of the United States Constitution. *Alternate years.*

230 AFRO-AMERICAN HISTORY

A study of the experiences and participation of Afro-Americans in the United States. The course includes historical experiences such as slavery, abolition, reconstruction, and urbanization. It also raises the issue of the development and growth of white racism, and the effect of this racism on contemporary Afro-American social, intellectual, and political life. *Alternate years.*

244 20TH CENTURY UNITED STATES

This course begins with the Progressive Era and includes the political, economic, and social developments in the 20th century. Emphasis will be placed on the domestic and international demands which have faced the United States in the period following World War II.

310 WOMEN IN HISTORY

An examination of the social, political, economic and intellectual experience of women in the Western World from ancient times to the present. May be taken for either one-half unit (section 310A) or full unit (section 310B); declared majors and prospective majors should take the full-unit course. 310B.

316 CONFLICT IN WESTERN CIVILIZATION

An in-depth study of the changing nature of war and its relationship to the development of Western Civilization since the end of the Middle Ages. Particular emphasis will be placed on the role of war in the development of the modern nation state and the origins and nature of total war. *Alternate years.*

320 DIPLOMATIC HISTORY OF EUROPE SINCE 1789

A survey of the development of the European-states system and the relations between the European states since the beginning of the French Revolution. *Prerequisite: History 111 or consent of instructor. Alternate years.*

322 THE CRISIS OF LIBERALISM AND NATIONALISM, EUROPE 1848-1870
 An in-depth investigation of the crucial "Middle Years" of 19th century Europe from the revolutions of 1848 through the unification of Germany. The course centers on the struggles for power within the major states of Europe at this time, and how the vehicle of nationalism was used to bring about one type of solution. *Alternate years.*

328 AGE OF JEFFERSON AND JACKSON
 The theme of the course is the emergence of the political and social characteristics that shaped modern America. The personalities of Thomas Jefferson, John Marshall, John Randolph, Aaron Burr, and Andrew Jackson receive special attention. Special consideration is given to the first and second party systems, the decline in community cohesiveness, the westward movement, and the growing importance of the family as a unit of social organization. *Alternate years.*

332 CIVIL WAR AND RECONSTRUCTION
 The problems and events leading to war, the political and military history of the war, and the bitter aftermath to the Compromise of 1877.

340 20TH CENTURY
 UNITED STATES RELIGION
 The study of historical and cultural developments in American society which relate to religion or what is commonly called religion. This involves consideration of the institutional and intellectual development of several faith groups as well as discussion of certain problems, such as the persistence of religious bigotry and the changing modes of church-state relationships. *Alternate years.*

416 HISTORY OF
 REFORMATION THOUGHT
 A study of the ideas and systems of ideas propounded prior to the Reformation, but which are historically related to its inception, and of the ideas and systems of ideas involved in the formulation of the major Reformation Protestant traditions, and in the Catholic Reformation. Included are the ideas of the humanists of the Reformation Era. *Alternate years.*

418 HISTORY OF
 RENAISSANCE THOUGHT
 A study of the classical, humanist, and scholastic elements involved in the development of the Renaissance outlook on views and values, both in Italy and in Northern Europe. The various combinations of social and political circumstances which constitute the historical context of these intellectual developments will be noted. *Alternate years.*

442 UNITED STATES SOCIAL AND INTELLECTUAL HISTORY TO 1877
 A study of the social and intellectual experience of the United States from its colonial antecedents through reconstruction. Among the topics considered are Puritanism, transcendentalism, community life and organization, education, and social-reform movements. *Prerequisites: two courses from History 125, 126, 230, or consent of instructor.*

443 UNITED STATES SOCIAL AND INTELLECTUAL HISTORY SINCE 1877
 A study of the social and intellectual experience of the United States from reconstruction to the present day. Among the topics considered are social Darwinism, pragmatism, community life and organization, education and social reform movements. *Prerequisites: two courses from History 125, 126, 230, or consent of instructor.*

449 HISTORICAL METHODS
 This course focuses on the nature and meaning of history. It will open to the student different historical approaches and will provide the opportunity to explore these approaches in terms of particular topics and periods. Majors are required to enroll in this course in either their junior or senior year. The course is open to other students who have two courses in history or consent of instructor.

470-479 INTERNSHIP (See index)
 Typically, history interns work for local government agencies engaged in historical projects or for the Lycoming County Historical Museum.

N80-N89 INDEPENDENT STUDY
 (See index)
 Recent topics include studies of the immigration of American blacks, political dissension in the Weimer Republic, Indian relations before the American Revolution, and the history of Lycoming County.

490-491 INDEPENDENT STUDY FOR
 DEPARTMENTAL HONORS
 (See index)

INTERNATIONAL STUDIES

Associate Professor: Larson
 (Coordinator)

The major is designed to integrate an understanding of the changing social, political, and historical environment of Europe today with study of Europe in its relations to the rest of the world, particularly the United States. It stresses the international relations of the North Atlantic community and offers the student opportunity to emphasize either European studies or international relations. The program provides multiple perspectives on the cultural traits that shape popular attitudes and institutions. Study of a single country is included as a data-base for comparisons, and study of its language, as a basis for direct communication with its people.

The program is intended to prepare a student either for graduate study or for careers which have an international component. International obligations are increasingly assumed by government agencies and a wide range of business, social, religious, and educational organizations. Opportunities are found in the fields of journalism, publishing, communications, trade, banking, advertising, management, and tourism. The program also offers flexible career preparation in a variety of essential skills, such as research, data analysis, report writing, language skills, and the awareness necessary for dealing with people and institutions of another culture. Preparation for related careers can be obtained through the guided selection of courses outside the major in the areas of business, economics, foreign languages and literatures, government, history, and international relations or through a second major. Students should design their programs in consultation with members of the Committee on International Studies.

By completing six to eight additional courses in the social sciences (which include those courses needed to complete a major in economics, history, political science, or sociology/anthropology) and the required program in education, students can be certified for the teacher education program in social studies. By completing a major in the foreign language (five or more courses) and the education program, students can be certified to teach that language. The International Studies program also encourages participation in study-abroad programs.

as well as the Washington and United Nations semesters.

The major includes 11 courses selected as follows:

International Relations Courses —

Four or two courses (if two, then four must be taken from Area Courses). Courses within this group are designed to provide a basic understanding of the international system and of Europe's relations with the rest of the world. Political Science 225 is required.

Political Science 225: World Politics
Economics 443: International Trade
History 320: European Diplomatic History
Political Science 439: American Foreign Policy

Area Courses — Four or two courses (if two, then four must be taken from International Relations Courses). Courses within this group are designed to provide a basic understanding of the European political, social, and economic environment. History 111 and Economics 222 are required.

History 111: Europe 1815-Present
Economics 221: Comparative Economic Systems
Political Science 220: European Politics
History 218: Europe in the Era of the World Wars
History 219: Contemporary Europe

National Courses

Language — Two courses in one language.

French 221, plus one course numbered 222 or above (except 228)
German 221, plus one course numbered 222 or above
Spanish 221, plus one course numbered 222 or above

Country — One course. The student must select, according to his or her language preparation, one European country which will serve as a special interest area throughout the program. The country selected will serve as the base for individual projects in the major courses wherever possible.

France — French 228: Modern France
Germany — History N80: Topics in German History
Spain — Spanish 311: Hispanic Culture

Elective Course — One course which should involve further study of some aspect of the program. Appropriate courses are any area or international relations courses not yet taken, History 110, 316; Economics 226; Political Science 326, 327, 438; related foreign-literature courses counting toward the fine-arts requirement and internships.

449 SENIOR SEMINAR

A one-semester seminar, taken in the senior year, in which students and several faculty members will pursue an integrative topic in the field of international studies. Students will work to some extent independently. Guest speakers will be invited. The seminar will be open to qualified persons from outside the major and the College. *Prerequisite: consent of instructor.*

LITERATURE

Associate Professor: Maples
(Coordinator)

This major recognizes literature as a distinct discipline beyond national boundaries and combines the study of any two literatures in the areas of English, French, German, and Spanish. Students can thus explore two literatures widely and intensively at the upper levels of course offerings within each of the respective departments while developing and applying skills in foreign languages. The major prepares students for graduate study in either of the two literatures studied or in comparative literature.

The major requires at least six literature courses, equally divided between the two literatures concerned. The six must be at the advanced level as determined in consultation with advisors (normally courses numbered 200 and above in English and 400 and above in foreign languages). In general, two of the advanced courses in each literature should be period courses. The third course, taken either as a regular course or an independent study, may have as its

subject another period, a particular author, genre, or literary theme, or some other unifying approach or idea. Beyond these six, the major must include at least two additional courses from among those counting toward a major in the departments involved. Any prerequisite courses in the respective departments (for example: English 106, French 221-222 or 228, German 221-222, Spanish 221-222) should be taken during the freshman year. Students should design their programs in consultation with a faculty member from each of the literatures concerned. Programs for the major must be approved by the departments involved.

MASS COMMUNICATION

Assistant Professor: Nason
(Chairperson)

Part-time Instructors: Sawyer,
Whitehill

The interdisciplinary major in Mass Communication recognizes the need for a liberal arts foundation and requires selected courses from the Departments of Art, Business Administration, English, Political Science, Psychology, and Sociology/Anthropology. The major combines a core of Mass Communication courses with one of three professional tracks: Advertising/Public Relations, Broadcast Journalism, and Journalism. Emphasis is placed on developing an understanding of the cultural and historical roles of the mass media and on developing the communicative skills necessary for careers in the media.

Students majoring in Mass Communication must complete the Core Curriculum and one professional track. Each track requires a combination of theory, production, and writing courses.

A minor in Mass Communication consists of Mass Communication 110, 211, English 215, and three of the following courses: Mass Communication 224, 329, 330, 331, 448.

**I. THE CORE CURRICULUM
REQUIRED OF ALL STUDENTS**

English 215

Introduction to
Media Writing

Mass Comm 110 Introduction to Mass Communication
 Mass Comm 211 Fundamentals of Oral Communication
 Mass Comm 330 Theories and Issues in Mass Communication
 Mass Comm 331 Mass Media Law and Regulation
 Pol Sci 448 Public Opinion and Polling*
 *Business 445 (Marketing Research), Psychology 224 (Social Psychology) or Sociology 447 (Research Methods in Sociology) may be substituted. These courses require departmental prerequisites or consent of individual instructors.

Students must complete the requirements of one of the following professional tracks:

Track I — Advertising/Public Relations

Business 228 Marketing Management I
 Business 332 Advertising
 English 329 Business and Publicity Writing

One of the following writing courses:
 English 216 Writing for Special Audiences
 English 327 Print Journalism
 Mass Comm 329 Broadcast Journalism

Two of the following production courses:
 Art 115 Two-Dimensional Design
 Art 227 Introduction to Photography
 GCO 511 Layout and Design (WACC)
 Mass Comm 218 Radio Programming and Production
 Mass Comm 224 Television Production

Track II — Journalism

Art 227 Introduction to Photography
 English 327 Print Journalism
 GCO 511 Layout and Design (WACC)
 Pol Sci 111 State and Local Government

One of the following additional writing courses:
 Mass Comm 329 Broadcast Journalism
 Pol Sci 434 Political Newswriting

One of the following courses:
 History 126 United States History, 1877-present
 Philosophy 115 Philosophy and Public Policy
 Sociology 227 Social Problems*
 Sociology 334 Racial and Cultural Minorities*
 *Requires prerequisite or consent of instructor

Track III — Broadcast Journalism

Mass Comm 218 Radio Programming and Production
 Mass Comm 224 Television Production

Mass Comm 329 Broadcast Journalism
 Pol Sci 111 State and Local Government
 Pol Sci 434 Political Newswriting

One of the following courses:

History 126 United States History, 1877-present
 Philosophy 115 Philosophy and Public Policy
 Sociology 227 Social Problems*
 Sociology 334 Racial and Cultural Minorities*

*Requires a prerequisite or consent of instructor

110 INTRODUCTION TO MASS COMMUNICATION

Theories of the process of mass communication and introduction to the mass media; attention will be given to problems of censorship and media ethics. Analysis of the mass media's impact on society; emphasis will be placed on the social, psychological, and political implications of the media's shaping influence on man and institutions.

211 FUNDAMENTALS OF ORAL COMMUNICATION

The dynamics of oral communication. The development of elementary principles of simple oral communication through lectures, prepared assignments in speaking, and informal class exercises. Utilizes video-tape sequences for feedback to students.

218 RADIO PROGRAMMING AND PRODUCTION

Contemporary broadcast programming techniques including station scheduling, program development and analysis, and implementation in real and hypothetical situations. Emphasis on management functions.

224 TELEVISION PRODUCTION

Technical, aesthetic, organizational, and business aspects of video programs. Study and use of basic equipment to produce standard formats on videotape.

329 BROADCAST JOURNALISM

Study of, and practical experience in, the newsgathering process for electronic media. Emphasis on covering the local story from the small-station perspective. Students in the course are responsible for writing, producing, editing and broadcasting newscasts for WRLC-FM. The course also looks at the special ethical problems of electronic news coverage. *Prerequisites: English 215 and Mass Communication 218 or consent of instructor.*

330 THEORIES AND ISSUES IN MASS COMMUNICATION

An analysis of current theories dealing with mass communication systems and the

behavior and attitudes of, and effects on, their audiences. The course also examines contemporary mass media issues with an emphasis on developing critical thinking skills. *Prerequisite: Mass Comm 110.*

331 MASS MEDIA LAW AND REGULATION

An examination of the legal structure and the system by which mass communication is controlled in this society. The forces which shape, influence, and make policy will be considered. *Cross-listed as Political Science 436. Prerequisite: junior or senior standing or consent of instructor.*

448-449 PRACTICUM IN MASS COMMUNICATION

Utilization of mass communication principles, techniques, and skills in an applied setting through work experience in a communication agency or organization. This experience is coordinated with regular class meetings to analyze and evaluate relationships between theory and practice. *Prerequisite: upper division status and consent of instructor.*

470-479 INTERNSHIP (See index)

Interns usually work off campus in a field related to their communication sequence; some may work with the campus radio station.

N80-N89 INDEPENDENT STUDY (See index)

Studies involve research related to the communication sequence of the student.

490-491 INDEPENDENT STUDY FOR DEPARTMENTAL HONORS (See index)

Graphic Arts

Through special arrangements, the following course offered at the Williamsport Area Community College is available *only* to students in the Mass Communication major and in the Art Track III major in Commercial Design. The WACC course is taken as part of the student's schedule and is listed with Lycoming offerings during registration periods.

511 LAYOUT AND DESIGN

Analysis of materials, tools, and techniques used in preparation of copy for reproduction; paste-up and color separation overlays. 4 cr.

MATHEMATICAL SCIENCES

Associate Professors: Getchell, Haley
Assistant Professors: Bucki, DeSilva,
Sprechini (Chairperson),
Wallace, Weida
Part-time Instructor: Davis

The Department of Mathematical Sciences offers major programs in computer science and mathematics.

Computer Science

A major in computer science consists of 11 courses: Mathematics 116, 128, and 129, and Computer Science 125, 246, 247, 321, 344, 445, and two other computer science courses numbered 320 or above. Recommended extradepartmental courses: Physics 229, Philosophy 225, and Psychology 337. In addition to the regular courses listed below, special courses are occasionally available.

A minor in *Computer Science* consists of Computer Science 246, 247, and two other computer science courses numbered 220 or above.

125 INTRODUCTION TO COMPUTER SCIENCE

Introduction to programming and software utilities. Topics include algorithms, program structure, computer configuration, memory allocation, and an exposure to application packages. Laboratory experience is included, most recently using OMSI Pascal, the MiniCalc spreadsheet, and RUNOFF, a text formatting package. *Prerequisite: credit for or exemption from Mathematics 005.*

246 PRINCIPLES OF ADVANCED PROGRAMMING

Principles of effective programming, including structured programming, stepwise refinement, assertion proving, style, debugging, control structure, decision tables, finite state machines, recursion, and encoding. Utilities most recently used include SVS Pascal, the UNIX operating systems, C, and Shell programming. *Prerequisite: a grade of C or better in Computer Science 125 or consent of instructor.*

247 DATA STRUCTURES

Representation of data and algorithms associated with data structures. Topics include representation of lists, trees, graphs and strings, algorithms for searching and sorting.

Prerequisite: a grade of C or better in Computer Science 246 or consent of instructor. Corequisite: Mathematics 116.

representation, and run-time organization. *Prerequisite: Computer Science 247. Alternate years.*

321 INTRODUCTION TO NUMERICAL ANALYSIS

Topics from the theory of interpolation; numerical approaches to approximating roots and functions, integration, systems of differential equations, linear systems, matrix inversion, and the eigenvalue problem. *Prerequisite: Computer Science 125 and Mathematics 129; Mathematics 130 strongly recommended.*

470-479 INTERNSHIP (See index)

N80-N89 INDEPENDENT STUDY (See index)

490-491 INDEPENDENT STUDY FOR DEPARTMENTAL HONORS (See index)

Mathematics

A major in mathematics consists of 10 units of courses in the mathematical sciences: Computer Science 125, Mathematics 128, 129, 130, 234, 238, 434, 432, and two other mathematics courses numbered 220 or above, one of which may be replaced by Mathematics 112, 116, or 214. Students seeking secondary certification in mathematics are required to complete Mathematics 330 and 336 and are advised to enroll in Philosophy 117. In addition, all majors are advised to elect Philosophy 225 and 333, Physics 225 and 226.

In addition to the regular courses listed below, special courses are occasionally available.

A minor in *Mathematics* consists of Mathematics 234, 238, and two other courses numbered 220 or above.

344 MACHINE LANGUAGE

Principles of machine language programming; computer organization and representation of numbers, strings, arrays, and list structures at the machine level; interrupt programming, relocatable code, linking loaders; interfacing with operating systems. *Prerequisite: a grade of C or better in Computer Science 246 or consent of instructor.*

345 INTRODUCTION TO COMPUTER GRAPHICS

An introduction to graphics hardware and software with emphasis on the mathematics necessary to represent, transform, and display images of two and three dimensional objects. Laboratory exercises will be designed to explore the capabilities of the graphics system and to test the students' understanding of the principles discussed in class. *Prerequisite: Computer Science 246 and either Computer Science 247 or permission of the instructor; Mathematics 130 recommended. Alternate years.*

005 INDIVIDUALIZED LABORATORY INSTRUCTION IN BASIC ALGEBRA

A self-paced study of arithmetic and decimal numerals, fractions, the real number line, factoring, solutions to linear and quadratic equations, graphs of linear and quadratic functions, expressions with rational exponents, algebraic functions, exponential functions, and inequalities. THIS COURSE IS LIMITED TO STUDENTS PLACED THEREIN BY THE MATHEMATICS DEPARTMENT. *One-half unit of credit.*

349 DATABASE SYSTEMS

External storage structures, hashed files, indexed files; relational, network, and hierarchical data models; relational algebra and the relational calculus; design theory for relational databases; query optimization; concurrent operations; database protection. *Prerequisite: Computer Science 247. Alternate years.*

445 SYSTEMS PROGRAMMING

The emphasis in this course is on the algorithms used in programming the various parts of a computer system. These parts include assemblers, loaders, editors, interrupt processors, input/output schedulers, processor and job schedulers, and memory managers. *Prerequisite: Computer Science 247 and 344.*

103 INTRODUCTION TO STATISTICS

Empirical distributions of measurements, probability and random variables, discrete and continuous probability distributions, statistical inference from small samples, linear regression and correlation, analysis of enumerative data. *Prerequisite: credit for or exemption from Mathematics 005.*

446 COMPILER CONSTRUCTION

The emphasis in this course is on the construction of translators for programming languages. Topics include lexical analysis, block structure, grammars, parsing, program

105 MATHEMATICS IN ELEMENTARY EDUCATION

This course is intended for prospective elementary school teachers and is required of

all those seeking elementary certification. Topics include systems of numbers and of numeration, computational algorithms, environmental and transformation geometry measurement, and mathematical concept formation. Observation and participation in Greater Williamsport elementary schools. *Corequisite: any education course numbered 341 or above which is specifically required for elementary certification or consent of instructor.*

107 PRECALCULUS MATHEMATICS
The study of logarithmic, exponential, trigonometric, polynomial, and rational functions, their graphs, and elementary properties. *Prerequisite: credit for or exemption from Mathematics 005.*

109 INTRODUCTION TO CALCULUS
An intuitive approach to the calculus concepts with applications to business, biology, and social-science problems. Not open to students who have completed Mathematics 128. *Prerequisite: credit for or exemption from Mathematics 005. Alternate years.*

112 FINITE MATHEMATICS FOR DECISION MAKING
An introduction to some of the principal mathematical models, not involving calculus, which are used in business administration, social sciences, and operations research. The course will include both deterministic models such as graphs, networks, linear programming and voting models, and probabilistic models such as Markov chains and games. *Prerequisite: credit for or exemption from Mathematics 005.*

116 DISCRETE MATHEMATICS
An introduction to discrete structures. Topics include equivalence relations, partitions and quotient sets, mathematical induction, recursive functions, elementary logic, discrete number systems, elementary combinatorial theory, and general algebraic structures emphasizing semi-groups, groups, lattices, Boolean algebras, graphs and trees. *Prerequisite: Computer Science 125 or consent of instructor.*

128 CALCULUS WITH ANALYTIC GEOMETRY I
Differentiation of algebraic functions, graphing plane curves, applications to related rate and extremal problems, integration of algebraic functions, areas of plane regions, volumes of solids or revolution, and other applications. *Prerequisite: a grade of C or better in Mathematics 107 or consent of instructor.*

129 CALCULUS WITH ANALYTIC GEOMETRY II
Differentiation and integration of transcen-

130 **INTRODUCTION TO MATRIX ALGEBRA**
Systems of linear equations and matrix arithmetic. Points and hyperplanes in dimensional geometries. Bases and linear independence. Matrix representations of linear mappings. The fixed point problem. Special classes of matrices. *Prerequisite: Mathematics 107 or its equivalent.*

214 **MULTIVARIATE STATISTICS**
The study of statistical techniques used in experimental designs where more than one random variable is involved. Techniques include analysis of variance, analysis of covariance, multiple regression and correlation, factor analysis and canonical correlations, contingency tables, discriminative analysis, and non-parametric techniques. Further topics will be chosen from cluster analysis, time series analysis, and repeated measure analysis. Extensive use of a statistical package is made (currently BMDP). *Prerequisite: Mathematics 103 or its equivalent. Alternate years.*

231 **DIFFERENTIAL EQUATIONS**
A study of ordinary differential equations and linear systems. Solution techniques include: reduction of order, underdetermined coefficients, variation of parameters, Laplace transforms, power series, and eigenvalues and eigenvectors. A brief discussion of numerical methods may also be included. *Prerequisite: a grade of C or better in Mathematics 129; Mathematics 130 recommended.*

233 **COMPLEX VARIABLES**
Complex numbers, analytic functions, complex integration, Cauchy's theorems and their applications. *Corequisite: Mathematics 238. Alternate years.*

234 **FOUNDATIONS OF MATHEMATICS**
Topics regularly included are the nature of mathematical systems, essentials of logical reasoning, and axiomatic foundations of set theory. Other topics frequently included are approaches to the concepts of infinity and continuity, and the construction of the real number system. The course serves as a bridge from elementary calculus to advanced courses in algebra and analysis. *Prerequisite: Mathematics 129 or consent of instructor.*

238 **MULTIVARIABLE CALCULUS**
Algebra, geometry, and calculus in multi-dimensional Euclidean space; n-tuples, mat-

rices; lines, planes, curves, surfaces; vector functions of a single variable, acceleration, curvature; functions of several variables, gradient; line integrals, vector fields, multiple integrals, change of variable, areas, volumes; Green's theorem. *Prerequisites: a grade of C or better in Mathematics 129, Mathematics 130 or consent of instructor.*

321 **INTRODUCTION TO NUMERICAL ANALYSIS**
Topics from the theory of interpolation; numerical approaches to approximating roots and functions, integration, systems of differential equations, linear systems, matrix inversion, and the eigenvalue problem. *Prerequisite: Computer Science 125 and Mathematics 129; Mathematics 130 strongly recommended.*

330 **TOPICS IN GEOMETRY**
An axiomatic treatment of Euclidean geometry, and an introduction to related geometries. *Prerequisite: Mathematics 128. Alternate years.*

332-333 **MATHEMATICAL STATISTICS I-II**
A study of probability, discrete and continuous random variables, expected values and moments, sampling, point estimation, sampling distributions, interval estimation, test of hypotheses, regression and linear hypotheses, experimental design models. *Corequisite: Mathematics 238. Alternate years.*

336 **CONCEPTS OF MATHEMATICS IN SECONDARY EDUCATION**
A course designed for mathematics majors who are planning to teach at the secondary level. Emphasis will be placed on the mathematics that form the foundation of secondary mathematics. Ideas will be presented to familiarize the student with various curriculum proposals, to provide for innovation within the existing curriculum, and to expand the boundaries of the existing curriculum. *Open only to junior and senior mathematics majors enrolled in the secondary-education program. Alternate years.*

338 **OPERATIONS RESEARCH**
Queuing theory, including simulation techniques; optimization theory, including linear programming, integer programming, and dynamic programming; game theory, including two-person zero-sum games, cooperative games, and multiperson games. *Prerequisite: Mathematics 112 or Mathematics 130. Alternate years.*

432 **REAL ANALYSIS**
An introduction to the rigorous analysis of the concepts of real variable calculus in the setting of normed spaces. Topics from: topology of the Euclidean plane, complete-

ness, compactness, the Heine-Borel theorem; functions on Euclidean space, continuity, uniform continuity, differentiability; series and convergence; Riemann integral. *Prerequisite: Mathematics 234 and 238.*

434 MODERN ALGEBRA
An integrated approach to groups, rings, fields, and vector spaces and functions which preserve their structure. *Prerequisite: Mathematics 130 and 234.*

438 SEMINAR
Topics in modern mathematics of current interest to the instructor. A different topic is selected each semester. This semester is designed to provide junior and senior mathematics majors and other qualified students with more than the usual opportunity for concentrated and cooperative inquiry. *Prerequisite: consent of instructor. One-half unit of credit. This course may be repeated for credit.*

470-479 INTERNSHIP (See index)

N80-N89 INDEPENDENT STUDY (See index)

490-491 INDEPENDENT STUDY FOR DEPARTMENTAL HONORS (See index)

MUSIC

Associate Professors: Boerckel (Chairperson), Thayer
Assistant Professor: Jeffers
Part-time Instructors: Bailey, Feist, Hutchings, Lakey, Muzzo, Nacinovich, and Zdzinski

The music major is required to take a balanced program of music theory, history, applied and ensemble. A minimum of eight courses (exclusive of all ensemble, applied music and instrumental and vocal methods courses) is required and must include Music 110, 111, 220, 221, 335 and 336. Each major must participate in an ensemble (Music 167, 168 and/or 169) and take one hour of applied music per week for a minimum of four semesters including the entire period in which the individual is registered as a music major (see Music 160-169). The major must include at least one-half hour of piano in the applied program unless a piano proficiency test is requested and passed. Anyone declaring music as a second major must do so by the beginning of the junior year.

Music majors seeking certification in music education (K-12) must also take Psychology 110 and 338; Education 200 and the Professional Semester; Music 261-7, 331, 332, 446 and pass the piano proficiency examination. Students who wish to obtain certification in music education should consult with the department as soon as possible, preferably before scheduling classes for the freshman year.

The Music Department recommends that non-majors select courses from the following list to meet distribution requirements: Music 116, 117; Music 118, 119; Music 113 or Music 224 in combination with 116, 117, 118 or 119.

Student recitals offer opportunities to gain experience in public performance. Music majors and other students qualified in performance may present formal recitals.

110-111 MUSIC THEORY I AND II
A two-semester course open to all students. An examination of the fundamental components and theoretical concepts of music. The student will develop musicianship through application of applied skills. (*Music 110 is prerequisite to Music 111.*)

113 MUSIC OF TODAY
Non-technical survey of styles, techniques and contents of music produced since 1950, with emphasis on developments in electronic music. Leading figures of major contemporary movements in music, literature and the visual arts and their works will be presented and discussed in relation to musical culture. The course will include some practical exposure to the electronic music studio and recording techniques.

116 INTRODUCTION TO MUSIC
A basic course in the materials and techniques of music. Examples drawn from various periods and styles are designed to enhance perception and appreciation through careful and informed listening.

117 SURVEY OF WESTERN MUSIC
A chronological survey of music in Western civilization from Middle Ages to the present. Composers and musical styles are considered in the context of the broader culture of each major era.

118 AMERICAN MUSIC I
For the major or non-major interested in studying all types of American music, from pre-Revolutionary days through World War I. Areas explored will include Indian, African, and European roots influencing the serious music for small and large ensembles, the development of show music from minstrels to Broadway musicals, the evolution of "Tin Pan Alley," and the beginnings of jazz. *Alternate years.*

119 AMERICAN MUSIC II
For the major or non-major interested in studying all types of American music. American Music II will cover post-world War I days to the present. Areas explored will include indigenous serious music for small and large ensembles, the mature Broadway musical, the evolution of jazz, the development of rock, and the fusion of musical styles in the 1970's. *Alternate years.*

220-221 MUSIC THEORY III AND IV
A continuation of the integrated theory course moving toward newer uses of music materials. *Prerequisite: Music 111. Alternate years.*

224 ELECTRONIC MUSIC I
Technical introduction to synthesizer studio techniques. Topics will include musical acoustics, basic recording, sound generation and modification devices and the analysis of relevant examples in popular and avant-garde styles. Students will produce synthesized tape projects during assigned studio hours. *Alternate years.*

225 ELECTRONIC MUSIC II
Further consideration of recording techniques. Use of microphones, multi-track recording, mixing, special effects devices and synchronization will be introduced. Students will take part in live recording of concerts and rehearsals of a variety of ensembles. Student projects will include complete recording sessions and the production of electronic music compositions utilizing classical studio techniques and real-time networks. *Prerequisite: Music 224 or consent of instructor. Alternate years.*

330 COMPOSITION I
Creative writing in smaller vocal and instrumental forms. Students identify and use the techniques employed by major composers of the 20th century. *Prerequisite: Music 111 or consent of instructor.*

331 CONDUCTING
A study of the fundamentals of conducting with frequent opportunity for practical experience. The College music organizations serve to make performance experience possi-

ble. *Prerequisite: Music 110-111 or consent of instructor. Alternate years.*

332 **TEACHING MUSIC IN THE SCHOOLS**
Methods and materials of teaching music in the schools with emphasis on curriculum development and procedures for choral and instrumental ensembles at the elementary and secondary levels. Course work will include observation of music classes in elementary and secondary schools in the greater Williamsport area. Alternate years.

335 **HISTORY OF WESTERN MUSIC I**
The development of musical styles and forms from Gregorian chant through Mozart, including composers from the medieval, Renaissance, baroque and early classical eras. *Prerequisite: Music 110, 116, or 117 or consent of instructor.*

336 **HISTORY OF WESTERN MUSIC II**
The development of musical styles and forms from Beethoven to the present, including composers from the late classical, romantic and modern eras. *Prerequisite: Music 335 or consent of instructor.*

339 **ORCHESTRATION**
A study of modern orchestral instruments and examination of their use by the great masters with practical problems in instrumentation. The College music organizations serve to make performance experience possible. *Prerequisite: Music 110-111 or consent of instructor. Alternate years.*

440 **COMPOSITION II**
Creative writing in larger vocal and instrumental forms. Students write more extended works in order to develop an individual style of composition. *Prerequisite: Music 330 or consent of instructor.*

442 **PROJECTS IN ELECTRONIC MUSIC**
Digital techniques of Electronic Music production. Notation systems for electronic music. Aesthetics of electronic music. Students will use the full resources of the studio to complete original compositions and will study, prepare and present works by major composers of electronic music. *Prerequisite: Music 225 or consent of instructor.*

445 **SPECIAL TOPICS IN MUSIC**
The intensive study of a selected area of music literature, designed to develop research techniques in music. The topic is announced at the Spring pre-registration. Sample topics include: Beethoven, Impressionism, Vienna 1900-1914. *Prerequisite: Music 116, 117 or 221 or consent of instructor.*

446 **RECITAL**
The preparation and presentation of a full-length public recital, normally during the student's senior year. *Prerequisite: approval by the department.*

470-479 **INTERNSHIP** (See index)

N80-N89 **INDEPENDENT STUDY**
(See index)

490-491 **INDEPENDENT STUDY FOR DEPARTMENTAL HONORS**
(See index)

Applied Music and Ensemble
The study of performance in piano, harpsichord, voice, organ, strings, guitar, brass, woodwinds, and percussion is designed to develop sound technique and a knowledge of the appropriate literature for the instrument. Student recitals offer opportunities to gain experience in public performance.

Credit for applied music courses (private lessons) and ensemble (choir, orchestra and band) is earned on a fractional basis. One half-hour lesson per week earns $\frac{1}{2}$ hour credit; one hour lesson per week earns one hour credit. Ensemble credit totals one hour credit if a student enrolls for one or two ensembles (for more information, see course descriptions below). When scheduling please note that an applied course or ensemble should not be substituted for an academic course, but should be taken in addition to the normal four academic courses.

Extra fees apply for private lessons (Music 60-66) as follows: \$135 per semester for a half-hour lesson per week. \$270 per semester for an hour lesson per week. Private lessons are given for 13 weeks.

160 Piano or Harpsichord, 161 Voice, 162 Strings or Guitar, 163 Organ, 164 Brass, 165 Woodwinds, 166 Percussion.

167 **ORCHESTRAL ENSEMBLE**
The Williamsport Symphony Orchestra allows students with significant instrumental experience to become members of this regional ensemble. Participation in the W.S.O. is contingent upon audition and the availability of openings. Students are allowed a maximum of one hour of Ensemble credit per semester. A student who is enrolled in orchestra only should register for Music 167B (one hour credit). A student may belong to two ensembles, choosing either Choir or Wind Ensemble as the second group. Such a student will then register for Music 167A ($\frac{1}{2}$ hour credit) plus either Music 168A ($\frac{1}{2}$ hour credit) or Music 169A ($\frac{1}{2}$ hour credit).

168 **CHORAL ENSEMBLE (CHOIR)**
Participation in the College choir is designed to enable any student possessing at least average talent an opportunity to study choral technique. Emphasis is placed upon acquaintance with choral literature, tone production, diction, and phrasing. Students are allowed a maximum of one hour of Ensemble credit per semester. A student who is enrolled in Choir only should register for Music 168B (one hour credit). A student may belong to two ensembles, choosing either Orchestra or Wind Ensemble as the second group. Such a student will then register for Music 168A ($\frac{1}{2}$ hour credit) plus either Music 167A ($\frac{1}{2}$ hour credit) or Music 169A ($\frac{1}{2}$ hour credit). If a student has auditioned and been selected for the twenty voice Chamber Choir (no credit available), he/she should register for Music 168C.

169 **WIND ENSEMBLE (BAND)**
The College Wind Ensemble allows students with some instrumental experience to become acquainted with good band literature and develop personal musicianship through participation in group instrumental activity. Students are allowed a maximum of one hour of Ensemble credit per semester. A student who is enrolled in Band only should register for Music 169B (one hour credit). A student may belong to two ensembles, choosing either Orchestra or Choir as the second group. Such a student will then register for Music 169A ($\frac{1}{2}$ hour credit) plus either Music 167A ($\frac{1}{2}$ hour credit) or Music 168A ($\frac{1}{2}$ hour credit).

INSTRUMENTAL AND VOCAL METHODS
Instrumental and vocal methods classes are designed to provide students seeking certification in music education with a basic understanding of all standard band and orchestral instruments as well as a familiarity with fundamental techniques of singing.

Music 261: Brass Methods
(one hour credit)

Music 262: Percussion Methods
(one hour credit)

Music 263, 264: String Methods I and II
(one hour credit each)

Music 265: Vocal Methods
(one hour credit)

Music 266, 267: Woodwind Methods I and II (one hour credit each)

NEAR EAST CULTURE AND ARCHAEOLOGY

Professor: Guerra (Coordinator)

The Near East culture and archaeology interdisciplinary major is designed to acquaint students with the "cradle of Western civilization," both in its ancient and modern aspects. Majors will complete a minimum of eight to ten courses related to the Near East.

Required courses are described in their departmental sections and include:

1. Four courses in language and culture from:
History and Culture of the Ancient Near East (Religion 228)
History of Art (Art 222)
Ancient History (History 210)
Old Testament Faith and History (Religion 113)
Judaism and Islam (Religion 224)
Two semesters of foreign language (Hebrew 101-102, or Greek 101-102)
2. Two courses in archaeology from:
Biblical Archaeology (Religion 226)
Special Archaeology courses, such as independent studies or in May or summer terms in the Near East.
3. Two courses in the cooperating departments (art, history, political science, religion and sociology-anthropology) or related departments. These two courses, usually taken in the junior or senior years, can be independent study. Topics should be related either to the ancient or the modern Near East and must be approved in advance by the committee supervising the interdisciplinary program. The study of modern Arabic or Hebrew is encouraged.

Other courses may be suggested by the supervisory committee within the limits of a 10-course major. The number of courses taken within this program applicable toward fulfilling the College distribution requirements will vary according to the selection of courses.

NURSING

Assistant Professors: Gingrow, Pagana, Parrish (Acting Chairperson)

Instructors: Atkinson, Auker,

Dunkelberger, Ficca, Gray-Vickrey

Part-time Instructors: Bird, McKeegan

Students wishing to major in nursing will be admitted to the College under the usual admission procedures. Freshmen should follow the nursing curriculum plan for the freshman year in the sequence designated. To be considered for continuation in nursing, a minimum G.P.A. of 2.5 is required at completion of the freshman year. A supplementary application should be submitted to the Department of Nursing by January 30 of the freshman year.

Registered Nurses

The Department of Nursing offers an alternative curriculum for registered nurses within the existing BSN program. The goals of this alternative curriculum are to provide registered nurses with the opportunity to earn an educationally sound BSN degree while completing the degree requirements in as short a time period as possible, and to meet the unique needs of registered nurses. Nursing 300 and 310 are open only to registered nurses and are required as part of the alternative curriculum. Registered nurses may challenge for credit the following nursing courses: Nursing 220, the skills component of Nursing 221, the obstetrical component of Nursing 330, 331, 332, 334, and 440. For successful challenge of any clinical nursing course by registered nurses, a grade of C- or better is required; that is, 70% or 1.67 is required in both the theoretical and clinical components of the course.

Additional information for registered nurses seeking the BSN is available from the Department of Nursing. Individual advisement is offered to all registered nurses.

Clinical Learning Resources

In addition to the College's new well-equipped Nursing Skills Lab, opportu-

nity for self-learning is provided in the adjacent Learning Center which is equipped with electronic study carrels and audio-visual materials.

A wide variety of health-care agencies in the surrounding area are utilized for clinical experiences. Cooperating hospitals and agencies include: Divine Providence Hospital, Williamsport Hospital, Evangelical Hospital, Geisinger Medical Center, Leader Nursing Home and Rehabilitation Center, Danville State Hospital, Pennsylvania Department of Health, Regional Home Health Services, and The Williamsport Home.

Expenses of the Nursing Program

Students are responsible for their own transportation to assigned clinical areas. The student of nursing assumes all financial obligations listed in the section on fees in this bulletin including a \$40 lab fee for each of the clinical nursing courses (Nursing 221, 310, 330, 331, 332, 333, 440 and 441). Additional expenses include uniforms, name pin, watch with second hand, bandage scissors, stethoscope, blood pressure cuff, liability insurance, annual health examinations, and standardized achievement tests.

Major in Nursing

The major in nursing consists of: Nursing 220, 221, 330, 331, 332, 333, 334, 335, 336, 440, 441, 442, and 443 or N80-N89. In addition, the following are prerequisites for specific nursing courses: Chemistry 10, 115; Biology 113-114, 226; Psychology 110, 117; Mathematics 103, and Computer Science 125. The religion/philosophy distribution requirement is met by the required courses: Philosophy 219 and Religion 120. The history/social science distribution requirement is met by the required courses: Psychology 110 and 117. In addition, the student is required to take one course from among Sociology/Anthropology 110, 114, 220, 228, or 229. The fine arts/foreign language distribution requirement can be met by two courses in one department from among art, literature, music, or theatre; or by two courses in foreign language on the

intermediate or higher course level.

Policies Specific to Nursing

In addition to the Lycoming College continuance policies, the following policies are specific to all declared majors in the Department of Nursing:

1. A grade of C – or better is required in all clinical nursing courses to continue in the nursing program. These courses are Nursing 221, 310, 330, 331, 332, 333, 440 and 441. Students who earn a grade of less than 70 percent or 1.67 in either the theoretical or clinical component of a nursing course will be required to repeat both components of the course before being permitted to continue in the nursing sequence.
2. Policies regarding absence from classes or from the clinical portion of nursing courses are determined by the instructor(s) responsible for the course. No absence from the clinical portion of the course will be excused other than for illness or family emergency with one exception. In individual cases, students may make arrangements with instructors to be excused for extracurricular activities. Excessive absences for any reason will necessitate repeating the entire course.

Typical Plan of Study for B.S.N.

FRESHMAN YEAR

<i>Fall</i>	
Chem. 108*(Inorganic Chemistry)	1
Eng. 106 (Composition)	1
Psych. 110*(Intro to Psych.) ...	1
Fine Arts/Lang.	1
Physical Education	0
	4

<i>Spring</i>	
Chem. 115*(Brief Organic Chemistry)	1
Eng. Elective	1
Psych. 117*(Developmental Psych.)	1
Fine Arts/Lang.	1
Physical Education	0
	4

SOPHOMORE YEAR

<i>Fall</i>	
Bio. 113 (Anatomy and Physiology)	1
Cptr. 125 (Intro. to Computer Science)	1
Nur. 220 (Concepts of Nutrition in Family Health)75
Rel. 120 (Death and Dying)	1
	3.75

Spring

Bio. 114 (Anatomy and Physiology)	1
Math 103 (Intro. to Statistics)	1
Bio. 226 (Microbiology for Health Sciences) ...	1
Nur. 221 (Foundations of Professional Practice)	1.25
	4.25

JUNIOR YEAR

<i>Fall</i>	
Nur. 330 (Nursing Care of the Developing Family I)	1.5
Nur. 332 (Nursing Care of the Adult I)	1.5
Nur. 334 (Basic Concepts of Pharmacology and Therapeutics)	1
	4

Spring

Nur. 331 (Nursing Care of the Developing Family II)	1.5
Nur. 333 (Nursing Care of the Adult II)	1.5
Nur. 335 (Research in Nursing)	1
	4

May Term

Nur. 336 (The Nurse in the Social System)	1
---	---

SENIOR YEAR

<i>Fall</i>	
Nur. 440 (Nursing Care of the Emotionally Troubled Individual & Family)	1.5
Elective	1
Guided Elective**	1
Nur. 443 (Topics in Nursing)5
	4

<i>Spring</i>	
Nur. 441 (Comprehensive Nursing Care)	1.5
Nur. 442 (Professional Issues)5
Phil. 219 (Ethical Issues in Biology and Medicine)	1
	3

*Prerequisite to Sophomore year.

**Student must select one course from Sociology/Anthropology which may be taken at any point in the program. Recommended courses at this time are Soc. 110, Soc. 220, Soc. 228, Soc. 114 and Soc. 229.

Requirement for Graduation: 32 Units (128 Credits).

The student may take additional units for electives, independent study and/or honors.

220 CONCEPTS OF NUTRITION IN FAMILY HEALTH

Essentials of normal nutrition and their relationship to the health of individuals and families. These concepts serve as a basis for the development of an understanding of therapeutic application of dietary principles and the health professional's role and responsibility in this facet of client care. *Three hours of lecture. 1/4 unit. Prerequisites: Chemistry 108, 115, or consent of instructor. Open to non-nursing majors.*

221 FOUNDATIONS OF PROFESSIONAL NURSING PRACTICE

Introduction of major theoretical elements underlying professional nursing practice. Focus on the concept of health and common

<p>health problems recognizing the multi-directional influence of the individual, family, and environment. In this first clinical course the student will utilize the nursing process in assisting clients to attain a maximum level of functioning. <i>Three hours of lecture and five hours clinical laboratory. 1½ units. Prerequisites: Chemistry 108, 115, Nursing 220, and Biology 113. Open to nursing majors only.</i></p>	<p>334 BASIC CONCEPTS OF PHARMACOLOGY AND THERAPEUTICS Fundamentals of pharmacology and therapeutics are presented for the various classes of drugs. Relationships of pharmacological mechanisms to the affected biochemical and physiological processes. Interactions and toxicological aspects of drug therapy are reviewed. <i>Four hours of lecture. 1 unit. Corequisite: Nursing 330, 332, or consent of instructor. Open to non-nursing majors.</i></p>	<p>443 TOPICS IN NURSING Selected topic courses in nursing designed to permit students to pursue subjects which, because of their specialized nature, may not be offered on a regular basis. <i>½ unit. Prerequisite: Senior standing or consent of instructor.</i></p>
<p>300 THEORETICAL FOUNDATIONS OF PROFESSIONAL NURSING <i>Theoretical concepts underlying professional practice. Additional focus on health and common health problems, recognition of multi-directional influence of the individual, family, and environment. Two hour seminar. ½ unit. Prerequisites: Successful completion of Nursing 221 challenge examination. Chem 108, 115; Psych 110, 117; Bio 113. OPEN TO RNs ONLY.</i></p>	<p>335 RESEARCH IN NURSING Expansion of theoretical basis of research methodology with emphasis on analyzing, criticizing, and interpreting nursing research. Development of a research proposal focusing on a nursing problem. <i>Four hours of lecture. 1 unit. Prerequisite: Mathematics 103, Computer Science 125, and Nursing 330 and 332 or consent of instructor. Open to non-nursing majors.</i></p>	<p>N80-N89 INDEPENDENT STUDY IN NURSING An opportunity to develop and implement an individual plan of study under faculty guidance. <i>½ unit. Prerequisite: Senior standing or consent of chairperson.</i></p>
<p>310 PROCESSES ESSENTIAL TO NURSING PRACTICE <i>Clinical focus on the incorporation of nursing, group, interpersonal, and change processes; therapeutic communication, family, health promotion and community concepts, physical assessment, collaboration, and teaching/learning principles in the community setting. ½ unit. Prerequisites: Successful completion of Nursing 330 and Nursing 332 challenge exams, Bio 114, and Bio 226. OPEN TO RNs ONLY.</i></p>	<p>336 THE NURSE IN THE SOCIAL SYSTEM Seminar discussions and clinical laboratory using the hospital as a prototype. Theories of social systems. Examination of induction into the hospital system. Evaluation of standards of care. Focus on utilization of change theory. <i>Twelve hours of lecture and 96 hours of clinical laboratory. 1 unit. Prerequisites: Nursing 331, 333, 334. Required for the nursing major and offered only in May term.</i></p>	<p>PHILOSOPHY</p> <p>Associate Professor: Griffith, Whelan Assistant Professor: Herring (Chairperson)</p> <p>The study of philosophy develops a critical understanding of the basic concepts and presuppositions around which we organize our thought in science, religion, education, morality, the arts, and other human enterprises. A major in philosophy, together with appropriate other courses, can provide an excellent preparation for policy-making positions of many kinds, for graduate study in several fields, and for careers in education, law, and the ministry. The major in philosophy consists of eight courses numbered 110 or above, including 438, 439, 449 and at least three other courses numbered 225 or above.</p>
<p>330-331 NURSING CARE OF THE DEVELOPING FAMILY Examination of health and nursing needs of beginning and developing families. Initial emphasis on nursing needs of mothers and infants within the family unit as well as the common health problems of children through adolescence. Subsequent emphasis on nursing needs of children and mothers with health problems of acute and long term nature, the influence of illness on their development and the effect of illness on the family configuration. <i>Three hours of lecture and 7½ hours clinical laboratory. 1½ units. Prerequisite for Nursing 330: Nursing 221, Biology 114, 226. Prerequisite for Nursing 331: Nursing 330 and 334.</i></p>	<p>440 NURSING CARE OF THE EMOTIONALLY TROUBLED INDIVIDUAL AND FAMILY Examination of disturbed human relationships with focus on intrapsychic, interpersonal, and physiologic etiology. Emphasis on advanced therapeutic nurse-patient relationships within context of family, community, and health care systems. <i>Three hours of lecture and 7½ hours clinical laboratory. 1½ units. Prerequisites: Nursing 331, 333, 336.</i></p>	<p>A minor in <i>Philosophy</i> consists of any four philosophy courses numbered 220 or above or any five philosophy courses number 110 or above, three of which must be numbered 300 or above. Three more specialized minors are also available: a minor in <i>Philosophy and Law</i> consists of four courses from Philosophy 221, 222, 225, 334, 335, 449 or Independent Studies or five courses including any three courses from the preceding list and any two courses from Philosophy 115, 216, 218, 219; a minor in <i>Philosophy and Science</i> consists of four courses from Philosophy 221, 222, 225, 333, 449 or Independent Studies; a minor in the <i>History of Philosophy</i> consists of four courses from Philosophy 221, 222, 438, 439,</p>
<p>332-333 NURSING CARE OF THE ADULT Identification of adult health care needs and implementation of nursing activities based on an understanding of growth and development, pathophysiology, communication skills, interpersonal dynamics, and psychosocial interventions. <i>Three hours of lecture and 7½ hours clinical laboratory. 1½ units. Prerequisite for Nursing 332: Nursing 221, Biology 114 and 226. Corequisite: Nursing 334. Prerequisite for Nursing 333: Nursing 332 and 334.</i></p>	<p>441 COMPREHENSIVE NURSING CARE Culminating nursing course with focus on leadership and management skills in a choice of clinical settings. Seminars provide opportunities for students to share commonalities and unique aspects of professional practice. <i>Three hours of lecture and 7½ hours of clinical laboratory. 1½ units. Prerequisites: Nursing 336, 440.</i></p>	
<p>332-333 NURSING CARE OF THE ADULT Identification of adult health care needs and implementation of nursing activities based on an understanding of growth and development, pathophysiology, communication skills, interpersonal dynamics, and psychosocial interventions. <i>Three hours of lecture and 7½ hours clinical laboratory. 1½ units. Prerequisite for Nursing 332: Nursing 221, Biology 114 and 226. Corequisite: Nursing 334. Prerequisite for Nursing 333: Nursing 332 and 334.</i></p>	<p>442 PROFESSIONAL ISSUES An analysis of nursing issues in the context of the historical background of the profession, the social forces which influence nursing, and nursing's impact upon society. <i>Two-hour seminar. ½ unit. Prerequisite: Senior standing or consent of instructor.</i></p>	

449 or Independent Studies. Since topics in Philosophy 449 and independent studies projects vary, these courses may be used to count toward a specialized minor only if they are approved in advance by the department.

105 PRACTICAL REASONING

A general introduction to topics in logic and their application to practical reasoning, with primary emphasis on detecting fallacies, evaluating inductive reasoning, and understanding the rudiments of scientific method.

110 INTRODUCTION TO PHILOSOPHICAL PROBLEMS

An introductory course designed to show the nature of philosophy by examination of several examples of problems which have received extended attention in philosophical literature. These topics often include the relation of the mind to the body, the possibility of human freedom, arguments about the existence of God, the conditions of knowledge, and the relation of language to thought. Some attention is also given to the principles of acceptable reasoning.

114 PHILOSOPHY AND PERSONAL CHOICE

An introductory philosophical examination of a number of contemporary moral issues which call for personal decision. Topics often investigated include: the "good" life, obligation to others, sexual ethics, abortion, suicide and death, violence and pacifism, obedience to the law, the relevance of personal beliefs to morality. Discussion centers on some of the suggestions philosophers have made about how to make such decisions.

115 PHILOSOPHY AND PUBLIC POLICY

An introductory philosophical examination of the moral and conceptual dimension of various contemporary public issues, such as the relation of ethics to politics and the law, the enforcement of morals, the problems of fair distribution of goods and opportunities, the legitimacy of restricting the use of natural resources, and the application of ethics to business practice. Discussion centers on some of the suggestions philosophers have made about how to deal with these issues.

216 ETHICAL ISSUES IN BUSINESS

An introductory philosophical examination of a variety of moral problems that arise concerning the American business system. Included are a systematic consideration of typical moral problems faced by individuals and an examination of common moral criticisms of the business system itself.

217 PHILOSOPHICAL ISSUES IN EDUCATION

An examination of the basic concepts involved in thought about education, and a consideration of the various methods for justifying educational proposals. Typical of the issues discussed are: Are education and indoctrination different? What is a liberal education? Are education and schooling compatible? What do we need to learn? *Alternate years.*

218 PHILOSOPHICAL ISSUES IN CRIMINAL JUSTICE

An introductory examination of various philosophical issues and concepts which are of special importance in legal contexts. Discussion includes both general topics, such as the justification of punishment, and more specific topics, such as the insanity defense and the rights of the accused. Readings are arranged topically and include both classical and contemporary sources.

219 ETHICAL ISSUES IN BIOLOGY AND MEDICINE

A philosophical investigation of some of the ethical issues which arise as a result of contemporary medical and biological technology. Typical of these issues are euthanasia, behavior control, patient rights, experimentation on humans, fetal research, abortion, genetic engineering, population control, and distribution of health resources.

221-222 INTRODUCTION TO THE HISTORY OF PHILOSOPHY

An introductory survey of the history of philosophy from the ancient Greeks through the early modern period. Particular attention will be paid to the common origins of philosophy and science and their subsequent relationship and to the role which philosophy has played in the evolution of social and political thought. *Philosophy 221 is not a prerequisite for Philosophy 222.*

225 SYMBOLIC LOGIC

A study of modern symbolic logic and its application to the analysis of arguments. Included are truth-functional relations, the logic of propositional functions, and deductive systems. Attention is also given to various topics in the philosophy of logic.

331 PHILOSOPHY AND HUMAN NATURE

An examination of a variety of classical and contemporary philosophical questions about human nature. Among the questions typically considered are these: Is there such a thing as human nature? Are human beings different, in any fundamental way, from other animals? Are human beings free? Is human consciousness just a brain process? Are human beings inherently predisposed to evil? Are human beings biologically determined to

be selfish or aggressive? Are the differences in achievement between men and women biologically based? *Prerequisite: Students without previous study in philosophy must have instructor's permission.*

332 PHILOSOPHY OF RELIGION

A philosophical examination of religion. Included are such topics as the nature of religious discourse, arguments for and against the existence of God, and the relation between religion and science. Readings from classical and contemporary sources. *Prerequisite: students without previous study in philosophy must have instructor's permission. Alternate years.*

333 PHILOSOPHY OF NATURAL SCIENCE

A consideration of philosophically important conceptual problems arising from reflection about natural science, including such topics as the nature of scientific laws and theories, the character of explanation, the import of prediction, the existence of "non-observable" theoretical entities such as electrons and genes, the problem of justifying induction, and various puzzles associated with probability. *Prerequisite: students without previous study in philosophy must have instructor's permission. Alternate years.*

334 SOCIAL AND POLITICAL PHILOSOPHY

A systematic philosophical investigation of the relation between human nature and the proper social and political order. Topics studied include the purpose of government, the nature of legitimate authority, the foundation of human rights, and the limits of human freedom. Emphasis is placed on the logic of social and political thought and on the analysis of basic principles and concepts. *Prerequisite: students without previous philosophy must have instructor's permission.*

335 ETHICAL THEORY

An inquiry concerning the grounds which distinguish morally right from morally wrong actions. Central to the course is critical consideration of the proposals and the rationale of relativists, egoists, utilitarians, and other ethical theorists. Various topics in metaethics are also included. *Prerequisite: students without previous study in philosophy must have instructor's permission.*

438 ANCIENT GREEK PHILOSOPHY

A critical examination of the ancient Greek philosophers, with particular emphasis on Plato and Aristotle. *Prerequisite: two courses in philosophy or consent of instructor. Alternate years.*

439 EARLY MODERN PHILOSOPHY

A critical examination of the Continental Rationalists (Descartes, Spinoza, Leibniz), the British Empiricists (Locke, Berkeley, Hume) and Kant. *Prerequisite: two courses in philosophy or consent of instructor. Alternate years.*

449 DEPARTMENTAL SEMINAR

An investigation carried on by discussions and papers, into one philosophical problem, text, philosopher, or movement. A different topic is selected each semester. Recent topics include artificial intelligence, the ethics of research of human subjects, life after death, personal identity, and human rights. This seminar is designed to provide junior and senior philosophy majors and other qualified students with more than the usual opportunity for concentrated and cooperative inquiry. *Prerequisite: consent of instructor. This seminar may be repeated for credit.*

470-479 INTERNSHIP (See index)**N80-N89 INDEPENDENT STUDY (See index)**

Recent independent studies in philosophy include Nietzsche, moral education, Rawls' theory of justice, existentialism, euthanasia, Plato's ethics, and philosophical aesthetics.

490-491 INDEPENDENT STUDY FOR DEPARTMENTAL HONORS (See index)

PHYSICAL EDUCATION

Associate Professor: Burch

Assistant Professor: Whitehill
(Chairperson)

Instructor: Holmes

101 PHYSICAL EDUCATION

Coeducational physical education classes. Basic instructions in fundamentals, knowledge, and appreciation of sports that include swimming, tennis, bowling, volleyball, archery, field hockey, soccer, golf, badminton, modern dance, skiing, elementary games (for elementary teachers), toneastics, physical fitness, and other activities. Backpacking, cross-country and alpine skiing, jogging, and cycling are offered on a contract basis. Beginning swimming is required for all non-swimmers. Students may select any activity offered. A reasonable degree of proficiency is required in the activities. Emphasis is on the potential use of activities as recreational and leisure-time interests. Two semesters of physical education (two hours per week) are required. All physical education classes are open to men and women.

Athletic Training

Lycoming College established an apprenticeship program in athletic training in 1979 after recognizing two conditions: the importance of the care and prevention of athletic injuries by trained professionals, and the career's promising growth potential.

To complete this non-credit program students participate in practical as well as classroom work under the supervision of Lycoming's certified athletic trainer. Students become eligible to participate in the National Athletic Trainers Association (N.A.T.A.) Certification examination to earn the status of an N.A.T.A. certified trainer.

POLITICAL SCIENCE

Professor: Giglio

Associate Professor: Roskin
(Chairperson)

Part-time Instructor: Wolf

The major is designed to provide a systematic understanding of government and politics at the international, national, state, and local levels. Majors are encouraged to develop their faculties to make independent, objective analyses which can be applied to the broad spectrum of the social sciences.

Although the political science major is not designed as a vocational major, students with such training may go directly into government service, journalism, teaching, or private administrative agencies. A political science major can provide the base for the study of law, or for graduate studies leading to administrative work in federal, state, or local governments, international organizations, or college teaching. Students seeking certification to teach secondary school social studies may major in political science but should consult their advisors and the education department.

A major consists of eight political science courses, including Political Science 116B. Prospective majors are encouraged to register for this course during their freshman year. An exemption will be granted only if it strengthens the student's program. In addition to 116B,

students must take at least one course in each of five areas (A to E). Students are encouraged, also, to select a minor in another department in accordance with their academic and career interests and in consultation with their departmental advisor.

For non-majors, the department offers three minors: a minor in *Political Science* consists of any four courses numbered 200 or above from areas A to E; a minor in *Foreign Affairs* consists of four courses selected from Political Science 220, 225, 326, 327, 438 and 439; and a minor in *Legal Studies* consists of Political Science 331, 335, 436 and one other course numbered 200 or above. Students are encouraged to consult with department members on the selection of a minor.

116 INTRODUCTION TO POLITICS AND PUBLIC POLICY

An examination of public policy within the context of American politics. Includes identification and analysis of contemporary policy issues, alternative solutions, factors in formulation, and evaluation of impact. May be taken for either one-half unit (section 116A) or full unit (section 116B); declared majors and prospective majors should take the full-unit course, 116B.

A. American Politics**110 GOVERNMENT AND POLITICS IN THE UNITED STATES**

An introduction to American national government which emphasizes both structural-functional analysis and policy-making processes. In addition to the legislative, executive, and judicial branches of government, attention will be given to political parties and interest groups, elections and voting behavior, and constitutional rights. Recommended to all social science-education majors and to those students who have had inadequate or insufficient preparation in American government.

111 STATE AND LOCAL GOVERNMENT

An examination of the general principles, major problems, and political processes of the states and their subdivisions, together with their role in a federal type of government.

223 AMERICAN PRESIDENCY

A study of the office and powers of the president with analysis of his major roles as

chief administrator, legislator, political leader, foreign policy maker, and commander-in-chief. Special attention is given to those presidents who led the nation boldly. *Subject to student demand, but offered at least once during a four-year cycle.*

B. Legal Studies

331 CIVIL RIGHTS AND LIBERTIES

What are our rights and liberties as Americans? What should they be? A frank discussion of the nature and scope of the constitutional guarantees. First Amendment rights, the rights of criminal suspects and defendants, racial and sexual equality, and equal protection of the laws. Students will read and brief the more important Supreme Court decisions. *Prerequisite: junior or senior standing or consent of instructor.*

335 LAW AND SOCIETY

An examination of the nature, sources, functions, and limits of law as an instrument of political and social control. Included for discussion are legal problems pertaining to the family, crime, deviant behavior, poverty, and minority groups. *Prerequisite: junior or senior standing or consent of instructor.*

436 MASS MEDIA LAW AND REGULATION

An examination of the legal structure and the system by which mass communication is controlled in this society. The forces which shape, influence, and make policy will be considered. *Cross-listed as Mass Communication 331. Prerequisite: junior or senior standing or consent of instructor.*

C. Applied Politics

333 BUREAUCRACY AND PUBLIC ADMINISTRATION

What is bureaucracy? Why and how do bureaucracies arise? What has been the political impact of growth of bureaucracy in government? These questions, among others, will be considered in this examination of public bureaucracies. This course is highly recommended to students planning to take an internship in city or county government through the political science department. *Subject to student demand, but offered at least once during a four-year cycle.*

434 POLITICAL NEWSWRITING

A workshop course in the reporting and rewriting of public affairs at the local, national, and international levels. There will be neither texts nor examinations, but short written assignments will be due every class meeting. *Prerequisite: Mass Comm 329 or consent of instructor. Alternate years.*

448 PUBLIC OPINION AND POLLING

A course dealing with the general topic and methodology of polling. Content includes exploration of the processes by which people's political opinions are formed, the manipulation of public opinion through the uses of propaganda, and the American response to politics and political issues.

have served as interns with the Public Defender's Office, the Lycoming County Court Administrator, and the Williamsport City government.

N80-N89 INDEPENDENT STUDY (See index)

Current studies relate to elections — local, state, and federal — while past studies have included Soviet and world politics.

D. Comparative Politics

220 EUROPEAN POLITICS

A study of the political systems of East and West Europe with emphasis on comparison and patterns of government. The course will review politics in Northern (Britain, West Germany, Sweden), Latin (France, Italy, Spain), and Eastern (Soviet Union, East Germany, Yugoslavia) Europe and attempt to find underlying similarities and differences.

326 POLITICAL CULTURES

An exploration of the "people" aspects of political life in several countries. The way people interact with each other and with government, what they expect from the system, how they acquire their political attitudes and styles, and how these contribute to the type of government. *Alternate years.*

438 POLITICS OF DEVELOPING AREAS

The causes and possible cures for socio-political backwardness in Asia, Africa, and Latin America. *Alternate years.*

E. International Relations

225 WORLD POLITICS

Why is there war? An introduction to international relations with emphasis on the varieties of conflicts which may grow into war.

327 CRISIS AREAS IN WORLD POLITICS

The study of several current areas of international tension and conflict, including relations among the United States, Soviet Union, and China, plus the Middle East and whatever new danger spots arise over time. *Alternate years.*

439 AMERICAN FOREIGN POLICY

The U.S. role in the world in geographic, strategic, historical, and ideological perspectives, plus an examination of the domestic forces shaping U.S. policy. *Alternate years.*

F. Special Programs

470-479 INTERNSHIPS (See index)

Students may receive academic credit for serving as interns in structured learning situations with a wide variety of public and private agencies and organizations. Students

490-491 INDEPENDENT STUDY FOR DEPARTMENTAL HONORS (See index)

PSYCHOLOGY

Professor: Hancock
Associate Professor: Berthold
(Chairperson)
Assistant Professor: Balleweg,
Ryan

The major provides training in both theoretical and applied psychology. It is designed to meet the needs of students seeking careers in psychology or other natural or social sciences. It also meets the needs of students seeking a better understanding of human behavior as a means of furthering individual and career goals in other areas. Psychology majors and others are urged to discuss course selections in psychology with members of the department to help insure appropriate course selection.

A major consists of Psychology 110, 336, 431, 432 and four other psychology courses. Statistics also is required.

A minor in *Psychology* consists of Psychology 110 and four other psychology courses (three of which must be numbered 200 or above) which must be approved by the department.

110 INTRODUCTORY PSYCHOLOGY

An introduction to the empirical study of human and other animal behavior. Areas considered may include: learning, personality, social, physiological, sensory, cognition, and development.

112 GROUP PROCESSES AND INTERPERSONAL COMMUNICATION

The introduction to the research and theory from social psychology related to small-group dynamics and interpersonal commun-

cation. Topics covered will include communication processes, interpretation of motivation, conceptualization of individual personalities, problem solving and leadership. The first stage of the course will focus on research and theory; the second half will emphasize the development of skills and techniques where students become members of a self-analytic — practicing the skills and making a case study of the processes involved. *May term only.*

116 ABNORMAL PSYCHOLOGY
An introduction to the patterns of deviant behavior with emphasis on cause, function, and treatment. The various models for the conceptualization of abnormal behavior are critically examined. *Prerequisite: Psychology 110.*

117 DEVELOPMENTAL PSYCHOLOGY
A study of the basic principles of human growth and development throughout the life span. *Prerequisite: Psychology 110.*

118 ADOLESCENT PSYCHOLOGY
The study areas will include theories of adolescence; current issues raised by as well as about the "generation of youth"; research findings bearing on theories and issues of growth beyond childhood, and self-exploration. *Prerequisite: Psychology 110.*

224 SOCIAL PSYCHOLOGY
The scientific exploration of interpersonal communication and behavior. Topics include attitudes and attitude change, attraction and communication, social perception and social influence, prosocial and antisocial behavior and group processes. *Prerequisite: Psychology 110.*

225 INDUSTRIAL AND ORGANIZATIONAL PSYCHOLOGY
The application of the principles and methods of psychology to selected industrial and organizational situations. *Prerequisite: Psychology 110 or consent of instructor.*

239 BEHAVIOR MODIFICATION
A detailed examination of the applied analysis of behavior. Focus will be on the application of experimental method to the individual clinical case. The course will cover targeting, behavior, base-rating, intervention strategies, and outcome evaluation. Learning-based modification techniques such as contingency management, counter-conditioning, extinction, discrimination training, aversive conditioning, and negative practice will be examined. *Prerequisite: Psychology 110 or consent of instructor.*

333 PHYSIOLOGICAL PSYCHOLOGY
An introduction to the physiological psy-

chologist's method of approach to the understanding of behavior as well as the set of principles that relate the function and organization of the nervous system to the phenomena of behavior. *Prerequisite: Psychology 110 or consent of instructor.*

334 PRINCIPLES OF MEASUREMENT
Psychometric methods and theory, including scale transformation, norms, standardization, validation procedures, and estimation of reliability. *Prerequisites: Psychology 110 and statistics.*

335 HISTORY AND SYSTEMS OF PSYCHOLOGY
The growth of scientific psychology and the theories and systems that have accompanied its development. *Prerequisite: four courses in psychology.*

336 PERSONALITY THEORY
A review of the major theories of personality development and personality functioning. In addition to covering the details of each theory, the implications and applications of each theory will be considered. *Prerequisite: Psychology 110.*

337 COGNITION
An investigation of human mental processes along the two major dimensions directed and undirected thought. Topic areas include recognition, attention, conceptualization, problem-solving, fantasy, language, dreaming, and creativity. *Prerequisite: Psychology 110.*

338 EDUCATIONAL PSYCHOLOGY
An introduction to the empirical study of the teaching-learning process. Areas considered may include educational objectives, pupil and teacher characteristics, concept learning, problem solving and creativity, attitudes and values, motivation, retention and transfer, evaluation and measurement. *Prerequisite: Psychology 110 or consent of instructor.*

341 PSYCHOLOGY OF WOMEN
A review of contemporary theory and research on the psychology of gender differences. The major theories and basic research on gender differences will be covered. Special topics include sex differences in achievement, power, and communication; sex-role stereotypes; beliefs about masculinity and femininity; and gender influences on mental health. *Prerequisite: Psychology 110.*

431 LEARNING
EXPERIMENTAL PSYCHOLOGY
Learning processes. The examination of the basic methods and principles of animal and human learning. *Prerequisites: Psychology 110 and statistics.*

432 SENSORY
EXPERIMENTAL PSYCHOLOGY
The examination of psychophysical methodology and basic neurophysiological methods as they are applied to the understanding of sensor processes. *Prerequisites: Psychology 110 and statistics.*

448-449 PRACTICUM IN PSYCHOLOGY
An off-campus experience in a community setting offering psychological services, supplemented with classroom instruction and discussion. Psychology 448 covers the basic counseling skills, while Psychology 449 covers the major theoretical approaches to counseling. *Prerequisite: consent of instructor.*

470-479 INTERNSHIP (See index)
Internships give students an opportunity to relate on-campus academic experiences to society in general and to their post-baccalaureate objectives in particular. Students have, for example, worked in prisons, public and private school, county government, and for the American Red Cross.

N80-N89 INDEPENDENT STUDY
(See index)
Independent study is an opportunity for students to pursue special interests in areas for which courses are not offered. In addition, students have an opportunity to study a topic in more depth than is possible in the regular classroom situation. Studies in the past have included child abuse, counseling of hospital patients, and research in the psychology of natural disasters.

490-491 INDEPENDENT STUDY FOR DEPARTMENTAL HONORS
(See index)
Honors in psychology requires original contributions to the literature of psychology through independent study. The most recent honors project was a study of the relationship between socio-economic status and visual versus auditory learning.

RELIGION

Professor: Guerra (Chairperson)
Associate Professor: Hughes

A major consists of 10 courses, including Religion 113, 114, and 120. At least seven courses must be taken in the department. The following courses may be counted toward fulfilling the major

requirements: Greek 221 and 222, Hebrew 221 and 222, History 340 and 416, Philosophy 332, and Sociology 333.

A minor in *Religion* consists of one course from Religion 110, 113, 114 and four religion courses numbered 200 or above.

An interdisciplinary minor in *Biblical Languages* requires the completion of Greek 221, 222 and Hebrew 221 and 222.

110 INTRODUCTION TO RELIGION

Designed for the beginning student, this course examines what it means to be religious. Some of the issues are the definition of religion, the meaning of symbolism, concepts of God, ecstatic phenomena. Specific attention will be devoted to the current problem of cults and religious liberty.

113 OLD TESTAMENT FAITH AND HISTORY

A critical examination of the literature within its historical setting and in the light of archaeological findings to show the faith and religious life of the Hebrew-Jewish community in the Biblical period, and an introduction to the history of interpretation with an emphasis on contemporary Old Testament criticism and theology.

114 NEW TESTAMENT FAITH AND HISTORY

A critical examination of the literature within its historical setting to show the faith and religious life of the Christian community in the Biblical period, and an introduction to the history of interpretation with an emphasis on contemporary New Testament criticism and theology.

117 INTRODUCTION TO SUPERNATURAL PHENOMENA

An examination of claims for supernatural or paranormal phenomena with an emphasis on critical methodology and the evaluation of evidence. The course is designed to teach students the difference between the scientific and religious methodologies, the proper role of each, and the hazards of mixing the two. Subjects covered include ESP, Spiritualism, the Bermuda Triangle, witchcraft, faith healing, Noah's Ark, ghosts, monsters, and others. *Offered May and summer terms only.*

120 DEATH AND DYING

A study of death from personal, social, and universal standpoints with emphasis upon what the dying may teach the living. Principal issues are the stages of dying, bereavement, suicide, funeral conduct, and the reli-

gious doctrines of death and immortality. Course includes, as optional, practical projects with terminal patients under professional supervision. *Only one course from the combination 120-121 may be used for distribution.*

121 AFTER DEATH AND DYING

An examination of the question of life after death in terms of contemporary clinical studies, the New Testament resurrection narratives, the Asian doctrine of reincarnation, and the classical theological beliefs of providence and predestination. *Religion 120 is recommended but not required. Only one course from the combination 120-121 may be used for distribution.*

222 PROTESTANTISM IN THE MODERN WORLD

An examination of Protestant thought and life from Luther to the present against the backdrop of a culture rapidly changing from the 17th century scientific revolution to Marxism, Darwinism, and depth psychology. Special attention will be paid to the constant interaction between Protestantism and the world in which it finds itself.

223 CHRISTIAN ORIGINS

A study of the historical, cultural, and religious background of the formation of Christianity and the antecedents of Christian belief and practice in post-exilic Judaism and in Hellenism.

224 JUDAISM AND ISLAM

An examination of the rise, growth, and expansion of Judaism and Islam with special attention given to the theological contents of the literatures of these religions as far as they are normative in matters of faith, practice, and organization. Also, a review of their contributions to the spiritual heritage of mankind.

225 ORIENTAL RELIGION

A phenomenological study of the basic content of Hinduism, Buddhism, and Chinese Taoism with special attention to social and political relations, mythical and aesthetic forms, and the East-West dialogue.

226 BIBLICAL ARCHAEOLOGY

A study of the role of archaeology in reconstructing the world in which the Biblical literature originated with special attention given to archaeological results that throw light on the clarification of the Biblical text. Also, an introduction to basic archaeological method and a study in depth of several representative excavations along with the artifacts and material culture recovered from different historical periods.

228 HISTORY AND CULTURE OF THE ANCIENT NEAR EAST

A study of the history and culture of Mesopotamia, Anatolia, Syria-Palestine, and Egypt from the rise of the Sumerian culture to Alexander the Great. Careful attention will be given to the religious views prevalent in the ancient Near East as far as these views interacted with the culture and faith of Biblical man.

230 PSYCHOLOGY OF RELIGION

A study into the broad insights of psychology in relation to the phenomena of religion and religious behavior. The course concentrates on religious experience or manifestations rather than concepts. Tentative solutions will be sought to questions such as: What does it feel like to be religious or to have a religious experience? What is the religious function in human development? How does one think psychologically about theological problems?

331 CHRISTIAN SOCIAL ETHICS

A study of Christian ethics as a normative perspective for contemporary moral problems with emphasis upon the interaction of law and religion, decision making in the field of biomedical practice, and the reconstruction of society in a planetary civilization.

332 CONTEMPORARY PROBLEMS IN CHRISTIAN SOCIAL ETHICS

An examination of the approach of religion and other disciplines to an issue of current concern; current topics include the theological significance of law, the ethics of love, and the Holocaust. *The course may be repeated for credit if the topic is different from one previously studied.*

337 BIBLICAL TOPICS

An in-depth study of Biblical topics related to the Old and New Testaments. Topics include prophecy, wisdom literature, the Dead Sea Scrolls, the teachings of Jesus, Pauline theology, Judaism and Christian origins, reaction criticism — the way the Synoptic Gospels and John give final form to their message. *Course will vary from year to year and may be taken for credit a second time if the topic is different from one previously studied.*

341 CONTEMPORARY RELIGIOUS ISSUES

A study of the theological significance of some contemporary intellectual developments in Western culture. The content of this course will vary from year to year. Subjects studied in recent years include the theological significance of Freud, Marx, and Nietzsche; Christianity and existentialism; theology and depth psychology; the religious dimension of contemporary literature.

342 THE NATURE AND MISSION OF THE CHURCH

A study of the nature of the Church as "The People of God" with reference to the Biblical, Protestant, Orthodox, and Roman Catholic traditions.

470-479 INTERNSHIP (See index)

Interns in religion usually work in local churches under the supervision of the pastor and a member of the faculty.

N80-N89 INDEPENDENT STUDY

(See index)

Current study areas are in the Biblical languages, New Testament theology, comparative religions, and the ethics of technology.

490-491 INDEPENDENT STUDY FOR DEPARTMENTAL HONORS

(See index)

A recent project was on the theology of hope with reference to the thought of Ernst Bloch and Alfred North Whitehead.

SOCIOLOGY-ANTHROPOLOGY

Associate Professors: Jo (Chairperson), Wilk

Assistant Professors: Lawrence; Strauser

The Sociology/Anthropology Department offers two tracks in the major. Both tracks introduce the students to the fundamental concepts of the discipline, and both tracks prepare the student for graduate school.

Track I emphasizes the theoretical aspects of sociology and anthropology. Track II emphasizes the application of sociology and anthropology to human services.

Track I — Sociology-Anthropology requires the core course sequence 110, 114, 229, 444, and 447 and three other courses within the department with the exception of 115, 222, 223, 225, 440, and 443. Religion 226 may also be counted toward the major.

Track II — Human Services in a Socio-Cultural Perspective requires: Sociology-Anthropology 110, 222, 229, 443, 444, and 447. In addition, students must select two courses from among the following: Sociology-Anthropology 220, 221, 227, 228, 300, 334, and 335. Students are also required to choose two

units from the following courses: Psychology 110, Psychology 224, Economics 224, and Political Science 333. Recommended courses: Accounting 110, Accounting 226, Spanish 111, Spanish 112, History 126, and Philosophy 334.

Majors in both tracks are encouraged to participate in the internship program.

A minor in *Sociology and Anthropology* consists of Sociology-Anthropology 110 and four other sociology-anthropology courses (three of which must be numbered 220 or above) which must be approved by the department. Sociology-Anthropology courses 115, 223, 225, 339, and 440 cannot be counted toward this minor.

110 INTRODUCTION TO SOCIOLOGY

An introduction to the problems, concepts, and methods in sociology today, including analysis of stratification, organization of groups and institutions, social movements, and deviants in social structure.

114 INTRODUCTION TO ANTHROPOLOGY

An introduction to the subfields of anthropology; its subject matter, methodology, and goals. Examination of biological and cultural evolution, the fossil evidence for human evolution, and questions raised in relation to human evolution. Other topics include race, human nature, primate behavior, and prehistoric cultural development.

115 INTRODUCTION TO AMERICAN CRIMINAL JUSTICE SYSTEM

An introduction to the role of law enforcement, courts, and corrections in the administration of justice; the historical development of police, courts, and corrections; jurisdiction and procedures of courts; an introduction to the studies, literature, and research in criminal justice; careers in criminal justice.

220 MARRIAGE AND THE FAMILY

The history, structure, and functions of modern American family life, emphasizing dating, courtship, factors in marital adjustment, and the changing status of family members. *Prerequisite: Sociology-Anthropology 110 or consent of instructor.*

221 JUVENILE DELINQUENCY

A multidisciplinary approach to the study of the constellation of factors that relate to juvenile delinquency causation, handling the juvenile delinquent in the criminal justice system, treatment strategies, prevention, and

community responsibility. *Prerequisite: Sociology-Anthropology 110 or consent of instructor.*

222 INTRODUCTION TO HUMAN SERVICES

The course is designed for students interested in learning about, or entering, the human services profession. It will review the history, the range, and the goals of human services together with a survey of various strategies and approaches to human problems. It will include practical discussions of social behavioral differences as they relate to stress and conflict in people's lives. *Prerequisite: Sociology-Anthropology 110 and/or Psychology 110 or consent of instructor.*

223 INTRODUCTION TO LAW ENFORCEMENT

Principles, theories, and doctrines of the law of crimes, elements in crime, analysis of criminal investigation, important case law. *Prerequisite: Sociology-Anthropology 115 or consent of instructor.*

224 RURAL AND URBAN COMMUNITIES

The concept of community is treated as it operates and affects individual and group behavior in rural, suburban, and urban settings. Emphasis is placed upon characteristic institutions and problems of modern city life. *Prerequisite: Sociology-Anthropology 110 or consent of instructor.*

225 INTRODUCTION TO CRIMINAL INVESTIGATION

This course is designed for advanced criminal justice majors. Emphasis is placed on an in-depth study of detection and investigation of major crimes. Particular attention is placed on the use of criminalistics, legal parameters of evidence and interrogation, and prosecutorial procedures. *Prerequisite: Sociology-Anthropology 223 or consent of instructor. Will not be counted toward the sociology/anthropology major.*

226 SOCIAL MOVEMENTS

An analysis of the dynamics, structure, and reactions to social movements with focus on contemporary social movements. *Prerequisite: Sociology-Anthropology 110 or consent of instructor.*

227 SOCIAL PROBLEMS

The course examines the causes, characteristics, and consequences of social problems in America from diverse socio-cultural perspectives. Topics discussed typically include crime, urban crises, family disorganization, poverty, race problems, drug abuse, and other related issues. *Prerequisite: Sociology-Anthropology 110 or consent of instructor.*

228 AGING AND SOCIETY
Analysis of cross-cultural characteristics of the aged as individuals and as members of groups. Emphasis is placed upon variables: health, housing, socio-economic status, personal adjustment, retirement, and social participation. Sociological, social psychological, and anthropological frames of reference utilized in analysis and description of aging and its relationship to society, culture, and personality.

229 CULTURAL ANTHROPOLOGY
An examination of cultural and social anthropology designed to familiarize the student with the analytical approaches to the diverse cultures of the world. The relevancy of cultural anthropology for an understanding of the human condition will be stressed. Topics to be covered include the nature of primitive societies in contrast to civilizations, the concept of culture and cultural relativism, the individual and culture, the social patterning of behavior and social control, an anthropological perspective on the culture of the United States.

300 CRIMINOLOGY
Analysis of the sociology of law; conditions under which criminal laws develop; etiology of crime; epidemiology of crime, including explanation of statistical distribution of criminal behavior in terms of time, space, and social location. *Prerequisite: Sociology-Anthropology 110 or consent of instructor.*

331 SOCIOLOGY OF WOMEN
A sociological examination of the role of women in American society through an analysis of the social institutions which affect their development. Role-analysis theory will be applied to the past, present, and future experience of women as it relates to the role options of society as a whole. Students will do an original research project on the role of women. *Prerequisite: Sociology-Anthropology 110. Alternate years.*

332 INSTITUTIONS
Introduces the student to the sociological concept of social institution, the types of social institutions to be found in all societies, and the interrelationships between the social institutions within a society. The course is divided into two basic parts: 1. That aspect which deals with the systematic organization of society in general, and 2. The concentration on a particular social institution: economic, political, educational, or social welfare. *Prerequisite: Sociology-Anthropology 110 or consent of instructor.*

333 SOCIOLOGY OF RELIGION
An examination of the major theories of the relationship of religion to society and a survey of sociological studies of religious behavior. *Prerequisite: Sociology-Anthropology 110 or consent of instructor.*

334 RACIAL AND CULTURAL MINORITIES
Study of racial, cultural, and national groups within the framework of American cultural values. An analysis will include historical, cultural, and social factors underlying ethnic and racial conflict. Field trips and individual reports are part of the requirements for the course. *Prerequisite: Sociology-Anthropology 110 or consent of instructor.*

335 CULTURE AND PERSONALITY
Introduction to psychological anthropology, its theories and methodologies. Emphasis will be placed on the relationship between individual and culture, national character, cognition and culture, culture and mental disorders, and cross-cultural considerations of the concept of self. *Prerequisite: Sociology-Anthropology 229 or consent of instructor. Offered at least once every three years.*

336 THE ANTHROPOLOGY OF PRIMITIVE RELIGIONS
The course will familiarize the student with the wealth of anthropological data on the religions and world views developed by primitive peoples. The functions of primitive religion in regard to the individual, society, and various cultural institutions will be examined. Subjects to be surveyed include myth, witchcraft, vision quests, spirit possession, the cultural use of dreams, and revitalization movements. Particular emphasis will be given to shamanism, transcultural religious experience, and the creation of cultural realities through religions. Both a social scientific and existentialist perspective will be employed. *Prerequisite: Sociology-Anthropology 229 or consent of instructor. Alternate years.*

337 THE ANTHROPOLOGY OF AMERICAN INDIANS
An ethnographic survey of native North American Indian and Eskimo cultures, such as the Iroquois, Plains Indians, Pueblos, Kwakiutl, and Netsilik. Changes in native lifeways due to European contacts and United States expansion will be considered. Recent cultural developments among American Indians will be placed in an anthropological perspective. *Offered at least once every three years.*

338 LEGAL AND POLITICAL ANTHROPOLOGY
The course is designed to familiarize the student with the techniques of conflict resolution and the utilization of public power in primitive society as well as the various theories of primitive law and government. The rise of the state and an anthropological perspective on modern law and government will be included. The concepts of self-regulation and social control, legitimacy, coercion, and exploitation will be the organizing focus. *Prerequisite: Sociology-Anthropology 229 or consent of instructor.*

339 THE AMERICAN PRISON SYSTEM
Nature and history of punishment, evolution of the prison and prison methods with emphasis on prison community, prison architecture, institutional programs, inmate rights, and sentences. Review of punishment versus treatment, detention facilities, jails, reformatories, prison organization and administration, custody, and discipline. *Prerequisite: Sociology-Anthropology 115.*

440 PROBATION AND PAROLE
A course designed for the advanced criminal justice major. While the course concerns the study of probation and parole as parts of the criminal justice system and their impact on the system as a whole, the primary emphasis is the impact on the offender. Particular attention is given to diagnostic report writing on offenders, pre-sentence investigation, offender classification, and parole planning. *Prerequisite: Sociology-Anthropology 115 and 339. Alternate years.*

441 SOCIAL STRATIFICATION
An analysis of stratification systems with specific reference to American society. The course will include an analysis of poverty, wealth, and power in the United States. Particular attention will be given to factors which generate and maintain inequality, along with the impact of inequality on the lives of Americans. *Prerequisite: Sociology-Anthropology 110 or consent of instructor.*

443 HUMAN SERVICES IN HELPING INSTITUTIONS
The course examines the organizational and conceptual context within which human services are delivered in contemporary society. Subjects to be covered include ethnographic study of nursing homes, prisons, therapeutic communities, mental hospitals, and other human service institutions. The methodology of fieldwork will be explored so as to sensitize the student to the socio-cultural dimensions of helping environments and relationships. *Prerequisite: Sociology-Anthropology 110 or Sociology-Anthropology 229 or consent of instructor. Alternate years.*

444 SOCIAL THEORY
The history of the development of sociological thought from its earliest philosophical

<p>beginnings is treated through discussions and reports. Emphasis is placed upon sociological thought since the time of Comte. <i>Prerequisite: Sociology-Anthropology 110 or consent of instructor.</i></p>	<p>agencies, such as penal institutions and probation and parole departments, under the supervision of administrative personnel.</p>	<p>110 INTRODUCTION TO FILM A basic course in understanding the film medium. The class will investigate film technique through lectures and by viewing regular weekly films chosen from classic, contemporary, and experimental short films.</p>
<p>445 ANTHROPOLOGICAL THEORY The history of the development of anthropological thought from the 18th century to the present. Emphasis is placed upon anthropological thought since 1850. Topics include evolutionism, historical-particularism, cultural idealism, cultural materialism, functionalism, structuralism, and ethnoscience. <i>Prerequisite: Sociology-Anthropology 229 or consent of instructor. Offered at least once every three years.</i></p>	<p>N80-N89 INDEPENDENT STUDY (See index)</p> <p>An opportunity to pursue specific interests and topics not usually covered in regular courses. Through a program of readings and tutorials, the student will have the opportunity to pursue these interests and topics in greater depth than is usually possible in a regular course.</p>	<p>140 INTRODUCTION TO ACTING An introductory study of the actor's preparation with emphasis on developing the actor's creative imagination through improvisations and scene study.</p>
<p>446 PEOPLE AND CULTURES OF THE AMERICAN SOUTHWEST Field experience in the analysis of tricultural communities of Northern New Mexico, Southern Colorado, and Northeastern Arizona, including the eastern Pueblos of New Mexico; Zuni, Navajo, and Apache reservations; isolated Spanish-American mountain villages of Northern New Mexico; religious ashrams and communes; and cities of the Southwest and Juarez, Mexico. Emphasis upon Taos, Rio Arriba, Sante Fe, and Los Alamos counties of New Mexico. <i>Prerequisite: Sociology 110 or consent of instructor. May or summer only.</i></p>	<p>490-491 INDEPENDENT STUDY FOR DEPARTMENTAL HONORS (See index)</p> <p>THEATRE</p> <p>Professor: Falk (Chairperson) Assistant Professor: Allen Assistant Technical Director: Huffman</p>	<p>148 INTRODUCTION TO PLAY PRODUCTION Stagecraft and the various other aspects of play production are introduced. Through material presented in the course and laboratory work on the Arena Theatre stage, the student will acquire experience to produce theatrical scenery.</p>
<p>447 RESEARCH METHODS IN SOCIOLOGY-ANTHROPOLOGY Study of the research process in sociology-anthropology. Attention is given to the process of designing and administering research and the application of research. Different methodological skills are considered, including field work, questionnaire construction, and other methods of data gathering and the analysis of data. <i>Prerequisite: Sociology-Anthropology 110 and Mathematical 103 or consent of instructor.</i></p>	<p>The major consists of eight courses: Theatre 100 and seven others; a concentration in acting, directing, or design is possible. In addition to the course requirements, majors are expected to participate actively in Arena Theatre productions. Majors are urged to include courses in art, music, psychology, and English, or other areas of special interest.</p>	<p>226 INTRODUCTION TO DIRECTING An introductory study of the function of the director in preparation, rehearsal, and performance. Emphasis is placed on developing the student's ability to analyze scripts, and on the development of the student's imagination. <i>Prerequisite: Theatre 140.</i></p>
<p>448-449 PRACTICUM IN SOCIOLOGY Introduces the student to a practical work experience involving community agencies in order to effect a synthesis of the student's academic course work and its practical applications in a community agency. Specifics of the course to be worked out in conjunction with department, student, and agency. <i>Prerequisite: Sociology-Anthropology 110 or consent of instructor.</i></p>	<p>Three minors are available in the Theatre department. A minor in <i>Theatre History and Literature</i> consists of Theatre 100, 332, 333, 335, and 400. The following courses are required to complete a minor in <i>Performance</i>: Theatre 100, 140, 226, 334, 336, and either 332 or 333. To obtain a minor in <i>Technical Theatre</i>, a student must complete Theatre 100, 148, 228, 338, and 420 or 430.</p>	<p>228 INTRODUCTION TO SCENE DESIGN AND STAGECRAFT An introduction to the theatre with an emphasis on stagecraft. Productions each semester serve as the laboratory to provide the practical experience necessary to understand the material presented in the classroom. <i>Prerequisite: Theatre 148 or consent of instructor.</i></p>
<p>470-479 INTERNSHIP (See index)</p> <p>Interns in sociology-anthropology typically work off campus with social service agencies under the supervision of administrators. However, other internship experiences, such as with the Lycoming County Historical Museum, are available. Interns in criminal justice work off campus in criminal justice</p>	<p>100 INTRODUCTION TO THEATRE Designed as a comprehensive introduction to the aesthetics of theatre. From the spectator's point of view, the nature of theatre will be explored, including dramatic literature and the integral functioning of acting, directing, and all production aspects.</p>	<p>231 ADVANCED TECHNIQUES OF PLAY PRODUCTION A detailed consideration of the interrelated problems and techniques of play analysis, production styles, and design. <i>Offered summer only.</i></p> <p>332 HISTORY OF THEATRE I A detailed study of the development of theatre from the Greeks to the Restoration. <i>Alternate years.</i></p> <p>333 HISTORY OF THEATRE II The history of the theatre from 1660. <i>Alternate years.</i></p> <p>334 INTERMEDIATE STUDIO: ACTING Instruction and practice in character analysis and projection with emphasis on vocal and body techniques. <i>Prerequisite: Theatre 140.</i></p> <p>335 THEORIES OF THE MODERN THEATRE An advanced course exploring the philosophical roots of the modern theatre from the</p>

birth of realism to the present and the influences on modern theatre practice. Selected readings from Nietzsche, Marx, Jung, Freud, Whitehead, Kierkegaard, Sartre, Camus, Antoine, Copeau, Stanislavski, Shaw, Meyerhold, Artaud, Brecht, Brook, Grotowski. <i>Alternate years.</i>	440 ADVANCED STUDIO: ACTING Preparation of monologues and two-character scenes, contemporary and classical. The student will appear in major campus productions. <i>Prerequisite: Theatre 334.</i>	160 TECHNICAL THEATRE PRACTICUM Participation in a major production of the Arena Theatre in one or more of the following technical areas: scene construction, scene painting, lighting, sound, properties, costume, make-up. A minimum of 50 hours is required. May be repeated for credit. One-half credit hour. <i>Prerequisite: Consent of instructor.</i>
336 INTERMEDIATE STUDIO: DIRECTING Emphasis is placed on the student's ability to function in preparation and rehearsal. Practical experience involves the directing of two one-act plays from the contemporary theatre. <i>Prerequisite: Theatre 226.</i>	446 ADVANCED STUDIO: DIRECTING Emphasis will be placed on the student's ability to produce a major three-act play from the script to the stage for public performance. <i>Prerequisite: Theatre 336.</i>	161 REHEARSAL AND PERFORMANCE PRACTICUM Participation in a major production of the Arena Theatre in one or more of the following rehearsal and performance areas: acting in a major or minor role, stage manager, director, assistant director, choreographer. A minimum of 50 hours is required. May be repeated for credit. One-half hour credit. <i>Prerequisite: Consent of instructor.</i>
337 PLAYWRITING AND DRAMATIC CRITICISM An investigation of the techniques of playwriting with an emphasis on creative writing, culminating in a written one-act play, plus an historical survey of dramatic criticism from Aristotle to the present with emphasis upon developing the student's ability to write reviews and criticism of theatrical productions and films. <i>Alternate years.</i>	448 ADVANCED STUDIO: DESIGN Independent work in conceptual and practical design. The student will design one full production as his major project. <i>Prerequisites: Theatre 228 or 338 and consent of instructor.</i>	470-479 INTERNSHIP (See index) Interns in theatre work off campus in theatres such as the Guthrie Theatre, Minneapolis, and at the New Jersey Shakespeare Festival.
338 INTERMEDIATE STUDIO: LIGHTING DESIGN The theory of stage and lighting design with emphasis on their practical application to the theatre. <i>Prerequisite: Theatre 148 or consent of instructor.</i>	N80-N89 INDEPENDENT STUDY (See index) Some recent independent studies have been the roles of women as characters in drama, scene design, and lighting design for an Arena production.	490-491 INDEPENDENT STUDY FOR DEPARTMENTAL HONORS (See index) A typical study could be the writing and production of an original play.
400 MASTERS OF WORLD DRAMA An intensive and detailed analysis of the plays and related works, including criticism of great authors, that have shaped world theatre. Authors to be selected on the basis of interest of students and faculty. At times, more than one author will be treated in a term. Ibsen, Brecht, Moliere, Williams, Albee. <i>Alternate years. May be accepted toward English major with consent of English Department.</i>	THEATRE PRACTICUM Students may receive academic credit for supervised participation in the various aspects of technical production, rehearsal, and performance of the Theatre Department's major presentations in the Arena Theatre. Credit for Theatre Practicum is earned on a fractional basis. Students may register for one-half semester hour course credit for active participation in a major production in the designated areas of technology and performance, limited to one semester hour credit per semester and eight semester hours over four years. Theatre Practicum credit may not be used to satisfy distribution requirements in Fine Arts. Students may not register for Theatre Practicum while taking Theatre 100 (Introduction to Theatre) or Theatre 148 (Play Production) without permission of the instructor. When scheduling, students should register for Theatre Practicum in addition to the normal four academic courses. Because students may not be cast or assigned duties in time to meet the drop/add deadline, late registration for Theatre 160 and 161 (Technical Theatre). (Rehearsal and Performance) will be permitted without penalty.	History 310 — Women in History English 334 — Women in Literature Psychology 341 — Psychology of Women Art 339 — Women in Art
420 ADVANCED STUDIO: COSTUME DESIGN The theory of costuming for the stage, elements of design, planning, production, and construction of costumes for the theatre. Students will participate in the design of a production. <i>Prerequisite: Theatre 148 or consent of instructor.</i>		With approval of the coordinator, one of the four courses may be satisfied either with an independent studies project or with a special seminar to be offered on an irregular basis by interested faculty. Some of the possible options for a special seminar are Women in Religion, Women in Business, Women in the Professions, and Women in Film. Whether the student chooses to do the Independent Studies or a special seminar, she or he will be required to write an extensive research paper which will be subject to review by the Women's Studies Committee. To receive credit for a minor in Women's Studies, a student must maintain at least a 2.0 average in courses taken for that minor.
430 ADVANCED STUDIO: PROPERTIES DESIGN The theory of properties design for the stage, including the production of specific properties for staging use. Elements of design, fabrication, and the construction of properties employing a variety of materials and the application of new theatrical technology. <i>Prerequisite: Theatre 148 or consent of instructor.</i>		

Student Services

ADMINISTRATION

The program of student services at Lycoming is administered by the Office of Student Services. It is designed to respond to a diversity of student needs. Professional staff members are assigned the specific responsibilities of:

- career counseling and placement;
- residence life;
- student activities;
- religious life;
- health services;
- study skills;
- student orientation;
- judiciary-student conduct

All members of the staff are available to counsel and advise individual students.

PERSONAL COUNSELING

Members of the staff of the Office of Student Services are qualified and available to provide non-therapeutic assistance to students with adjustment problems. A full-time Counseling Psychologist provides short-term therapy for students needing assistance. Continuing therapy is available through referrals to public agencies and private clinicians in the Williamsport community. Financial arrangements for these referral services are made directly by the student with the agency and/or individual clinician involved.

CAREER DEVELOPMENT SERVICES

The Career Development Center provides services which are designed to help students identify their abilities and interests, set realistic career goals, and plan academic programs to meet these goals. Counseling for Lycoming students begins in the freshman year.

In addition to individual guidance, the center maintains a library on specific

careers, employment outlooks, and career trends. Services offered by the center include:

- individual counseling;
- DISCOVER a computer assisted career guidance system provides information to students about themselves and the world of work;
- SHARE (Students Having a Real Experience), a program in which students observe and work with a professional in the field;
- placement services to aid seniors in implementing their career plans;
- assistance to students in securing internships, summer employment, and part-time employment;
- speaker's program which brings professionals from a variety of careers to campus seminars;
- video-cassette programs relating to job skills and career information;
- microfiche copies of graduate- and professional-school catalogs for the United States and abroad.

RESIDENCE AND RESIDENCE HALLS

Single students who do not live at home are required to live in residence halls and eat in the dining room. All new resident students are forwarded a room-agreement form to sign after confirmation of their admission to Lycoming. This agreement is renewed each spring. Exceptions to the residence policy may be granted to those students who wish to live with relatives, and students who are 23 years of age or older. Requests for such exemptions must be submitted to the Residence Life Office before the first day of the term to which the student has been admitted.

Residence students assume responsibility for their rooms and furnishings. The College reserves the right to enter and inspect any room for reasons of damage, health, or safety, and to search any room when there is reason to believe a violation of College rules or the law is occurring or has occurred. Charges are

assessed for damage to rooms, doors, furniture and common areas. Wherever possible, damage to dormitory property will be charged to the person or persons directly responsible. Damage and breakage occurring in a room will be the responsibility of students occupying the room. Hall and bathroom damage will be the responsibility of the section where damage occurs.

Residence halls are not available for occupancy during the vacation periods. Quiet hours for study purposes, which are established by residence hall councils or the Office of Student Services, are published in the student handbook and posted on bulletin boards.

Room visitation by members of the opposite sex is permitted in the halls under conditions established by the College in cooperation with the various residence hall councils, which share responsibility for developing and monitoring regulations, and which are organized each fall semester before visitation schedules are established.

STUDENT ACTIVITIES

Student Activities offers assistance and advice for all campus programs and student organizations. Through the efforts of the Campus Activities Board (C.A.B.) programming is provided for all facets of the student population. The Wertz Advisory Board oversees the functional aspects of the Wertz Student Center and works to create an atmosphere which best serves the social and recreational needs of the students. Student Activities is also responsible for Leadership Training and the Student Orientation Staff; in addition, it provides support and direction for student government, the Interfraternity and Panhellenic Councils and the retention program.

RELIGIOUS LIFE

The United Campus Ministry, staffed by a Protestant Minister and a Roman Catholic Priest, provides a wide range of

activities in support of the religious lives of students. Ecumenical and inclusive in nature, campus ministry at Lycoming provides worship services, service projects, social occasions, retreats, study opportunities and personal counseling. The chaplains live on campus and are available to students for a variety of situations in which they might need support, counsel or direction.

HEALTH SERVICES

Normal medical treatment by the health service staff at the College is provided without cost to the student. During the fall and spring semesters, the College maintains an outpatient service in Rich Hall. It is staffed with a registered nurse five days a week from 8:30 a.m. to 4 p.m. The College physician is available from 11 a.m. to 12 noon, Monday through Friday. At other times, emergency care is available at the emergency rooms of Williamsport and Divine Providence Hospitals, located a short distance from the campus.

Medical service charges paid by the student are: emergency room and emergency room physician's charges, special medications, X-rays, surgery, care for major accidents, immunizations, examinations for glasses, physician's visits other than in the health service, referrals for treatment by specialists, special nursing services and special services.

Entering students must provide basic health information to the College between the time of admission and the beginning of classes of the term to which they are admitted. This information is secured through participation in the computerized health-information service provided by National Computer Systems. New students complete the Interview College Health Assessment Form that is mailed to students shortly after they have confirmed their admission to Lycoming. The completed form is returned by the student to the admission's office together with a check for \$13.50. Both the student and the College receive reports based on the questionnaire responses. The student report con-

sists of a Personal Health Report, and health information brochures as requested. Information provided by the student is confidential and is available only to qualified health service and student-services personnel.

All students are required to carry accident-sickness medical insurance. Pre-paid medical insurance is a requirement for participation in intercollegiate athletics. Lycoming College does not offer a student plan.

STUDENT ORIENTATION

New students at Lycoming are required to attend one of three summer orientation sessions with at least one parent before they enroll in the fall. The purpose of the program is to acquaint new students and their parents with the College more fully so that new students begin their Lycoming experience under the most favorable circumstances. Information on orientation is mailed to new students after they confirm their admission.

STANDARDS OF CONDUCT

Lycoming students are expected to accept responsibilities required of adults. The rights of every member of the College community are protected by established regulations. Although the acceptance of the College's standards of behavior is an individual responsibility, it also calls for group responsibility. Students should influence their peers to conduct themselves responsibly for the collective good.

Students who are unable to demonstrate that they have accepted these responsibilities or who fail to abide by established policies may be dismissed at any time or denied readmission for a subsequent term or semester. Further, after the conclusion of any term or semester, the College may deny a student the privilege of attending any subsequent term or semester when the administration deems this to be in the best interest of the College.

Lycoming College does not approve

of the use or misuse of alcoholic beverages and encourages students to abstain from their use and to abide by the legal restrictions on alcohol use established by the Commonwealth of Pennsylvania. Observance of the law is the individual responsibility of each student, and failure to obey the law may subject the student to prosecution by civil authorities, either on or off campus.

Students also are expected to be aware of the College's attitude toward the use and misuse of alcohol and to acknowledge the College's right to its position. The College will not tolerate any public use of alcohol. Officials of the College will prescribe penalties for the public use or private misuse of alcohol. These penalties will be applied in a consistent manner.

Lycoming recognizes its responsibility, however, for providing students with reliable information about the social and medical implications of the use of alcohol. Lycoming makes every effort to create and maintain a community in which individual choice is coupled with responsible behavior and respect for the rights of others.

Upon confirmation of admission, students are given a handbook which contains the College's official policies, rules and regulations. These policies, rules and regulations are part of the contractual agreement students enter into when they register at Lycoming.

Admission to Lycoming

POLICY AND STANDARDS

Lycoming College welcomes applications from prospective students regardless of age, sex, race, religion, financial resources, color, national or ethnic origin, or handicap. Admission is based on the following standards:

- Graduation from an accredited secondary school
- Completion of 16 units of college preparatory courses including (4) English, (3) Math, (2) Foreign Language, (2) Natural Science, (3) Social Science and (2) Elective. The admissions committee, recognizing that high school curricula vary, is always willing to consider the application of an able student whose preparation, while differing from the plan suggested, nevertheless, gives evidence of continuity in the study of fundamental subjects.
- Satisfactory College Entrance Examination Board Scholastic Aptitude Test (SAT) or American College Test (ACT) scores.

Applicants with significant academic preparation and exceptional maturity may apply to Lycoming as candidates for early admission. A recommendation from a school counselor is required, indicating the student's intentions to attend Lycoming in lieu of the 12th grade. If admitted, the student enters the College after completing the junior year in high school.

Students who are not enrolled in a degree program and who wish to register for courses in any semester are welcome to apply. A Special Student Application is available for this purpose.

Lycoming is fully approved for the educational program for veterans.

APPLICATION AND SELECTION PROCESS

For students considering a fall semester admission, applications should be filed by April 1. The application should be accompanied by a \$20 application fee,

an official secondary school transcript forwarded by the school guidance office, and the results of either the Scholastic Aptitude Test (SAT) or the American College Test (ACT). Applications are considered after April 1 on a space-available basis.

The completed application is evaluated individually by identifying each applicant's academic achievement, talents, qualities, and interests. Lycoming notifies applicants of their acceptance as soon as possible after all credentials have been received and evaluated. In some instances, additional information may be needed to complete the evaluation.

Admitted applicants must notify the College of their intent to enroll by May 1, the national candidates' reply date. This notification must be accompanied by a \$100 (attendance) deposit for commuting students, or a \$200 (attendance and room) deposit for resident students. After May 1, the deposits are not refundable.

ADVANCED STANDING BY TRANSFER

The College welcomes transfer students from other accredited colleges and universities according to the following standards and procedures:

- applicants should be in good academic standing and should have a cumulative grade point average of 2.0 in transferable courses at their former institutions;
- courses that are reasonably comparable to those offered at Lycoming will be accepted for transfer if the grade C or better is earned;
- grades earned at previous institutions will not be included in the computation of the grade point average;
- each transfer applicant will be evaluated individually in relation to unsuccessfully attempted course credits within our permitted 24-credit maximum. The number of unsuccessful attempts remaining will be recorded on the transcript

evaluation prior to required confirmation;

- class standing at Lycoming will be based on the number of credits accepted for transfer;
- no more than 64 credits can be accepted for transfer from a junior or community college;
- transfer students will be eligible to earn appointments to the Dean's List, but to be considered for honors at commencement at least 64 credits must be earned at Lycoming;
- students will be eligible for class rank after completing eight courses at Lycoming;
- official copies of transcripts from all institutions attended must be submitted as a part of the admissions application;
- the residency requirement for a degree is eight unit courses or 32 credits. The final eight units must be taken at Lycoming.

NOTE: Transfer of credit policies for Lycoming College students are on page 11.

EARLY DECISION

Lycoming's Early Decision Plan is designed for qualified high school seniors who have examined their college choices thoroughly and have decided that Lycoming College is their first choice. Candidates for Early Decision may apply elsewhere with the understanding that other applications will be withdrawn if the candidates are accepted at Lycoming. It is further understood that students select only one college to which they will apply as Early Decision applicants.

Applications for Early Decision may be submitted any time until November 1. Candidates will be notified of the Admissions Committee's decision by December 1 providing that the credential files are complete.

It is understood that the candidates admitted under the Early Decision Plan will subsequently enroll at Lycoming responding with a deposit by January 1.

The Admissions Committee may defer candidates for a second review in the

spring. In such cases, the Committee considers additional academic information such as senior year grades and test scores.

ADMISSIONS OFFICE LOCATION AND HOURS

Prospective students and their families are encouraged to visit the campus for a student-conducted tour and an interview with an admissions counselor, who will provide additional information about the College and answer questions.

The Admissions Office is located on Washington Blvd. and College Lane. For an appointment, telephone PA only 1-800-235-3920; outside PA 1-800-345-3920 or (717) 321-4026, or write Office of Admissions, Lycoming College, Williamsport, PA 17701. Office hours are:

Weekdays — September through April
8 a.m. to 4:30 p.m.

— May through August
8 a.m. to 4 p.m.

Saturdays — September through April
9 a.m. to 12 noon

— May through August
No Saturday hours

Financial Matters

EXPENSES FOR THE ACADEMIC YEAR 1987-88

The following expenses are effective for the regular fall and spring semesters. The College reserves the right to adjust fees at any time. The fees for each semester are payable not later than the second day of classes for the semester.

Fees	Per Semester	Per Year
Comprehensive	\$3,840	\$7,680
Board and Room Rent	1,500	3,000
Total	5,340	10,680

One-Time Student Fees

Application Fee	\$ 20
Admissions Deposit	100
Contingency Deposit	100
Room Reservation Deposit	100

Part-Time Student Fees

Application Fee	\$ 20
Each Unit Course	\$960

Additional Charges

Applied Music Fee (half-hour per week per semester)	140
Cap and Gown Rental	prevailing cost
Laboratory Fee per Unit Course	5 to 50
Reregistration Fee	25
Parking Permit (for the academic year)	10 to 15
Parking Permit with Reserved Space (for the academic year)	15 to 35
Practice Teaching Fee (Payable in Junior Year)	250
R.O.T.C. Basic Course Deposit (Payable at Bucknell University)	60
R.O.T.C. Advanced Course Deposit (Payable at Bucknell University)	60
Transcript Fee	3
Health Services Fee	74

The comprehensive fee covers the regular course load of three to four courses each semester. Resident students must board at the College unless, for extraordinary reasons, authorization is extended for other eating arrangements. If a double room is used as a single room, there is an additional charge of \$290 per semester. The estimated cost for books and supplies is up to \$300 per year, depending on the course of study. Special session (May term and summer term) charges for tuition, room, and board are established during the fall semester.

ENTRY FEES AND DEPOSITS

Application Fee — All students for admission must submit a \$20 application fee. This charge defrays the cost of processing the application and is nonrefundable.

Admission Deposit — After students have been notified of their admission to Lycoming, they are required to make a \$100 admissions deposit to confirm their intention to matriculate. Students seeking residence must submit an additional \$100 room-reservation deposit. All deposits are applied to the general charges for the first semester of attendance. After May 1, deposits are nonrefundable.

Contingency Deposit — A contingency deposit of \$100 is required of all full-time students as a guarantee for payment of damage to or loss of College property, for library and parking fines, or similar penalties imposed by the College. The deposit is collected along with other charges for the initial semester. The balance of this deposit is refunded after all debts to the College have been paid, either upon graduation or upon written request submitted to the Registrar two weeks prior to voluntary permanent termination of enrollment at Lycoming College.

PARTIAL PAYMENTS

For the convenience of those who find it impossible to follow the regular schedule of payments, arrangements may be made with the College Treasurer for the monthly payment of College fees through various educational plans. Additional information concerning partial payments may be obtained from the Treasurer or Director of Admissions.

REFUNDS FOR STUDENTS WHO WITHDRAW

Refunds of tuition and board are made to students who voluntarily and officially withdraw from the College while in good standing according to the following schedule for the fall and spring semesters

and the comparable period for the May and summer terms:

Period of Withdrawal	Refund %	Charge %
During the first week of the semester	80	20
During the second and third week	60	40
During the fourth and fifth week	40	60
During the sixth and seventh week	20	80
After seven weeks	0	100

NON-PAYMENT OF FEES PENALTY

Students will not be registered for courses in a new semester if their accounts for previous attendance have not been settled. Diplomas, transcripts, and certifications of withdrawals in good standing are issued only when a satisfactory settlement of all financial obligations has been made in the Business Office.

FINANCIAL AID

POLICY AND PROCEDURES

The dominant factor in determining the amount of financial aid awarded to individual students is the establishment of need. Scholarships may be awarded on the basis of financial need and academic ability, while grants are provided on the basis of financial need. Long-term, low-cost educational loans are available from federal and state sources to most students who can demonstrate need. Part-time employment is available to students.

To apply for financial assistance, obtain Lycoming's Financial Aid Application (FAA) from the Financial Aid Office and the CSS Financial Aid Form (FAF) and your State Grant Application from the secondary school Guidance Office or Lycoming's Financial Aid Office. Submit the FAA to Lycoming and the completed FAF to the College Scholarship Service, CN 6300, Prince-

ton, NJ 08541, as early as possible after January 1. Renewal applications are required annually.

SCHOLARSHIPS AND GRANTS

Valedictorian/Salutatorian Scholarship is a \$3,600 award honoring graduates of private and public secondary schools who rank either first or second in their graduating class as certified by their guidance counselor. These awards are based upon academic achievement and are not contingent upon demonstrated financial need. Renewal cum is 3.25.

Founders Scholarships of \$5,000 are awarded to full-time Lycoming undergraduate students who rank in the top fifth of their high school graduating class and have combined SAT scores of at least 1200. Founders Scholarships are renewable for up to three additional years of continuous enrollment provided the student maintains a cumulative grade point average of 3.25.

Recognition Scholarships for \$1,000 to \$3,000 per year are awarded to Freshmen who have superior academic qualifications and who have filed the FAF but did not demonstrate financial need as determined by the College Scholarship Service and were not eligible for another Lycoming Scholarship program. This scholarship is renewable if the recipient maintains a 3.00 cumulative average.

Directors' Scholarships of \$400 to full tuition, depending upon financial need, are awarded to students in the top fifth of their secondary school class with CEEB scores of 1100 or more. Renewal cum is 3.00.

Presidential Fellowships in Music are awarded each year to candidates nominated by the Department of Music. Auditions and interviews are conducted annually by the Department. A tuition stipend of \$250 is awarded for each semester the student serves as a Fellow. The recipients are expected to fulfill responsibilities assigned each semester by the Department with the primary responsibility being musical performance. To apply, contact the Chairman, Department of Music, Lycoming Col-

lege.

Lycoming Grant-in-Aid awards of \$400 to full tuition, depending upon financial need, are made to full-time students who do not qualify for scholarships and who have demonstrated financial need and the prospect of contributing positively to the College community. Renewal requires continued financial need and satisfactory citizenship standards.

Ministerial Grants are awarded to dependent children of United Methodist ministers and ordained ministers of other denominations. The grant amounts to one-third of tuition for children of United Methodist Ministers in the Central Pennsylvania Annual Conference and one-fourth of tuition for all others. If a student completes the FAF, this grant will be part of the total aid award.

Pre-Ministerial Student Grants of one-fourth of tuition are awarded to students preparing for the Christian ministry who are enrolled full time and demonstrate financial need. Students must complete the pre-ministerial application available through the Financial Aid Office.

Two-in-Family Grants are awarded to each member of a family attending Lycoming College at the same time. The amount of 10% tuition, room, and/or board paid. Each member must be enrolled full time and not eligible for any other financial aid program of the College. If a student is eligible for other Lycoming aid, the student would receive whichever is greater.

Art and Music Scholarship of \$1,500 is available to each new, selected student. It is awarded on the basis of juried competition and is open to high school juniors and seniors and to freshmen and sophomore college transfer students. Recipient must have SATs of at least 850 and rank in the top 40% of their senior class.

Sculpture Scholarship of \$1,500 is available for students seeking a BFA in Sculpture and who successfully complete a portfolio review. Student must also demonstrate financial need.

Two-Year Transfer Scholarships of \$2,400 are awarded to the student trans-

ferring from each two year institution with the best academic record. Must have completed a two-year program or 64 credits and have at least a 3.25 cum GPA. On campus interview required. Renewable for one year if student maintains 3.0 cum GPA.

United Methodist Scholarships are awarded to full-time degree applicants who have a grade average of B or better, are active in Christian activities, are an active, full member of the Methodist Church, and have demonstrated financial need. The awards are normally \$500 per year and the funds are provided by the United Methodist Church. Annual application is required. The student must complete and file the FAF and the scholarship forms which are available in the Financial Aid Office.

Wyoming Conference Scholarship is granted by Lycoming for \$500 to a student chosen by the Scholarship Committee of the Wyoming Conference. These are renewable for three additional years. Good academic performance and service to the church are the criteria for this award.

Ronald Beemer Memorial Scholarship of \$350 is periodically awarded.

Mary Strong Clemins Scholarship of \$250 for a student preparing for Christian ministry or for deaconess work or its equivalent in the United Methodist Church.

Mabel L. Collins Scholarship of \$250 is available for a student from Hepburn Township; otherwise, to any other worthy student.

C. Luther Culler Memorial Scholarship of \$450 for a student is awarded based on Scholarship.

Dewitt-Bodine Scholarships are awarded to the highest-ranked student in the graduating class each year from Hughesville High School who attends Lycoming College. The recipient is designated by the Hughesville Guidance Director. The scholarship amount is \$2,200 and is credited at \$550 per year over four years of attendance at Lycoming. If the student is in a three-year program (such as Med-Tech), (s)he will receive the award divided equally over the three-years' attendance at Lycom-

ing.

Clara Kramer Eaton Scholarships are awarded to the highest ranked student in the graduating class each year from Line Mountain High School who attends Lycoming College. The recipient is designated by the high school's guidance office. The scholarship is \$400 per year for up to four years' attendance at Lycoming.

Beryl Kline Glenn Scholarship of \$300 is periodically awarded to a deserving student majoring in music.

David Grove and Wife Scholarship of \$200 is periodically awarded to a needy student studying faith and ministry.

Robert I. Hamilton Grant of \$600 is available. Mr. Hamilton was a resident of South Williamsport.

Esther M. Heefner Scholarship of \$1,650 is available to help needy and deserving students.

Edward P. Heether Scholarship Fund is available to help needy and deserving students, who are in good academic standing.

James A. Heether Scholarship for \$500 is available based on financial need. Priority will be given to a chemistry major.

George W. Huntley, Jr. Scholarship for \$900 is available to help defray the tuition and expenses for the first year only of any graduate of Cameron County High School (formerly Emporium High School). The selection is made by the Superintendent of Schools, Cameron, PA.

Amos Johnson Scholarship of \$100 is available for the education of a ministerial student of limited means.

John T. and Mary Louise Keliher Scholarship of \$200 is available for a deserving student "from the area."

Morgan V. Knapp Endowed Music Scholarship Fund is awarded in the ratio of 75% of the fund to financially needy students, in satisfactory academic standing, who are majoring in music or who are pursuing courses in vocal music, piano or strings, in that priority order. Twenty-five percent of the fund is awarded as needed, on the recommendation of the Music Department Faculty.

to students, who in their opinion should be encouraged to study privately in the areas of voice, piano, or strings, in that priority order.

LAMCO Scholarship (formerly the Grit) of up to \$2,250 is available for scholarship with the following selection priorities:

1. children and grandchildren of employees of *The Grit*;
2. graduates of high schools of the City of Williamsport; and
3. graduates of high schools of Lycoming County.

Doris Lennon Scholarship of \$1,800 is available to help dedicated young students preparing for church work in need of financial assistance.

Eva Rupert McKelvy Memorial Scholarship of \$100 is available to help a worthy Christian girl.

Mary Housenick Miller Scholarship is given to a Lycoming student majoring in History (preferably American History) with a preference to an individual who has attained at least sophomore status. The scholarship will continue until graduation subject to concurrence from the History Department. Selection preference will be given but not limited to deserving students who demonstrate financial need.

Earl Nearhoof Memorial Scholarship of \$800 is available to assist young students entering Christian work with preference given to students from the Warriors Mark and Tyrone, PA areas.

Ada Remely Memorial Scholarship is an award available to a currently enrolled female member of the Junior Class having completed 80 credit hours with at least a 3.0 cumulative average and who demonstrates financial need of at least the regular tuition rate. Applications are available in the Financial Aid Office in February and are due in March. The award is normally \$500 based on current earnings of the scholarship endowment.

Jennie M. Rich Memorial Scholarship of \$450 is available for worthy and needy students' preparing for the Christian ministry or for deaconess or missionary work.

Margaret Rich and Elmer B. Staats

Endowed Scholarship of up to \$1,000 is available to an academically talented student who intends to pursue a career in public service. Preference given, but not limited, to individuals who have demonstrated need.

Robert F. Rich Scholarship is awarded periodically to an academically outstanding student from Central Pennsylvania. The award varies from \$200 to \$650 depending upon the available scholarship endowment income. Preference is given to a resident of the Woolrich area and children of the employees of the Woolrich Company.

Leonard H. Rothermel Fund provides \$1,400 in grant to financially needy student(s) who are in satisfactory academic standing with primary preference given to Trevorton residents and secondary preference given to Line Mountain School District area students.

Mary Landon Russell Applied Music Fund was established in recognition of her outstanding service to Lycoming College by alumni and friends during a special Homecoming celebration in 1985, this endowed fund provides financial assistance to qualified, talented students who seek advanced training in music.

J. Milton Skeath Memorial Scholarship of \$250 is available for a psychology major.

Samuel Willard Memorial Scholarships are awarded to a junior or senior student at Lycoming who is in need of financial assistance to complete his/her degree. Preference is given to a Religion Major. The award varies between \$400 and \$700 depending upon available scholarship endowment income.

H. Merrill Winner Memorial Scholarship of \$400 is available.

Hiram and Elizabeth Wise Scholarship of \$100 is available for a ministerial or missionary student who, because of present circumstances and promise of future usefulness shall, in the judgment of the President, be deemed worthy of the same.

Dr. Paul E. Witmeyer Memorial Scholarship of \$250 is available for a student interested in education.

Donald C. Wolfe Memorial Schol-

arship of \$400 is available for a worthy ministerial student to be selected by the Trustees.

Raymond A. and L. Marie Zimmerman Scholarship of \$100 is available for the benefit of students preparing for the Christian ministry.

The Lycoming County Scholarship Fund is an endowed scholarship which provides interest annually to be awarded to students whose permanent residence is in Lycoming County. Preference will be given to entering freshmen who demonstrate financial need. Recipients will be selected by the Director of Financial Aid.

FEDERAL AID

Congressional Teacher Scholarship is available to residents of Pennsylvania who rank in the top 10 percent of their high school class and plan to enter the elementary or secondary teaching field. Scholarships are for up to \$5,000 and the student must sign an agreement to teach. More information is available from your high school guidance counselor or Lycoming's Financial Aid Office.

PELL Grants are awarded by the Federal government to eligible undergraduate students as determined by a standard Federal formula. The grants will range up to \$2,100 for an academic year and are based on financial need determined by a formula developed annually by the Education Department and reviewed by Congress. Application can be made when submitting the Financial Aid Form (FAF), the PHEAA State Grant Application, or by separate federal application on forms which are available in secondary school guidance offices or the Financial Aid Office at Lycoming. For a student who received his or her first Pell Grant award in the 1987-88 award year, the duration of the student's eligibility for a Pell Grant is limited to the full-time equivalent of 5 academic years of study if the student is enrolled in an undergraduate degree or certificate program of 4 years or less.

Supplemental Educational Opportunity Grants are awarded to a limited

number of undergraduate students who have exceptional need. The award range is \$200 to \$4,000 per year. You are required to file the FAF to be considered for this award.

STATE AID

Pennsylvania Higher Education Assistance Agency (PHEAA) Grants are available for Pennsylvania residents meeting the residency requirements and financial requirements of the program. Awards range from \$100 to \$1,750 per year for up to four years. Direct application to Harrisburg on the PHEAA Grant application is required. The deadline for filing to receive consideration is normally May 1st.

Scholars in Education Awards (SEA) are offered to PA residents through PHEAA to students who plan to teach math or science in Pennsylvania secondary schools. Must rank in the top fifth of your high school class, achieve at least a 3.0 (B) average on a 4.0 scale in math or science course in high school and for college, and score at least 1000 on the SATs (math must be at least 550) or on ACT have at least 22 in English and 27 in math. Award is 50% of annual tuition. You must agree to teach math or science in a Pennsylvania secondary school. If you fail to keep the commitment the grant becomes a loan with interest. High school seniors should contact your guidance counselor. College students should contact Lycoming's Financial Aid Office.

Other State Aid may be available to assist you at Lycoming College. Massachusetts, Ohio, Delaware, Rhode Island, and Connecticut have programs which allow their residents to use state grants at Lycoming. Contact your secondary school guidance office for specific information and application forms.

LOAN PROGRAMS

Perkins Loan (National Direct Student Loan Program) permits a total of \$9,000 to be borrowed by the under-

graduate student at a rate not to exceed \$4,500 the first two years. Preference must be given to those who have exceptional need. Applicants must complete the FAF through the College Scholarship Service. The repayment period and the interest does not begin until six months after the student is graduated or ceases at least half-time enrollment. Loans bear interest at the rate of 5% simple interest. Repayment of the principal may extend over a ten-year period with the exception that the Program requires repayment of not less than \$30 per month.

The Guaranteed Student Loan Program (GSLP) allows students to borrow up to \$2,625 as a freshman or sophomore or up to \$4,000 as a junior or senior per academic level not to exceed \$17,250. Currently, the Federal Government pays the interest while the student is enrolled at least half-time. The simple interest rate ranges from 7-9 percent depending upon the date you first obtained a loan. Repayment usually extends over a period of up to ten years and begins six months after leaving school. Applications and information are available from your bank or other lending institutions.

PHEAA Help Alternative Loan of up to \$10,000 is available to students attending a Pennsylvania school through PHEAA. Eligibility is based on your credit qualifications and those of your cosigner. For more information contact PHEAA, 660 Boas Street, Harrisburg, PA 17102.

PHEAA Nonsubsidized GSLs are available to students attending a Pennsylvania school at 8% interest through PHEAA. Students must not be eligible for a maximum subsidized GSL and must not be packaged with SEOG, CWS, or Perkins Loan. The maximum loan amount is up to \$2,625 minus GSL subsidized eligibility for freshmen and sophomore standing and \$4,000 minus GSL subsidized eligibility for junior and senior standing.

PLUS/SLS Loans are meant to provide additional funds for educational expenses. The interest rate is adjustable. Parents of dependent undergraduate stu-

dents or independent undergraduates may borrow up to \$4,000 per year to a total of \$20,000. Applications and information are available from your bank or other lending institution.

United Methodist Student Loans are available on a very limited basis to students who are members of the United Methodist Church. The maximum amount which may be borrowed for an academic year is \$800 subject to availability of funds. Information and applications are available through the Financial Aid Office.

EMPLOYMENT OPPORTUNITIES

Federal College Work-Study Program (CWSP) awards provide work opportunities on campus. The program is funded by Federal funds supplemented by Lycoming funds. Students generally earn \$500 to \$1,500 per academic year and are normally limited to five to twenty hours per week during periods of regular enrollment. The purpose of the program is to provide employment to students who are in need of assistance to attend college. Applicants must complete the FAF.

Lycoming Campus Employment Program opportunities are provided on campus to students enrolled full time who are not packaged with Federal Work-Study jobs. The earnings range up to \$1,500 per year. Applicants must have a work supervisor complete a job request form from the Financial Aid Office.

Other Job Opportunities are frequently available with local business firms or persons. Contact the Career Development Office of the College for information on these opportunities.

OTHER AID SOURCES

Non-College Aid Opportunities often are available through family employers or labor unions, business firms, fraternal and religious organizations, and secondary schools. Contact your secondary school guidance office

for information. Your parents should contact their employer and organizations of which they are members for information on any financial aid sources.

Veterans and Dependents Benefits are available for qualified veterans and children of deceased or disabled veterans. Application should be made to your nearest Veterans' Administration Office.

Reserve Officers Training Corps (ROTC) Scholarships. Students who participate in Army ROTC are eligible for three, two, or one-year ROTC Scholarships to finance tuition, books, laboratory fees, and other charges with the exception of room and board. ROTC students may also receive \$100 per month stipend during the academic year.

Reserve Officers Training Corps (ROTC) Stipends. Students who participate in the Army ROTC program receive \$100 per academic month of their junior and senior years. They also

receive half of a second lieutenant's pay plus travel expenses for a six-week advanced summer camp between junior and senior years.

Pennsylvania National Guard. Students participating in this program may be eligible for scholarship, credit programs, educational bonus, or loan repayment. Contact a Guard Unit in your area for more information.

Tuition Exchange Grants — Lycoming College is a member of both the Tuition Exchange Program and the CIC Tuition Exchange Program. These programs are for dependent students of employees at participating institutions of higher education. You should contact the Tuition Exchange Officer at your host institution for information regarding sponsorship.

Education Financing Plans. The Business Office at Lycoming provides information about plans which enable parents to pay college expenses on a monthly basis through selected companies.

The Campus

Eighteen buildings sit on Lycoming's 20-acre main campus. Most buildings have been constructed since 1950, even though Lycoming — one of America's 50 oldest colleges and universities — dates back to 1812. All buildings are easy to reach from anywhere on campus. A 12-acre athletic field and football stadium lie a few blocks north of the main campus.

Modern buildings include the eight residence halls, which contain clean and comfortable single and double rooms; the library; the student union; and the physical education/recreation center. Up-to-date facilities include the theatre, the planetarium, the computer center, an electronic-music studio, a photography laboratory, and an art gallery. The computer center opened in 1969; the art gallery and physical education center opened in 1980. An arts center was renovated and opened in 1983.

RESIDENTIAL

Asbury Hall (1962) — Sleeps 154 students. Named in honor of Bishop Francis Asbury, the father of The United Methodist Church in America, who made the circuit through the upper Susquehanna District in 1812, the year Lycoming (then the Williamsport Academy) opened its doors.

Crever Hall (1962) — Sleeps 126 students in two-room suites with bath. Honors Lycoming's founder and first financial agent, the Rev. Benjamin H. Crever, who helped persuade the Baltimore Conference to purchase the school from the Williamsport Town Council in 1848.

East Hall (1962) — Houses most of the chapters of Lycoming's national fraternities and other students. The self-contained fraternity units each contain rooms, a lounge, and a chapter room. All students share a large social area.

Forrest Hall (1968) — Sleeps 92 students in two-room suites with bath. Honors Dr. and Mrs. Fletcher Bliss Forrest and Anna Forrest Burfiendt '30, the parents and sister of Katherine Forrest Mathers '28, whose generosity established the memorial.

Rich Hall (1948) — Sleeps 105 students

in two-room suites with bath. Honors the Rich family of Woolrich, Pennsylvania. Houses the health service and the Sara J. Walter Lounge for commuting students. The Writing Center opened in January, 1986, and is located in the North Lounge on the First Floor. It is manned by peer tutors and professional staff during specified hours on Sunday through Friday.

Skeath Hall (1965) — The largest residence hall, it sleeps 212 students. Honors the late J. Milton Skeath, professor of psychology and four-time Dean of the College from 1921 to 1967.

Wesley Hall (1956) — Sleeps 144 students. Honors John Wesley, the founder of Methodism.

Williams Hall (1965) — Sleeps 146 students in two-room suites with bath. Honors Mary Ellen Whitehead Williams, mother of Joseph A. Williams, of St. Marys, Pennsylvania, whose bequest established the memorial.

ACADEMIC

Academic Center (1968) — Probably the most architecturally impressive building on campus, the center actually is composed of four buildings: the library, Wendle Hall, the Arena Theatre and laboratories, and the faculty office building.

Library: Contains more than 150,000 volumes and up to 1,000 periodical titles, the Art Gallery, the computer center, a nursing skills laboratory, and a comfortable lounge that is utilized for study and special events. It can accommodate 700 students, and serves as a federal repository.

Art Gallery (1980:) Located in the northwest corner of the first floor of the library, the gallery contains exhibits year-round, including shows of student work.

Computer Center (1969): Located in the lower level of the east wing of the Academic Center, the center houses a PRIME 9750 computer which replaced the DEC PDP11/70 in December, 1986. The 9750 has two 300

megabyte disk drives and 8 megabytes of main memory. In addition, seven IBM compatible PC's and an Apple II PC are available. The PRIME is being used for both administrative data processing and in support of the instructional program.

The computer graphics center provides the IBC Ensign Computer for students majoring in computer science and for those taking graphics courses. It has 32 ports for terminals and printers, 2 megabytes of memory, and two 85 megabyte disk drives. Available for student use are eight color graphic terminals by Intecolor, a high resolution color graphic display by AED, two black and white and one color graphic printers.

Mass Communication Center (1987) — The focal point of the facility is a fully equipped, broadcast quality television studio and control room. The building also houses two editing rooms, a classroom, faculty offices and the student newspaper office. The center is located on the southeast corner of campus.

Nursing Skills Laboratory (1983): Located in the lower level of the library, it is a replica of a modern hospital ward, complete with 10 simulated work stations, a nurses' station, and all the medical equipment used by nurses.

Wendle Hall: Contains 21 classrooms, the psychology laboratories, a computer terminal laboratory with 20 terminals available for use at present with an expansion capability of 20 more, and spacious Pennington Lounge, an informal meeting place for students and faculty.

Arena Theatre and Laboratories: The 204-seat thrust-stage theatre is one of the finest in the region. It includes projection facilities, scene and costume shops, a make-up room, and a multiple-use area known as the Down Stage, where one-act experimental plays are performed. The language, business, mathematics, and physics laboratories are situated on the upper floors. The Detwiler Planetarium is located on the ground floor.

Faculty Office Building: Contains faculty offices, seminar rooms, and a 735-seat lecture hall.

Fine Arts Center (1923, renovated 1983) — Contains studios, sculpture foundry, woodshop, printmaking shop, classrooms, lecture hall, offices.

Photographic Laboratory (1984): Located in the lower level of the Fine Arts Center, it contains all the materials and equipment of any commercial laboratory.

Science Building (1957) — Includes the biology and chemistry laboratories, classrooms, faculty offices, a lecture hall, and a greenhouse.

Clarke Building (1939) — Includes recital hall, music classrooms, practice studios, an electronic-music studio, faculty offices, two chapels, and the United Campus Ministry Center.

ADMINISTRATION

John W. Long Hall (1951) — Opened originally as the library, it now houses the administrative offices, including those for the president, dean, treasurer, registrar, admissions, alumni affairs, public relations, institutional advancement, career development, publications, and financial aid. It includes a reception area, central communications, and the printing and bulk mail office.

RECREATION

Physical Education and Recreation Center (1980) — Includes the George R. Lamade Gymnasium, which contains basketball and other courts; a six-lane swimming pool; all-purpose room; sauna and steam room; weight room; offices; classrooms, and Alumni Lounge.

Wertz Student Center (1959) — Contains the main and private dining rooms, Burchfield Lounge, a recreation area, game rooms, music room, theatre, cafe with stage, bookstore, post office, student organization offices, and FM radio station. Honors Bishop D. Frederick Wertz, president of Lycoming from 1955 to 1968.

RELIGIOUS

Clarke Building (1939) — Lycoming's landmark, the building contains Clarke Chapel, St. John Neumann Chapel, the United Campus Ministry Center, and music department studios and offices.

Academic Calendar: 1987-88

	Fall Semester	Spring semester
Bills are due	August 25	January 4
Orientation of new faculty	August 28	
Residence halls open	August 30	January 10
Faculty available for advising	August 31	
Classes begin first period	September 1	January 11
Processing of drop/add begins	September 1	January 11
Re-registration fee of \$25 applies after this date	September 7	January 15
Last day for drop/add	September 7	January 15
Last day to elect audit and satisfactory/unsatisfactory grades	September 7	January 15
Last day for submission of final grades for courses for which Incomplete grades were recorded in Spring, May, and summer terms	October 12	
Last day for submission of final grades for courses for which Incomplete grades were recorded in fall semester	February 19	
Mid-semester deficiency reports for freshmen due in Registrar's Office at noon	October 19	February 26
Residence halls close at 9 p.m. for spring recess	February 26	
Residence halls open at noon after spring recess	March 6	
Classes resume first period after spring recess	March 7	
Preregistration for students who have completed at least one semester	October 27-29	
Preregistration for sophomores and juniors	March 30, 31	
Preregistration for freshmen	April 6-7	
Last day to withdraw from courses with W, WP, WF grades	April 8	
Residence halls close at 10 a.m. for Thanksgiving recess	November 25	
Residence halls open at noon after Thanksgiving	November 29	
Classes resume first period after Thanksgiving	November 30	
Final examinations begin	December 14	April 25
Semester ends at 5 p.m.	December 18	April 29
Residence halls close at 9 p.m.	December 18	April 29
Residence halls open	May term	Summer term
Classes begin	May 8	June 5
Last day for drop/add	May 9	June 6
Last day to elect audit and satisfactory/unsatisfactory grades	May 10	June 8
Last day to withdraw from courses with W, WP, WF grades	May 27	June 8
Term ends	June 3	July 1
Residence halls close at 4 p.m.	June 3	July 15

Special dates to remember:

Freshman convocation	September 1
All-College picnic	September 5
Labor Day (classes in session)	September 7
Homecoming Weekend	October 9-11
Long weekend (classes suspended)	October 16
Admissions Open House	October 24
Parents Weekend	November 1
Admissions Open House	November 14
Thanksgiving recess	November 25-29
Spring recess	February 26-March 6
Honors Day	April 12
Good Friday (afternoon classes suspended)	April 1
Baccalaureate	May 8
Commencement	May 8
Memorial Day (no classes)	May 30
Independence Day (no classes)	July 4

Circulation Supervisor

1987-88 Alumni Association Executive Board

The Alumni Association of Lycoming College has a membership of nearly 11,000 men and women. It is governed by an executive board consisting of 24 members-at-large, elected through mail ballot by the membership of the association. The board also has members representing specific geographic areas, the senior class president, the student body president, and past presidents of the last graduating class and the Student Association of Lycoming College. The association annually designates one alumni representative as a nominee for a three-year term on the College board of trustees. The Director of Alumni and Parent Relations directs the activities of the alumni office. The Alumni Association has the following purpose as stated in its constitution: "As an off-campus constituency, the association's purpose is to seek ways of maintaining an active and mutually beneficial relationship between the College and its alumni, utilizing their talents, resources and counsel to further the objective and program of Lycoming College."

All former students of Williamsport Dickinson Seminary and all former students who have successfully completed one year of study at Williamsport Dickinson Junior College or Lycoming College are considered members of the association.

Acting as the representative of alumni on the campus and working also with undergraduates, the alumni office is responsible for keeping alumni informed and interested in the programs, growth, and activities of the College through regular publications mailed to all alumni on record. Arrangements for Homecoming, class reunions, club meetings, and similar activities are coordinated through this office. Through the Lycoming College Fund, the alumni office is closely associated with the development program of the College. Communications to the alumni association should be addressed to the Office of Alumni and Parent Relations.

1987-88 ALUMNI ASSOCIATION EXECUTIVE BOARD

Term Expires June 1988

Carolyn Moday Edwards (Mrs.) '61, 1521 Elmira St., Williamsport, PA 17701
